**1. INTRODUCTION**

The National Agricultural Marketing Council (NAMC) is a statutory body established in terms of the Marketing of Agricultural Products Act, 1996. The main function of the council is to advise the Minister of Agriculture on issues relating to the marketing of agricultural products.

As a public entity, NAMC have a responsibility to educate the public and other stakeholders about the mandate of the organisation and one of the tactics we use to realise this objective is to enhance the visibility of the entity and create brand awareness.

To ensure that this organisational imperative is accomplished accordingly, we are embarking on the process of setting up a podcast studio with a view to maximise impact and increase brand awareness.

**Therefore, the NAMC requests for quotes from suitably qualified service providers to provide media training for identified employees.**
