17.4 CONTRACT PRICE ADJUSTMENT

17.4.1 Formula

Prices submitted for this bid will be regarded as firm and subject to adjustment(s) in terms of the following formula, defined areas of cost and defined periods of time.

Applications for price adjustments must be accompanied by documentary evidence in support of any adjustment claim.

The following price adjustment formula will be applicable for calculating contract price adjustments (CPA).

$$Pa = (1-V) Pt \begin{pmatrix} R1t \\ ---- \\ Rlo \end{pmatrix} + D2 \begin{pmatrix} R2t \\ ---- \\ R2o \end{pmatrix} + D3 \begin{pmatrix} R3t \\ ---- \\ R3o \end{pmatrix} + Dn \begin{pmatrix} Rnt \\ ---- \\ Rno \end{pmatrix} + VP1$$

-				
			(
	1			
4	4	-		

	_	
Pa	=	The new adjusted price to be calculated
V	=	Fixed portion of the bid price (15% or 0.15)
Pt	=	Original bid price. Note that Pt must always be the original bid
		price and
		not an adjusted price
(1-V)Pt	=	Adjustable portion of the bid price (85% or 0.85)
D1 – Dn	=	= Each factor (or percentage) of the bid price, e.g., material,
-		labour, transport, overheads, etc. The total of the various
		factors (or percentages) D1 – Dn must add up to 1 (or 100%).
R1t – Rnt	=	= End Index. Index figure obtained from the index at the end
		of each
	2 1	adjustment period
R1o-Rno	=	Base Index. Index figure at the time of bidding.
VPt	=	15% (or 0.15) of the original bid price. This portion of the bid
		price 'remains fixed, i.e. it is not subject to price adjustment.

17.5 FORMULA COMPONENT DEFINITIONS

17.5.1 Adjustable amount

The adjustable amount is the portion of the bid price which is subject to adjustment. In this bid the adjustable amount is 85% of the original bid price. For example, if the bid price is R1000, then only R850 will be subject to adjustment.

17.5.2 Fixed portion

The fixed portion represents those costs which will not change over the adjustment period and <u>DOES NOT</u> represent the profit margin. In this bid the fixed portion is 15% of the original bid price. Using the same example as above, it would amount to R150 which will remain fixed over the contract period.

26

17.5.3 Cost components and proportions

- a) The cost components of the contract price usually constitute the cost of materials (raw material or finished product), cost of direct labour, cost of transport and those other costs which are inclined to change. The proportions are the contribution to the contract price of each of these cost components. In this bid the following cost components will be used to calculate contract price adjustments.
- b) Bidders are requested to submit the cost breakdown of the bid price for each item with their bid. Should the cost breakdown be the same for all items on the bid, please indicate it clearly in the bid document. Successful bidders will not be allowed to change the cost breakdown of bid prices during the tenure of the contract.
- c) In a case where the same cost components are applicable to all items offered please fill out the Cost components document attached with the bid other than that cost components must be indicated on each line item when finalising pricing schedule.

Cost Component	% Contribution
D1- Imported Raw Material / Finished product (if applicable)	
D2 - Local Raw Material / Finished product (if applicable)	
D3 - Labour	
D4 - Transport	
D5 – Housing and utilities	
D6 – Other	
TOTAL (Cost components must add up to 100%)	100 %

17.5.4 Applicable indices / references

The applicable index refers to the relevant market index, which is a true reflection of price movement(s) in the cost over time. In this bid the following indices or reference will be applicable:

27

Cost component	Index Publication	Index Reference
D1 – Imported Raw Material /	Supplier / Manufacturer	Documentary evidence to accompany

17.5.5 Base Index Date

The base index date applicable to the formula is defined as the date at which the price adjustment starts. In this bid the base index date is 2023-01-01.

17.5.6 End Index Date

The end index dates are the dates at predetermined points in time during the contract period. In this bid the end indices are defined in the next paragraph (Price Adjustment Periods).

17.5.7 Price Adjustment Periods

Adjustment to contract prices must be applied for after one year period of the signing of the contract at The Head: Procurement and Contract Management Supply Chain Management Private bag x 254, Pretoria, 0001.

28

Contractors must advise the SAPS Contract Management immediately when unforeseeable circumstances will adversely affect the execution of the contract.

17.6 RATES OF EXCHANGE (ROE) - BASE AND AVERAGE RATES

In the event where material and/or finished products are imported the following will apply:

The formula described above will be used and the imported cost component of the bid price (D1) will be adjusted taking into account the base RoE rate and the average RoE rate.

In the event where the RoE adjustment goes hand in hand with a material/product price increase, the material/product price (in foreign currency) will be converted to South African currency using the base

The imported cost component (D1) will be adjusted together with all the other cost components. Rate(s) of exchange to be used in this bid in the conversion of the bid price of the item(s) to South African currency is indicated in the table below.

Currency	Rates of exchange 12-month average for the contract period				
US Dollar	16,36317375				
Pound Sterling	20,17991158				
Euro	17,291054				
Yuan	2,430866				

Should the bidder make use of any other currency not mentioned above, the bidder is requested to calculate the average, using the Reserve Bank published rates for the specific currency. Visit www.reservebank.co.za to obtain the relevant rates.

Contract price adjustments due to rate of exchange variations are based on average exchange rates as published by the Reserve Bank.

29

18. GENERAL

Unless prior approval has been obtained from SAPS Contract Management, no adjustment in contract prices will be made.

Applications for price adjustment must be accompanied by documentary evidence in support of any adjustment.

CPA applications will be applied strictly according to the specified formula and parameters above as well as the cost breakdown supplied by bidders in their bid documents.

In the event where the supplier's CPA application, based on the above formula and parameters, differs from Contract Management SAPS verification, Contract Management SAPS will consult with the supplier to resolve the differences. The South African Police Service reserves the right to negotiate amended contract prices at any stage prior to the final notification to end users.

19. BREACH OF CONTRACT

The South African Police Service reserves the right to terminate the contract(s) if the contractor does not honour contract(s) obligations including submission of information.

20. PACKAGING

Goods supplied must be packed in suitable packaging before distribution to end users.

21. DISPOSING OF GOODS BEARING SOUTH AFRICAN POLICE SERVICE OWNERSHIP MARK: ALL PRINTED FABRIC

Textile goods manufactured in terms of this contract and bearing a South African Police Service ownership mark shall not be disposed of by the contractor to any person, other than a South African Police Service Department unless the ownership mark has been cancelled, defaced or obliterated in such a manner as may be approved by the South African Police Service. In order for a contractor to comply with the abovementioned condition, a contractor will be entitled to:

30

Dispose of such goods provided the goods are stamped or stencilled in indelible ink or dye with the word "CANCELLED", preferable, but not necessarily, over the South African Police Service ownership mark, or overprinted with a design in the same colour as that of the mark, or provided the colouring of the mark is bleached out.

Cut up the goods so that the South African Police Service ownership mark is defaced and then to use it or dispose of it as rags, cleaning cloths, etc.
