#### CONTEXT OF THIS PROCUREMENT

In working towards realising the NRF 2025 Strategy and 2030 Vision, the NRF has embarked on a number of organisational changes to assist in ensuring the realisation of the vision. Some of those changes include:

- Organisational review which resulted in the restructuring and implementation of a new service delivery model.
- Skills Audit to take stock of the existing skills within the organization to maximize the current skills and develop missing skills.
- Implementation of the Enterprise Resource Planning (ERP) system.
- Organisational Culture Audit and Change.
- Appointment of various senior leaders.

Corporate Human Resources and Legal Services division is responsible for the successful attraction, placement, retention, and continuous development of a committed, skilled, and representative workforce. In implementing the new service delivery model, the NRF aims to create a collaborative effort across its Business Units, maximise employee's skills and motivate its leadership towards the attainment of its strategy objectives.

As a knowledge organisation, the NRF strives to continually develop the knowledge, skills, competencies and capabilities of its management and employees to deliver higher performance in conjunction with individual, organisational growth and transformation. Apart from the service delivery model changes, the organisation has appointed, promoted, and transferred several executives across the organization, as well as aim to develop a cohort of succession pipeline for management and leadership roles, to ensure optimisation and excellent service delivery. Acquiring executive and leadership coaching services will ensure that the organisation is ready to address the outcomes of the Organisational review while ensuring that the leadership is adequately supported to deal with the realities of a large-scale change that is necessary to achieve the objectives of the NRF.

Based on the above background, the NRF requires leaders that are agile, can deal with ambiguity and complexity and well equipped to respond to the ever-changing environment under which the organisation operates. A coordinated and structured effort in developing strong leadership within the NRF is therefore critical for the organisation's long-term sustainability.

#### MANAGEMENT OF PERFORMANCE LEVELS

- 1. The Performance Levels are in the table below.
- 2. The NRF measures the contracted bidder's performance against these in the execution of the contract.
- The contracted bidder recognises that its failure to meet the performance levels has material adverse impact on the
  operations of NRF and that the damage from the contracted bidder's failure to meet any performance level is not
  susceptible to precise determination.
- 4. The NRF excuses the contracted bidder from failing to comply with the performance levels to the extent that non-performance or delayed performance is solely and directly attributable to an act or omission of the NRF or its staff or circumstances of force majeure as referred to in this Agreement.

- 5. If the contracted bidder fails to meet any performance level:
  - a) The contracted bidder shall investigate and report on the root causes of the performance level failure;
  - b) Promptly correct the failure and begin meeting the set performance levels;
  - c) Advise the NRF as and to the extent requested by the NRF of the status of remedial efforts being undertaken with respect to such performance level failure; and
  - d) Take preventive measures to prevent the recurrence of the performance level failure.
- 6. Both parties are responsible for monitoring and measuring the performance of the contracted bidder against the performance levels set in this document. The NRF deems failure by the contracted bidder to measure performance with respect the contract specifications for any measurement period as a failure to meet the stipulated performance levels.

# ANNEXURE A - ELECTRONIC BID SUBMISSION – GUIDELINE FOR BIDDERS

This document serves the purpose of providing the bidder with guidelines and prescripts on how to submit their bids to the NRF via e-mail.

**Conditions for electronic submissions**: This section does not apply to soft copies requested on manual submissions. It applies when email submissions are permitted. In circumstances where they are advisable, the business unit needs to ensure that they have appropriate controls and processes in place, such as:<sup>3</sup>

- Valid process of ensuring that bidder's electronic signatures complies with legislation such as The Electronic Communications and Transactions Act, 25 of 2002 (the ECT Act),
- System records exact time and date of submission in a manner that provides appropriate probity to stakeholders such as auditors,
- System to prevent unauthorised access and system to show if infringement,
- System of authorised persons to set / change dates for opening data received,
- System allows simultaneous communication,
- System of record-keeping meets legislative requirements such as The National Archives and Records Service of South Africa Act (Act. No. 43 of 1996, as amended).

