IMAGING EQUIPMENT CONFORMANCE FOR PACS / RIS INTEGRATION

Preamble:

The Provincial Health Top Management at its meeting on 5 September 2006 decided in principle to change to a digital image management system, commonly referred to as PACS (Picture Archiving and Communication System), with the associated conversion to digital image generation.		Noted
Following this decision, the DMIMTC (<u>D</u> igital <u>M</u> edical <u>I</u> maging & <u>M</u> anagement <u>T</u> echnical <u>C</u> ommittee) was established to facilitate this process.		Noted
One of the first tasks given to this committee was to ensure that all equipment purchased thereafter would be able to integrate with the decision made by the Provincial Health Top Management. This addendum, to all imaging equipment tender documents, will serve as part of the compulsory specifications for all imaging equipment. The purpose of this will be to ensure that all imaging equipment purchased will comply with the provincial digitization vision.		Noted
During this period of transition, it is crucial that the equipment works within the non-digital environment, the partly digital environment and finally the fully digital environment		Noted

The following two pricing structures will also be considered as firm prices – **please note that a combination of these two pricing structures will not be allowed:**

- 1.2 Firm prices linked to fixed period adjustments, i.e. FIVE tier prices (firm 1st, 2nd and 3rd year prices), and only subject to the variables indicated in the above paragraph.
- 1.3 Firm prices subject to rate of exchange variations. (It is compulsory that the table below be completed for prices subject to rate of exchange variations).

Note: All claims for rate of exchange must be made **within 60 days of delivery** in order for bidders to qualify for price adjustments.

Any advantage due to a more profitable exchange rate must be passed on to the Western Cape Government.

Please furnish full particulars of your financial institution, state the currencies used in the conversion of the prices of the items to South African currency, which portion of the price is subject to rate of exchange variations and the amounts remitted abroad.

2.2 In cases where prices are subject to the escalation formula, the following table must be completed.

In this category price escalations will only be considered in terms of the following:

Where:

- Pa = The new escalated price to be calculated.
- (1-V) P = 85% of the original bid price. Note that Pt must always be the original bid price and not an escalated price.
- D1, D2 = Each factor of the bid price e.g. labour, transport, clothing, footwear, etc. The total of the various factors D1, D2 etc. must add up to 100%.
- R1t, R2t = Index figure obtained from new index (depends on the number of factors used).
