Dear Sir / Madam

THE SUPPLY AND DELIVERY OF 20 X PROTECTORS
ENQUIRY NO: MPMJ10812GX
MAJUBA POWER STATION

1. Additional information is required:

The Supply and delivery of the following spares:

Valves Over Pressure device with rapture disc
 Body material: 1.4922
 Nozzle material: 1.7335
 Rapture Disc Material: Inconel
 Size: DN15
 Design Pressure: 25MPa
 Design Temperature: 260DegC
 To be provided with material certificate

2. Risk Assessment

This is level 1 plant and provides overpressure protection of high-pressure valves. This item is applicable to all the units on the boiler plant. The failure of this item could lead to high demin water consumption and possible unit trips especially if the leaks are directly affecting red zone equipment. There are currently leaking OPD's across the units affecting burner operations that lead to mill trips and eventually unit trips.

3. Technical Evaluation Criteria which will be applied to this tender:

Criteria		
Delivery Lead Time	40%	
≤20 Weeks	40%	
>20Weeks≤25Weeks	30%	
>25Weeks	10%	
Drawing of Device showing parts and dimensions (GA) meeting Eskom's requirements	30%	
No Drawing	0%	
Signed Letter of Authorisation from manufacturer/agent or distributor	30%	
No letter	0%	

Threshold 70%. Suppliers who do not meet the minimum threshold, will not be evaluated further.

Yours faithfully,

M Prinsloo
