14.3 FUNCTIONALITY

- 14.3.1 Functionality is to be used as a threshold. Tender offers that fail to score the minimum number of evaluation points for Functionality will be rejected as non-responsive.

The evaluation criteria for measuring Functionality are:

(i) Tenderer's Experience:

- (a) It is essential that Tenderers submit reference(s) issued by Client for work/projects awarded, in progress or completed. Such reference must be in the client's letterhead and signed by the authorised Client's representative.

The reference(s) must be issued in an authorised Client's letterhead prepared and signed by the client. They must comprise of the authorised project/contract number and full description, detail of work in a similar nature undertaken, project value and project period undertaken (start date and completion date).

- (b) Failure to submit a reference and/or without project description and/or project period (full start and end date) and/or project value will result to no scoring in tenderer experience criteria.
- (c) For ease of reference, Tenderers are required to complete the Schedule of Experience by Tenderer on page 17 listing projects/work as per the attached documentation in SCT14.3.1(i)(a) above.

ii) Financial Capability:

- (a) The criteria will be evaluated based on the value of the awarded and fully completed project.
- (b) The Tenderer must ensure that the project value is prescribed in the submitted reference letter, as stated in Clause SCT 14.3.1(i) above. Failure to include the project value in the reference letter or not submit a valid reference letter shall signify zero score.

- (c) The Tenderer's attention is drawn to the fact that the score in this criterion will be calculated on one (1) fully completed project with a highest project value (where there are several projects awarded).

iii) Key Personnel's Experience:

- (a) It is essential that Tenderers submit curriculum vitae (CV) for each key personnel experience in previous and/or current employment. It must contain detailed job description and duration of employment (full start and end date).
- (b) Failure to submit the curriculum vitae will result to no scoring in key personnel experience criteria.
- (c) For ease of reference, Tenderers are required to complete the Schedule of Experience by Key Personnel on page 18 listing personnel as per the attached documentation in SCT14.3.1(iii)(a) above. The Tenderer's attention is drawn to page 18 for a guide to prepare CVs.

iv) Transportation and Waste Disposal:

- (a) It is essential that Tenderers submit logbook(s) of the vehicles owned by the Tenderers and intending to utilise in this contract. If the vehicle is still owned by the financial institution/bank a confirmation letter must be submitted. Submission of vehicle registration receipts instead of logbooks will not be considered.
- (b) Where a tenderer intends to hire, a signed letter issued by a registered vehicle/plant hire company (letter not older than one (1) month as at close of tender) must be submitted detailing the quantity, type and size of vehicle(s).
- (c) Where a tenderer intends to hire vehicle/plant from a private individual, a confirmation letter must be accompanied by the logbook(s) registered in the individual's name. If the vehicle is still owned by the financial institution/bank a confirmation letter must be submitted. Reference must be made to Clause 9 of Section 7 (Scope and Specification of Required Work/Services) for the required vehicles.
- (d) Failure to submit any of the above will result to no scoring in transportation criteria.
- (e) For ease of reference, Tenderers are required to complete the Schedule of Vehicles on page 19 listing vehicles as per the attached documentation in SCT14.3.1(iv)(a) and/or SCT14.3.1(iv)(b) above.

14.3.2 The evaluation criteria for measuring functionality are:

- (i) The minimum number of evaluation points for Functionality is 70%.
- (ii) Scores of 0, 40, 70, 90 or 100 will be allocated to no response, poor, satisfactory, good and very good, respectively.

14.3.3 The Tenderer's attention is drawn to the fact that:

- i) Having had performed work of similar nature in the area you are now bidding for, does not imply that you will automatically be awarded a score or the contract without complying to SCT14.3.1 and SCT14.3.2 above.
- ii) 6W-34284, 6W-34285, 6W-34287, 6W-34288, 6W-34289, 6W-34290, 6W-34291, 6W-34292 and 6W-34293 are advertised simultaneously. No Tenderer will be awarded more than one of these nine (9) tenders. In the event that Tenderers are considered most responsive for multiple tenders, the recommendation for award across the above tenders will be based such that best value for money is obtained for the Municipality.

