REQUEST FOR INFORMATION

FOR THE APPOINTMENT OF A SERVICE PROVIDER FOR THE IMPLEMENTATION OF RAPID LAND RELEASE

1. PURPOSE

The purpose of this document is to invite interested service providers with credible expertise and proven track records to showcase innovative solutions to boost the government initiative in the Ikageleng Self Help Housing Schemes. This is aimed at addressing the ever-increasing housing backlog with a particular focus of those that are helpless in the gap market, earning between R3501-R22000 a month and promote land release strategy in meeting localized housing needs of people who want to build houses for themselves.

2. BACKGROUND AND INTRODUCTION

The Rapid Land Release Programme is aimed at releasing and making serviced stands available to Gauteng residents to provide for their own housing needs whom however would not otherwise be able to access housing loans. The target is on households who do not qualify for government full subsidized housing and by their income levels cannot access home loans. The provision of serviced stands come as a joint intervention between provincial and local government as an easier alternative in the provision of houses in Gauteng. For the Rapid Land Release Programme the Department provides a stand that is ready to build on. Individual stand already has utility connection such as water, electricity, sewer connection, roads accessibility and the owner of the property then builds their own home using their own means and resources. All the infrastructure you need to start building your home is already in place. The move enables both spheres of government to reduce the number of people waiting for fully subsidized funded houses.

GDHS would like to invite service providers to express their interest in designing and implementing the Project. This document sets out the objective of the

Request for Information (hereafter called “RFP”) exercise, provides some background information about

The RFP exercise is not a conversional tender exercise but a process whereby written documentations containing housing solutions for the Rapid Land Release Programme are sent to the department for validation and recognition of product offerings before sharing with our Serviced Site beneficiaries. Neither this invitation nor any submission received by GDHS in response to this exercise constitutes an binding contract between the department, service provider and serviced sites beneficiaries. The successful proposals will be provided with the data of all our serviced sites beneficiaries for pitching purposes.

RAPID LAND RELEASE OPTIONS

- Department shall display the seven proposed buildings plans with prototypes to show the kinds of plans to exhibit.
- 150m² - 200m² stand size for housing development
- Any independent building plan shall be subject to approval of the municipal building approval processes at a cost to the beneficiary
- Conditions that will preclude the exploitation of the RLRP shall be attached to the Title Deed
- Stand cannot be sold without a top structure (for the purpose of eliminating speculation)
- Household can benefit one stand and once under the RLRP
- Beneficiaries shall be given 18 months to 5 years from the time of acquiring the serviced site to conclude a housing structure based on their approved building plan
- Recognising limited access to the housing product that may be available to this market segment the applicant shall be given the serviced site for free and eligible to access the FLISP subsidy.
- In the case of households opting for Alternative Building Technology (ABT) they should be encouraged to utilise NHBRC accredited IBT service providers.
- Contractual arrangements should secure the serviced stand in the name of the beneficiary to restrict the guarantor from using the serviced site as a collateral in any other contractual arrangement whilst the stand is covered by the Pre-emptive clause.

3. PRIVATE SECTOR PARTICIPATION

Government by itself cannot resolve all the problems in the Gauteng City Region. The role and contribution of private sector investment becomes fundamental. Government has a responsibility to make a conducive environment for financial investment that grows the economy of the province without neglecting the interests of its citizens. It is against this background that we envisage that the RFI will attract the following participants:

Financial institutions together with the reason for operating and existence have a critical role to play in the success of the Rapid Land Release Programme. They have been identified as instrumental in providing financial back up for lending and investment products to individuals. The support of the financial sector in advising and tailoring products that are able to support all those who want to take on the opportunities created by the programme and contributing to Growing Gauteng Together not only as a slogan but a lived reality for the prosperity of the Gauteng economy.

Community savings/stokvels are self-help initiatives designed to respond to the problems of poverty and income insecurity that has defined the lives of many households in black communities. Practise has demonstrated that stokvels have helped members to meet their basic needs, to save and invest and ultimately to accumulate assets.

Housing loan facility enabling the borrower to take loan to purchase a home, where the home or property you are purchasing is used as a form of security in case you cannot make the loan repayments.
