## INTELLECTUAL PROPERTY REQUIREMENTS

### 1. INTRODUCTION

#### 1.1 What is Intellectual Property?

Intellectual Property (or "IP") means the result or outcome of creative or innovative effort as typically, but not exclusively, manifested and embodied in or taking the form of data items or documents.

IP includes design and mental activities, e.g.:

- a) Bills of Material (BOM's)
- b) Instructions,
- c) Reports,
- d) Specifications,
- e) Interface designs,
- f) Manufacturing processes,
- g) Material Specifications,
- h) Processes,
- i) Product designs,
- j) Re-engineering (maintenance/obsolescence),
- k) Software,
- l) Algorithms,
- m) Source Codes,
- n) System/integration designs,
- o) Test and Evaluation Methods, etc.

IP excludes Project Management activities and Hardware created/built according to a design or following a "recipe".

#### 1.2 How is IP manifested?

IP is manifested and embodied in Data Items or Documents.

"Data items or Documents" means any recorded information, however recorded, including but not limited to books, manuscripts, reports, studies, algorithms, computer software, invention descriptions, registered patents, drawings, designs, plans, analyses, calculations, standards, data packs, process documents, instructions, specifications, mathematical or simulation models, compositions, photographs, video recordings, audio recordings, reports, holographic recordings, trademarks, graphical images, etc.

This list is non exhaustive and includes any protectable subject matter under applicable intellectual property law.

**NOTE:**

- The document itself is not IP
- The contents of a document represent IP
- The document becomes the tangible and recordable carrier of IP

**1.3 What is Background IP?**

For definition, refer to A-STD-0020 “Arm Scor General Conditions of Contract”. “Background IP” belongs to a contractor who has fully paid for its generation or has acquired it at its own cost, and which may be used or serve as a basis for developing new Foreground IP.

**1.4 What is Historic IP?**

“Historic IP” is existing IP which was created previously, and which may serve as a basis from which to develop new Foreground IP.

**1.5 What is Foreground IP?**

For definition, refer to A-STD-0020 “Arm Scor General Conditions of Contract”. “Foreground IP” is a new intellectual property that is created during the execution of the order.

**1.6 When is IP Shared or Jointly Owned or Co-owned?**

For the definition, refer to A-STD-0020 “Arm Scor General Conditions of Contract”.

“Shared,” “Jointly Owned,” or “Co-owned” IP is IP that belongs to both the DOD and a contractor because both contributed to its generation. Ownership is typically (and preferably) proportional to contribution.

Historic and Foreground IP may be either

- a) wholly owned by the DOD, or
- b) shared or Jointly Owned or co-owned between DOD and the contractor

**2. IP RECORDAL REQUIREMENTS**

Prospective suppliers must provide all information regarding applicable Intellectual Property (IP) to the bid. Arm Scor will record the information on their IP System, which will generate a Statement of IP, which will be appended to the order. The Statement of IP will constitute the contractual agreement between Arm Scor and the contractor with respect to IP matters.

The recordal requirements are further described herein and broken down to an appropriate level, as follows:

## 2.1 Background IP Utilised

For each Background IP Item that will be modified or utilised to generate Foreground IP in the execution of the quoted scope of work, provide the following details:

- c) Master record index (MRI) reference with version and date
- d) Original Supplier

- f) Percentage Ownership (DOD)
- g) Associated Milestone / Line item on the order under which the IP will be established.

appended to orders in order to properly manage such IP;

**NOTE: 2** To facilitate the easy and correct recording of IP, bidders and contractors will be required to utilise the specially constructed spreadsheet from Armscor's website. Upon completion, the spreadsheet must be printed and attached to the bid, thereby forming an integral part of the bid.

### **3. SAFEGUARDING OF IP**

#### **3.1 IP Assignment Agreement**

The IP Assignment Agreement, which will be based on the Statement of IP and the Statement of Work, will be concluded with the main contractor in the main contractor's name and will apply to the creating sub-contractor(s), who will remain the design authority for the particular IP.

#### **3.2 Management and Safeguarding of IP**

The main contractor will be responsible for managing IP generated during the execution of the order, as well as IP generated by its subcontractors. Upon completion of the project or order, the relevant IP will be formally transferred to the main contractor, who will then be responsible for its continued management.

The main contractor will be responsible for proper safeguarding and configuration control of IP, including off-site back-ups, as further described in various other Armscor documents, e.g. A-STD-0020 "Armscor General Conditions of Contract, K-STD-61 "Armscor Standard for Technical Contract Conditions", A-WI-014 "Armscor Security Instruction" and other documents that may be applicable.

#### **3.4 IP Audits**

Armscor is required by law to conduct an IP intangible asset audit of all existing DOD IP *every financial year*. The main contractor will cooperate with Armscor's Intellectual Property Management Division and the Auditor General during the audit period and will make available all relevant information required to conduct the audit.
