2. OVERVIEW NORTHERN CAPE TOURISM

The Northern Cape Tourism Authority (NCTA) was specifically established to act as the provincial government's implementing agency for promoting the Northern Cape as one of South Africa's preferred leisure and business tourism destination.

In 2008 the NCTA commenced the positioning of the Northern Cape Province as the preferred destination for Real Adventure, Real Culture and Real Nature to increasingly attract Domestic and International leisure and business tourists to the Province. The decision was based on the competitive and comparative advantages that the Province have in terms of the vast area of landmass covering 361,830 km² which is approximately 30% of South Africa.

Positioning the Northern Cape Province as a world class Southern African destination of choice for nature, adventure, culture is a primary objective of marketing the province. The Northern Cape Provincial Government identified Tourism – through the Provincial growth and Development Strategy – as a crucial and vibrant sector that must contribute to improving the long-term socio-economic well-being of the people of the province.

The Northern Cape with its vast expanse, extreme landscape features, unpolluted cobalt blue skies, mostly intact natural environment, huge natural resources and many indigenous cultures will in fact provide a perfect opportunity to introduce a *new world* – a world where doing business will not consume finite resources at an uncaring rate, a world where communities outside of the bigger towns will experience real benefits from development, commercial activity and science, a world where business visitors can challenge extremes in nature and meet ancient cultures in one package as they yearn for an opportunity for authentic exploration that will be life changing.
