

## **NOTES**

Above illustration is just an example of how the Electrical tool box is packed.

- The tool Box must be made of Aluminium. The toolbox name/brand above **IS NOT** prescribed.
- The tool box has various compartments.
- Tools are neatly stacked in a "sponge" feel holder, with the shapes of the tools and every tool has its specific compartment.
- The order of packing **IS NOT** prescribed. However all the tools in Specifications Annexure B MUST fit inside the toolbox.
