Feasibility analysis

A feasibility analysis report for the project; will also be expected. The five principle areas of feasibility that the Service Provider is expected to also take into consideration are technical, economic, legal, operational and scheduling.

Technical: Is the project technically feasible? The Service Provider Given has to overview technical capabilities of the organization, including the availability of skilled staff and appropriate facilities.

Economical: Is the project affordable given the economic resources available? Even if it can be afforded, is the projected return on investment sufficient? A project that is simply too expensive and which doesn't offer sufficient economic benefits is not feasible.

Legal: Is the proposed venture in compliance with applicable laws and regulations?

Operational: Is the project in line with the operations and objectives of the organization?

Schedule: Given the recommended schedule, is it realistic to expect that the project will be completed on time? If the project takes too long to complete, costs can escalate and the overall feasibility can be negatively affected.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.

- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.

- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.

- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