#### PRESCRIPTS

- All files must be submitted in pdf format unless otherwise stated.
- Pricing submission (including any SBDs where bidder's price is quoted) must be password protected and submitted as a separate file.
- Two envelope system: All bidders' documents must be submitted to the email address specified on the NRF bid document and however the password to the password-protected pricing file must be submitted to a separate email stated in the email specified in the bid document.
- The bidder must ensure that their submission is no bigger than 20 MB limit.
  - o Your files must be Zipped to ensure that your submission is in line with the email size limit
- Timeline for submitting password to NRF
  - The password for pricing file must **not** be submitted before the bid closes.
  - The password may be submitted 1 minute after bid closure and no later than 2 days post bid closure.
     Failure to submit within 2 days may lead to bid being unable to be evaluated thus rendering them unresponsive.
- The subject of your email quote verbatim the bid name in the exact words provided in the NRF bid document.

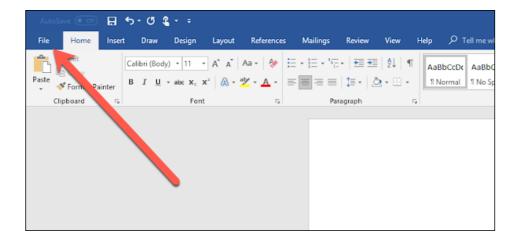

#### **GUIDELINES**

#### Converting to pdf

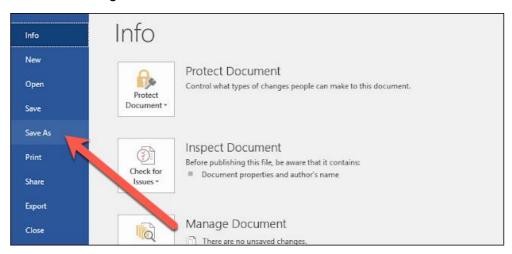

- If you have the desktop version of Microsoft Word, the easiest way to convert your document to PDF is right in Word itself.
- o Open the document you want to convert, and then click the "File" tab.

On the backstage screen, select "Save As" from the list on the left.

 On the Save As screen, select where you would like the PDF to be saved (OneDrive, This PC, a particular folder, or wherever).

 Next, click the dropdown arrow on the right side of the "Save as type" box, and select "PDF (\*.pdf)" from the dropdown menu.

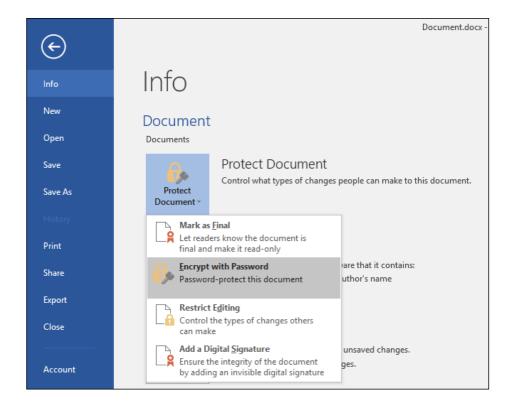

o If you want to, you can change the filename at this time. When you're ready, click the "Save" button.

 After saving the PDF, you'll be returned to your Word document, and the new PDF will open automatically in your default PDF viewer.

#### **Password protecting files**

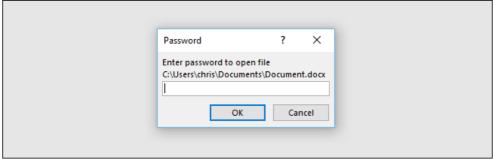

- To password protect an Office document, first open it in Word, Excel, PowerPoint, or Access. Click the "File" menu at the top-left corner of the screen. On the Info pane, click the "Protect Document" button and select "Encrypt with Password."
- The button is only named "Protect Document" in Microsoft Word, but it's named something similar in other apps. Look for "Protect Workbook" in Microsoft Excel and "Protect Presentation" in Microsoft PowerPoint. In Microsoft Access, you'll just see an "Encrypt with Password" button on the Info tab. The steps will otherwise work the same.
- NOTE: If you only want to restrict editing of the document, you can choose "Restrict Editing" here, but as we said, that is not very secure and can easily be bypassed. You're better off encrypting the entire document, if you can.

