ageing outdoor screens. The new screens must be of equal or superior quality and visual impact to the units shown in the attached reference photograph

Technical Specifications

Screen Type: High-brightness outdoor LED or direct-view LED digital signage display (preferred) or industrial-grade LCD with high-brightness backlight.

Size: Recommend 85 inches diagonal (or larger). The final size must be proposed by the supplier and approved to ensure good visibility from the intended viewing distances at each site.

Resolution: Minimum Full HD (1920 × 1080), 4K (3840 × 2160) is preferred.

Brightness: Minimum 2,500 nits (daylight-readable). Higher brightness (3,500 – 5,000 nits) is preferred.

Viewing Angle: 160° horizontal and vertical minimum.

Weatherproof Rating: IP65 or higher (fully dust-tight and protected against water jets from any direction).

Operating Temperature Range: -20°C to +50°C.

Humidity: 10% to 95% (non-condensing).

Anti-Glare / Anti-Reflective: Recommend anti-glare coating or matte finish suitable for outdoor use.

Mounting: Freestanding, self-supporting structure with sturdy legs/base similar to the existing installation (see reference photo). The design must be stable, wind-resistant, and include adequate anchoring/foundation details.

Connectivity: Standalone (no connection to corporate network). Preference for 4G/5G LTE with fallback. VSAT is acceptable but not mandatory.

Media Player: Built-in media player (preferred) or dedicated external media player fully integrated into the screen enclosure. Must support 24/7 continuous operation.

Operating Hours: 24 hours per day

Warranty: Minimum 5 years on-site parts and labour warranty on the screen, LED modules, and power supply.
