Safety Requirements input required

Contractual requirements mean the suppliers will submit the tender returnable before the tender close-out. The evaluation will take place once the mandatory and Functionality evaluation have been completed. Only the shortlisted suppliers who passed mandatory and functionality evaluation threshold will be evaluated. The suppliers will be given only ONE opportunity to submit the outstanding documents within 7 working days. Failure to submit the outstanding documents within the stipulated time; may result in the tenderer being regarded as non-responsive and ineligible for contract award.

The above form part of the tender evaluation criteria and must be complied with (Note: above requirements are applicable to the tender phase only):

2. PART B - Other requirements to be noted

2.1 Health and safety risk management

The Successful Tenderer will have to comply with the station's safety requirements, as such a Safety File will have to be compiled and presented to Eskom for approval/acceptance prior work starts.

The Contractor shall comply with the health and safety requirements contained in SHE/OHS Specification. The 37-2 agreement to be signed by Contractor and Employer representatives. In addition to the requirements of the applicable laws governing the occupational health and safety, Duvha Power Station OHS requirements particular to the service and the Affected Property for this contract shall be adhered to for the duration of the contract.

It must be highlighted that Eskom takes a ZERO TOLERANCE stance to violation of these rules. Life-saving Rules apply to all Eskom employees, agents, consultants, contractors and to any person entering Eskom sites.
