

**OFFICE OF THE SUPPLY CHAIN MANAGEMENT**

**1.1 DESCRIPTION OF SERVICE: ...PTO CYLINDER NEEDS TO BE FIXED ON THE CASE JX 1070N TRACTOR**

**BACKGROUND**: The shaft on the tractor keeps on working although the PTO cylinder is turned off.

**PURPOSE**: So that there is no wastage of herbicide when controlling weed in the orchards. It is dangerous for the tractor operator if the shaft keeps on turning when the tractor is turned to get into a next row, because the shaft can break and harm the tractor driver.

**SCOPE OF WORK**: Cost effective application of herbicides in the orchards and prevention of injuries.

SPECIFICATION	Comply with specification. Please indicate (Yes or No)		
	Yes	No	If no, indicate deviation
