DETAILED TECHNICAL SPECIFICATION

1. BACKGROUND

The SABC is South Africa's national public broadcaster. The company's objectives are to provide a comprehensive range of distinctive programmes and services with the view to inform, educate, entertain, support and develop culture in all 11 official languages. Currently, the company's principal activities comprise of Television and Radio broadcasting utilising 19 radio stations and 5 television channels. All these offerings should be kept running for 24 hours a day in line with the mandate and agreed strategic operations parameters of the organisation.

The SABC has to maintain presence across the South African landscape, it therefore own properties in eight of the nine Provinces which are occupied for business operations purpose. The offices require various maintenance initiatives be implemented in order to keep them in a good operational state furniture fittings and replacement from time to time. Furthermore, there is a need for restoration of leased-in premises to its original state when SABC vacate those offices.

The SABC completed a major waterproofing project in all roof surfaces in the Auckland Park Campus in September 2016. The initial scope of work entailed the removal of existing waterproofing, checking of screed, and application of new torch-on waterproofing system and the application of UV resistant coating. Following the commencement of the works the scope was revised to include installation of vent pipes for slab out gassing and casting of concrete anchor blocks in arear where applicable.

The current maintenance plan requires that the waterproofing surface be painted once in every three year-period in order to prolong the economic lifespan. The continuous maintenance of the roof is also in line with the guarantee's requirements. It must however be stated that during the recent heavy rains, there were few areas of the roof which have been found to be leaking and where not covered by any guarantees as there were not part of the initial scope of the major waterproofing project. These areas require to be repaired with immediate effect.

It has also been observed that the existing gutter and down pipes or drainage system requires service and repairs in order to handle the volume of water discharged by the roof.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
