This Standard Bidding Document (SBD) must form part of all bids invited. It contains general information and serves as a declaration form for local content (local production and local content are used interchangeably).

Before completing this declaration, bidders must study the General Conditions, Definitions, Directives applicable in respect of Local Content as prescribed in the Preferential Procurement Regulations, 2017, the South African Bureau of Standards (SABS) approved technical specification number SATS 1286:2011 (Edition 1) and the Guidance on the Calculation of Local Content together with the Local Content Declaration Templates [Annex C (Local Content Declaration: Summary Schedule), D (Imported Content Declaration: Supporting Schedule to Annex C) and E (Local Content Declaration: Supporting Schedule to Annex C)].

1. General Conditions

- 1.1. Preferential Procurement Regulations, 2017 (Regulation 8) make provision for the promotion of local production and content.
- 1.2. Regulation 8. (2) prescribes that in the case of designated sectors, organs of state must advertise such tenders with the specific bidding condition that only locally produced or manufactured goods, with a stipulated minimum threshold for local production and content will be considered.
- 1.3. Where necessary, for tenders referred to in paragraph 1.2 above, a two stage bidding process may be followed, where the first stage involves a minimum threshold for local production and content and the second stage price and B-BBEE.
- 1.4. A person awarded a contract in relation to a designated sector, may not sub-contract in such a manner that the local production and content of the overall value of the contract is reduced to below the stipulated minimum threshold.
- 1.5. The local content (LC) expressed as a percentage of the bid price must be calculated in accordance with the SABS approved technical specification number SATS 1286: 2011 as follows:

$$LC = [1 - x / y] * 100$$

Where

x is the imported content in Rand

y is the bid price in Rand excluding value added tax (VAT)

Prices referred to in the determination of x must be converted to Rand (ZAR) by using the exchange rate published by South African Reserve Bank (SARB) on the date of advertisement of the bid as indicated in paragraph 3.1 below.

The SABS approved technical specification number SATS 1286:2011 is accessible on [http://www.thedti.gov.za/industrial development/ip.jsp](http://www.thedti.gov.za/industrial%20development/ip.jsp) at no cost.

- 1.6. A bid may be disqualified if this Declaration Certificate and the Annex C (Local Content Declaration: Summary Schedule) are not submitted as part of the bid documentation;

2. The stipulated minimum threshold(s) for local production and content (refer to Annex A of SATS 1286:2011) for this bid is/are as follows:

_____	_____ %

3. Does any portion of the goods or services offered have any imported content?

(Tick applicable box)

YES	<input type="checkbox"/>	NO	<input type="checkbox"/>
-----	--------------------------	----	--------------------------

- 3.1. If yes, the rate(s) of exchange to be used in this bid to calculate the local content as prescribed in paragraph 1.5 of the general conditions must be the rate(s) published by SARB for the specific currency on the date of advertisement of the bid.

The relevant rates of exchange information is accessible on www.resbank.co.za

Indicate the rate(s) of exchange against the appropriate currency in the table below (refer to Annex A of SATS 1286:2011):

Currency	Rates of exchange

1.2 Departmental and Programme Overview

The KwaZulu-Natal Department of Economic Development and Environmental Affairs (EDTEA) is mandated to oversee the socio-economic transformation in the province and it therefore leads the policy and strategic initiatives directed at promoting development and growth in various sectors of the economy. To achieve this mandate EDTEA through Integrated Economic Development Services (IEDS) Programme 2 seek to advance economic growth and job creation initiatives that prioritize historically disadvantaged individuals and groups through Economic Empowerment; Enterprise Development and Regional and Local Economic Development.

The Economic Empowerment Sub-programme purpose is to create enabling environment for economic development and empowerment of the previously disadvantaged individuals and groups (especially youth, women and the disabled) to participate in the mainstream economy. In order to dedicate resources and focus into the empowerment of women, Economic Empowerment facilitates programmes to empower women through Women Economic Empowerment unit located under the BEE Operations directorate.

Women Economic Empowerment unit is driving Women Economic Empowerment initiatives in the province which are informed by the KZN Women Economic Empowerment Strategy (WEES). The said Strategy has three Strategic Pillars, namely **Creation of a Legal and Policy Environment; Creation of Enabling Institutional Environment and Women Enterprise Development**. These strategic pillars are implemented to support and empower women through skills development, entrepreneurial support and to reduce level of unemployment amongst women in KwaZulu-Natal.

1.3 Background to the Project

The G20 Digital Economy Ministerial Declaration highlighted the lack of digital inclusion as the main impediments to gender mainstream in developing countries such as South Africa where access, affordability, lack of education, skills and technological literacy, inherent gender biases and socio-cultural norms still limit women to participate in the mainstream economy. This was further emphasized by the United Nations (2019),

where they indicated that the digital economy can be utilized for development purposes and most importantly for solving societal problems, including those related to the SDGs: Inequality, poverty and unemployment.

In South Africa, unfortunately, women remain disproportionately affected by many challenges including the use of digital tools to conduct their businesses and to ensure that they are not left behind in the context of the current digital revolution, there is a need to create enabling environment for women's digital inclusion and most importantly, for women to be the forefront of digital development

On the 26th of March 2020, South Africa entered into a national lockdown as announced by the President, Mr Cyril Ramaphosa. The lockdown has been a result of Corona Virus (Covid 19) that has hit the country leading to year 2021 with adjusted levels of lockdown from time to time from level 5 to level 1.

The Economy of the Province of KwaZulu-Natal together with the rest of the country suffered a negative impact due to the lockdown restriction and the impact was more largely felt by small businesses (SMMEs). The outbreak of Covid-19 pandemic in all parts of the world has negatively impacted the economy, especially small business and women owned businesses sector in rural and township areas.

During the covid-19 pandemic period with social distancing in place, the use of technology is regarded as the best solution to reduce the spread of the virus whilst keeping businesses sustainable. This has forced businesses to change the ways of doing business, come up with innovative ways to do business and adopt technology.

The Covid 19 pandemic forces government to come up with new interventions and solutions for the economy in pursuit to support small enterprises to be resilience during the and post the nationwide lockdown and thus the innovative programme to support women-owned businesses is crucially needed. It has become evident that the majority of small businesses, especially women- owned businesses do not know about digital platforms and have no skills that are relevant, hence the importance of providing digital skills to the women SMMEs is important.

1.4 Purpose of the Terms of Reference

The purpose of this Terms of Reference (TOR) is to solicit the services of a suitable Service Provider to train Women in businesses in basic computer skills (end-user computing) and advanced internet usage (online marketing / social media marketing).

The project aims to capacitate women in business to be able to use technology to run their business, this includes understanding of basic use of technology to run a business, doing business online and digital marketing. The training will be focusing on the owner of the business in the case of an SMME or the nominated member in the case of the Cooperative.

1.5 Contract Objectives
