SACPCMP – Section 18 Categories of Registration

The Project and Construction Management Professions Act No. 48 of 2000 directs that a person assuming responsibility for Project and Construction works should be registered in the appropriate category with the SACPCMP in order to comply with legal and statutory requirements in South Africa.

The Client (Eskom) fully comprehends that Section 18(1) (a) or (b) of the Act indicates/list the categories that a person may register in Project and Construction Management Profession.

In relation to gazette notices, such work, services and deliverables are identified for the disciplines of (a) Professional Construction Managers, Professional Construction Project Managers, and (b) Construction Mentorship (Candidate Construction Managers; or Candidate Construction Project Managers).

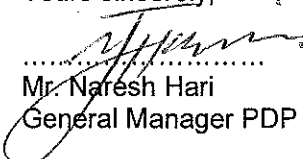

Requirements and Validation:

- Proof of registration shall be submitted as part of procurement returnable.
- Proof of registration (annual renewal) shall be available on site at all times.
- Where a change of personnel is made, the contractor shall inform the Client in time and new or additional proof of registration shall be submitted for verification.
- Should none of the identified personnel meet the requirements as contemplated in the Act, the Contractor shall not be allowed to commence or continue with any activities. These include National contracts where applicable.

Note: A person may not practice in any of the categories contemplated in subsection (1), unless he or she is registered in that category.

A person who is registered in the category of candidate must perform work in the project and construction management professions only under the supervision and control of a professional of a category as prescribed.

Yours sincerely,

.....
Mr. Naresh Hari
General Manager PDP