- Enter the password you want to encrypt the document with. You'll want to choose a good password here. Weak passwords can be easily guessed by cracking software if someone gains access to the document.
- Warning: You'll lose access to the document if you ever forget your password, so keep it safe!
   Microsoft advises you write down the name of the document and its password and keep it in a safe place.

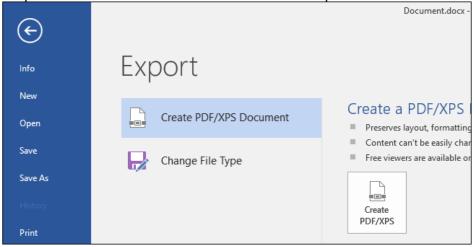

- When a document is encrypted, you'll see the "A password is required to open this document" message on the Info screen.
- The next time you open the document, you'll see an "Enter password to open file" box. If you don't enter the correct password, you won't be able to view the document at all.

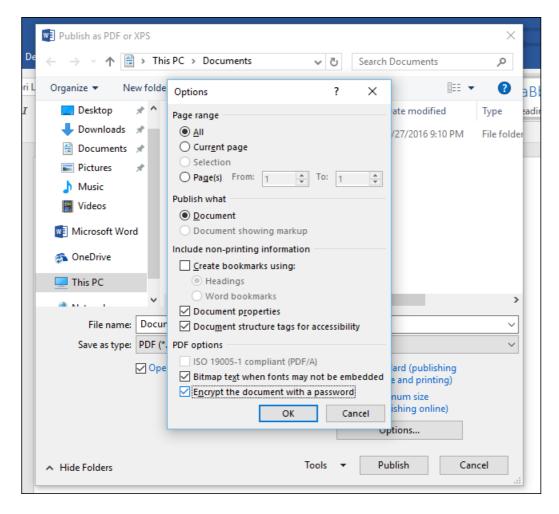

To remove the password protection from a document, click the "Protect Document" button and select "Encrypt with Password" again. Enter a blank password and click "OK." Office will remove the password from the document.

#### How to Create a Password Protected PDF File

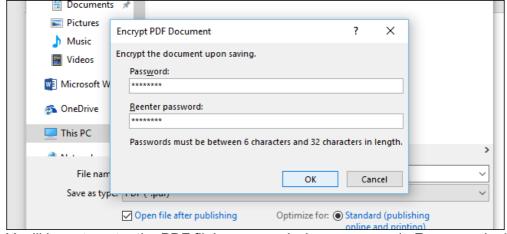

- You can also export an Office document to a PDF file and password protect that PDF file. The PDF document will be encrypted with the password you provide. This works in Microsoft Word but not Excel, for some reason.
- To do this, open the document in Microsoft Word, click the "File" menu button, and select "Export." Click the "Create PDF/XPS" button to export the document as a PDF file.

 Click the "Options" button at the bottom of the save dialog window that appears. At the bottom of the options window, enable the "Encrypt the document with a password" option and click "OK."

- Enter the password you want to encrypt the PDF file with and then click "OK."
- When you're done, enter a name for the PDF file and click the "Publish" button. Office will export the document to a password-protected PDF file.
  - **Warning:** You won't be able to view the PDF file if you forget the password. Be sure to keep track of it or you'll lose access to your PDF file.

 You'll have to enter the PDF file's password when you open it. For example, if you open the PDF file in Microsoft Edge–Windows 10's default PDF viewer–you'll be asked to enter the password before you can view it. This also works in other PDF readers.

#### Zipping your files.

- Put all the files into a new folder
- o Right-click on the folder to be sent
- Select "Send To" and then click "Compressed (Zipped) folder"
- The files will start compressing
- After the compression process is complete, attach the compressed file with the extension .zip to your email.

#### Keeping passwords safe.

We recommend that you store the password either as a note on a hardcopy document which is then filed or stored safely or a softcopy that is saved in the bid response folder once the bid has been submitted or in line with your document management policy.
