

Section 1 - Certifications/Standards of Compliance

1.1 Please indicate the certifications that your company complies to

		<i>Date of certification and other information</i>
	ISO 9001	
	ISO 14001	
	ISO 18001	

1.2 Please indicate which tests are carried out on all transformers before leaving the factory

		<i>List Information Here</i>
	Ratio and Polarity	
	Power Factor	
	Winding Resistance	
	No-Load Loss and Excitation Current	
	Load Loss and Impedance	
	CT Current, Ratio and Polarity	
	IEEE/ANSI Standard Impulse Test (Class II Transformers)	
	Quality Control Impulse Test (Class I Transformers)	
	Applied Potential	
	IEEE/ANSI Induced Voltage Test at 1.5x Rated for 1 Hour with Corona	
	Quality Control Induced Voltage Test with Corona Detection (Class I Transformers)	
	Control Functions and Wiring	
	Dissolved Gas Analysis	
	Dew Point (only "routine" for transformers shipped without oil)	

Section 2 - Historic Technical Performance

[illegible]
