In South Africa the specifications for first aid kit contents is legislated and governed by the Occupational Health and Safety Act, 85 of 1993 and its Regulations. The OHS Act General Safety Regulations list the minimum items required in the first aid kit for South African workplaces. Compliance with this Regulation implies the contents meet the necessary quality requirements though the specific SABS standard is not referenced in the said Regulation. The supplied first aid kit shall meet all the OHS Act requirements and other relevant requirements.

All the above first aid kit contents are required to be safe and in compliance with the requirements of the OHS Act. The first aid kit bag shall also have the relevant first aid signage that meets the requirements of SANS 1186.
