7. BACKGROUND AND CURRENT TOURISM TRENDS

According to recent statistics from Statistics South Africa, tourism is on the rise as more than 4 million tourists visit South Africa in the first half of 2023. South Africa's tourism sector continues to exhibit strong recovery with the first half of 2023 recording more than 4 million tourist arrivals, according to the latest data from Statistics South Africa.

According to South Africa Tourism's Tourism Performance Report 2021, Mpumalanga was the province that recorded the second highest number of foreign arrivals in 2021, with a share of 19.9% of South Africa's foreign visitors (Figure 4). In 2021, Gauteng (35.5%) held the largest share of foreign arrivals, followed by Mpumalanga (19.9%) and Western Cape (11.4%). Mpumalanga's share increased between 2015 and 2021, although the number of foreign visitors in 2021 was only 30.6% of the pre-pandemic level of 2019. Mpumalanga's main inbound tourism markets are Africa and Europe. Figure 5 displays the shares of Mpumalanga's main tourism markets in 2015 and 2021. It is clear that the share of Africa increased between 2015 and 2021, whereas the shares of the other regions declined. The largest share of foreign arrivals to Mpumalanga originated in Mozambique (73.6%) followed by arrivals from Eswatini (7.8%).

South Africa's tourism sector is heading into the peak summer season in good stead. This is according to data released by Statistics South Africa today, 25 October 2022, showing a significant increase in both international and domestic tourism numbers. Year-to-date, South Africa has received a total of 3.3 million international arrivals. This signals a 165% increase compared to the same period in 2021, indicative of the sector's growth and recovery. "Our tourism numbers continue to show a steady upward trajectory. We're excited to head into summer, which is our peak season, with such great performance and in high spirits as a sector. This is also a good indication that the work that our teams have been doing in the various markets has been effective and is paying off," says Mzilikazi Themba Khumalo, South African Tourism's Acting Chief Executive Officer. International arrivals into South Africa were over half a million, (555 832) in August 2022, a 199% increase when compared to August 2021. Month-to-month, there was a 10% growth in international arrivals, when compared to July 2022

In 2021, total foreign direct spend (TFDS) in Mpumalanga was approximately R2.8 billion or 13.4% of TFDS in South Africa and the third largest share. The 2021 TFDS in Mpumalanga was 37.8% of the pre-pandemic level.

- In 2021, international tourists spent some 3.2 million bednights in Mpumalanga, which was equal to 11.7% of

total bednights in South Africa and the fourth largest share. The bednights spent in Mpumalanga in 2021 were only 19.2% of 2019 levels.

During the first two quarters of 2023, total tourist foreign direct spend amounted to R48 billion. South Africa's appeal to travellers from around the world is undeniable.

The resort is mostly visited by domestic travellers in surrounding areas such as locals, Limpopo, Gauteng and North West. Zithabiseni Resort attracts leisure, day visits, adventure, and conferencing and even at times provide permanent residents for construction works. In 2016, Zithabiseni have recorded an arrival of 5,133 only bed nights from January to December 2016. In 2020 to 2021 the occupancy rate was negatively affected by the COVID 19 pandemic and it rated very low, the resort was also used as a quarantine site during this period. In 2022 to date, the resort has seen recovery in terms of tourists arrival and events were organized to boost and create awareness on the fully operational activities of the resort.
