

		SCOPE OF WORKS
AREA	SCOPE OF WORKS	
<b>SORTING FACILITY</b>		
Terminal Basement	<p>The total floor area of the sorting facility is: 15.60 x 19.6 x 6.86m - 2098m<sup>3</sup></p> <p><b>Provide the following equipment:</b></p> <ol style="list-style-type: none"> <li>1. Suitable sorting table for the sortation process.</li> <li>2. Sorting racks for the placements of bulk bags</li> <li>3. Suitable bailing machine for the various waste streams generated.</li> <li>4. General non-recyclable waste compactor with bin lifter suitable for the anticipated waste volumes.</li> <li>5. Weigh scale to weigh waste generated and sorted.</li> <li>6. Suitable containers/storage units for recyclables and non-compactibles.</li> <li>7. Suitable skips and glass storage units for the waste volumes.</li> <li>8. High pressure cleaning equipment to clean wheelie bins and the sortation facility</li> <li>9. Vehicles and drivers to meet service levels required.</li> <li>10. Odour control unit – ozone machine installed within the waste sortation facility.</li> </ol> <p><b>Services</b> <b>Perform the following activities:</b></p> <ol style="list-style-type: none"> <li>1. Separate and sort waste accordingly into the various waste streams generated.</li> <li>2. Bailing of recyclables/non compactible waste streams and loading into designated containers/storage areas.</li> <li>3. Maintaining adequate stock of clean wheelie bins for rotation to all applicable areas</li> <li>4. Compacting of waste for landfill disposal.</li> <li>5. Cleaning of all equipment and wheelie bins.</li> <li>6. Maintain and ensure good housekeeping standards are maintained.</li> <li>7. Service and maintain odour control unit in line with OEM specifications.</li> </ol> <p><i>Note: The service provider may be called upon to increase or decrease resources in order to achieve the required service levels all at the discretion of ACSA.</i></p>	
Airside Domestic Transfer Station	<p><b>Provide the following equipment:</b></p> <ol style="list-style-type: none"> <li>1. Provide sufficient clean bins for waste collection and rotation once full.</li> </ol> <p><b>Services</b> <b>Perform the following activities:</b></p> <ol style="list-style-type: none"> <li>1. Transferring waste for later sortation at the basement waste facility for landfill disposal/ recycling.</li> <li>2. Cleaning of all work areas equipment and wheelie bins.</li> <li>3. Maintain and ensure good housekeeping standards are maintained.</li> </ol> <p><i>Note: The service provider may be called upon to increase or decrease resources in order to achieve the required service levels all at the discretion of ACSA.</i></p>	
Low Performance Damages	<ol style="list-style-type: none"> <li>1 <b>Failure of vehicles machinery and cleaning equipment - Refer to service levels in relation to Machinery, Vehicles and equipment.</b> Note: In the event of breakdown the service provider will be permitted to close the breakdown within the agreed time period. However the bidder will still be required to achieve the outputs outlined in the specification. The service provider must make allowance to provide alternate means to achieve the output outlined in the specification.</li> <li>2 <b>Failure to sort daily waste volumes generated</b> Response time - 60 minutes from notification When - Any given time (Within specified operations) Damage Claim - R250.00</li> <li>3 <b>Failure to appropriately store sorted waste streams for transfer</b> Response time - 30 minutes from notification When - Any given time (Within specified operations) Damage Claim - R250.00</li> <li>4 <b>Failure to clean, sanitize and maintain good house keeping within the facility</b> Response time - 30 minutes from notification When - Any given time (Within specified operations) Damage Claim - R100.00</li> </ol>
