10.	Exposed Back Inlet Toilet Flush Valve - Chrome				
11.	Junior Flushmaster Urinal Flush Valve				
12.	Isolating Ball Valve Fx F 15mm				
13.	Isolating Ball Valve Fx F 22mm				
14.	Temperature Pressure and Safety Valve 200KPA				
15.	Pressure Control Valve 600KPA (Specifications)				
	Delivery cost				

	SUBTOTAL				
	VAT @15%				
	TOTAL				

The total amount in the above table is for price and specific goals evaluation purpose only as it is not practical to determine the total bid price due to the nature of the required services.

1. SUPPLY AND DELIVERY AT COST PLUS

For any other spares or consumables not included on the list of the requirements, the service provider will be required to supply at a cost-plus mark-up. This means an appointed service provider will source the required maintenance spares and charge CGS mark-up % and the supplier will be required to support their cost with an actual quote/invoice from where these materials would be bought

MARKUP PERCENTAGE ON SPARES/COMPONENTS REQUIRED

Markup (%) - spares%
---------------------	--------

TREATMENT OF ARITHMETIC ERRORS IN THE BID PRICE

If the pricing schedule applies and there is an error in the line-item total resulting from the product or services of the unit rate and quantity, the line-item total shall govern, and rate shall be corrected. Where there is obviously gross misplacement of the decimals point in the unit rate, the line-item total as quoted shall govern and the unit rate shall be corrected.

Where there is an error in the prices, either as result of other corrections required by the checking process or in the bids addition of prices, the total of the prices shall govern, and the service provider will be asked to revise selected item prices to achieve the total quoted price.

No bidder shall be offered competitive advantage to change total quoted prices after the closing of the bid.