SCT 18 ACCEPTANCE OF THE BID**18.1 Risk Mitigation**

In line with Clause 18 of the Conditions of Tender where the Municipality states that it does not bind itself to accept the lowest or any *tender*, and reserves the right to accept the whole or any part of a *tender* to place orders, Clause 18.1 further states that should the Tenderer's price be below the determined average market related prices by a variance of 20% or more, the price shall be deemed non-responsive.

3.2 **ADDITIONAL CONDITIONS OF TENDER (ACT)**

ACT 1 **ELIGIBILITY – CSD REGISTRATION**

Tenderers are required to be registered on the National Treasury Central Supplier Database (CSD) as a service provider. In the case of a Joint Venture, this requirement will apply individually to each party in the Joint Venture. - (ii) The bill of quantities / schedule of rates must be aligned to the balance of rates to ensure that the operational components of the project will be realised for the duration of 36 months.

The items' sum will be taken into consideration in the evaluation of tenders in order to certify that Clause ACC22 (minimum wage) and Clause ACC23 (minimum number of employed workers) will be complied with by sustaining the payment of general workers for a period of thirty-six months. Any tender whose total sum of Bill of Quantities' items, stated herein, is below the total of 36 months wages as per Clauses ACC22 and ACC23 will be deemed unbalanced and regarded as non-responsive.
- (iv) In addition to ACT2(iii) above, the consistent transportation of the collected waste is very crucial. Therefore, the swift service delivery is dependable on the readily available and roadworthy vehicles. It is therefore imperative that the costs of operating these vital resources is accurately integrated in the bill of quantities. Notwithstanding all the relevant costs impacting on the operation of vehicles, the average daily mileage for collecting and disposing the waste to the farthest landfill site being Buffelsdraai landfill site is estimated at 155 kilometres. The relevant cost per kilometre prescribed by Automobile Association, at the time of tender, shall be applied to evaluate the realistic transportation costs in the Bill of Quantities 2.1; 2.2; 2.3 and 3. 2.0 DEFINITIONS

2.5 “**the Act**” means the Preferential Procurement Policy Framework Act, 2000 (Act No. 5 of 2000).

3.0 FORMULA FOR CALCULATION OF PREFERENCE PRICE POINTS

3.1 PROCUREMENT OF GOODS AND SERVICES

PRICE POINTS: A maximum of 90 points is allocated for price on the following basis:

90 / 10 Points System

$$P_s = 90 \left(1 - \frac{P_t - P_{min}}{P_{min}} \right)$$

Where:

P_s = Points scored for price of tender under consideration

P_t = Price of tender under consideration

P_{min} = Price of lowest acceptable tender

4.0 POINTS AWARDED FOR SPECIFIC GOALS

- 4.1 In terms of Regulation 4(2); 5(2); 6(2) and 7(2) of the Preferential Procurement Regulations, preference points must be awarded for specific goals stated in the tender. For the purposes of this tender the tenderer will be allocated points based on the **points claimed** for the goal(s) stated in **Table 1** below, as supported by proof/ documentation stated in the **Conditions of Tender**:
- 4.2 In cases where the municipality intends to use Regulation 3(2) of the Regulations, which states that if it is unclear whether the 80/20 or 90/10 preference point system applies, the municipality must, in the tender documents, stipulate in the case of:
 - (a) an invitation for tender for income-generating contracts, that either the 80/20 or 90/10 preference point system will apply and that the highest acceptable tender will be used to determine the applicable preference point system, or
 - (b) any other invitation for tender, that either the 80/20 or 90/10 preference point system will apply and that the lowest acceptable tender will be used to determine the applicable preference point system,

then the municipality must indicate the points allocated for specific goals for both the 90/10 and 80/20 preference point system.
