SECTION 3: BACKGROUND, OVERVIEW AND SCOPE OF REQUIREMENTS

1 BACKGROUND

Hazmat clean-up involves remediation of hazardous materials whether they be biological, chemical, radiological, and/or physical and that have the potential to cause harm to humans, animals, or the environment. Chemical spills are some of the most common situations that require hazmat clean-up. Whether from large-scale oil spills or leaks in laboratory facilities, these situations pose serious health risks to the surrounding area. Chemical spills tend to be the most urgent and require quick action because if left unattended, the corrosive or explosive chemicals could cause fire, injury, illness or even long-term environmental damage (e.g., a community's water supply), depending on the type of chemical spilled when mishandled or when accidents occur, hazardous materials can present a deadly threat to public health and safety.

2 EXECUTIVE OVERVIEW

Whereas Transnet is seeking a partner(s) to provide solutions for its annual flushing, cleaning and removal of resultant waste collection from the Hazmat reticulation system located in Island View in the Port of Durban for a period of three (3) years, it also seeks to improve its current processes for providing these services to its end user community throughout its locations.

The selected Service provider(s) must share in the mission and business objectives of Transnet. These mutual goals will be met by meeting contractual requirements and new challenges in an environment of teamwork, joint participation, flexibility, innovation and open communications. In this spirit of partnership, Transnet and Service provider(s) will study the current ways they do business to enhance current practices and support processes and systems. Such a partnership will allow Transnet to reach higher levels of quality, service and profitability.

Specifically, Transnet seeks to benefit from this partnership in the following ways:

- 2.1 Transnet must receive reduced cost of acquisition and improved service benefits resulting from the Service provider's economies of scale and streamlined service processes.
- 2.2 Transnet must achieve appropriate availability that meets user needs while reducing costs for both Transnet and the chosen Service provider(s).
- 2.3 Transnet must receive proactive improvements from the Service provider with respect to provision of Services and related processes.
- 2.4 Transnet's overall competitive advantage must be strengthened by the chosen Service provider's leading edge technology and service delivery systems.
- 2.5 Transnet end users must be able to rely on the chosen Service provider's personnel for service enquiries, recommendations and substitutions.
- 2.6 Transnet must reduce costs by streamlining its acquisition of Services, including managed service processes on a Group basis.

3 SCOPE OF REQUIREMENTS

Total Weighting:	100	
Minimum qualifying score required:	60	

Respondents must complete and submit **Annexure E** which include a **Technical Questionnaire**. A Respondent's compliance with the minimum functionality/technical threshold will be measured by their responses to Annexure E.

Respondents are to note that Transnet will round off final technical scores to the nearest 2 (two) decimal places for the purposes of determining whether the technical threshold has been met.

The minimum threshold for technical/functionality [Step Three] must be met or exceeded for a Respondent's Proposal to progress to Step Four for final evaluation

6.4 STEP FOUR: Evaluation and Final Weighted Scoring

a) **Price** [Weighted score 80 points]:

Evaluation Criteria	RFP Reference
• Commercial offer	<i>Section 4</i>

Transnet will utilise the following formula in its evaluation of Price:

$$PS = 80 \left(1 - \frac{Pt - Pmin}{Pmin} \right)$$

Where:

- Ps = Score for the Bid under consideration
 Pt = Price of Bid under consideration
 $Pmin$ = Price of lowest acceptable Bid

- b) **Specific Goals** [Weighted score 20 points]
- Specific goals preference points claim form
 - Preference points will be awarded to a bidder for attaining the specific goals requirements in accordance with the table indicated in Section 1.4 of the specific goals Claim Form.

6.5 **SUMMARY: Applicable Thresholds and Final Evaluated Weightings**

Thresholds	Minimum Threshold
Functionality	60

Evaluation Criteria	Final Weighted Scores
Price	80
Specific goals - Scorecard	20
TOTAL SCORE:	100

6.6 **STEP FIVE: Post Tender Negotiations (if applicable)**

- Respondents are to note that Transnet may not award a contract if the price offered is not market-related. In this regard, Transnet reserves the right to engage in PTN with the view to achieving a market-related price or to cancel the tender. Negotiations will be done in a sequential manner i.e.:
 - first negotiate with the highest ranked bidder or cancel the bid, should such negotiations fail,
 - negotiate with the 2nd and 3rd ranked bidders (if required) in a sequential manner.
- In the event of any Respondent being notified of such short-listed/preferred bidder status, his/her bid, as well as any subsequent negotiated best and final offers (BAFO), will automatically be deemed to remain valid during the negotiation period and until the ultimate award of business.
- Should Transnet conduct post tender negotiations, Respondents will be requested to provide their best and final offers to Transnet based on such negotiations. Where a market related price has been achieved through negotiation, the contract will be awarded to the successful Respondent(s).

6.7 **STEP SIX: Award of business and conclusion of contract**

- Immediately after approval to award the contract has been received, the successful bidder(s) will be informed of the acceptance of his/their Bid by way of a Letter of Award. Thereafter the final contract will be concluded with the successful Respondent(s).
- A final contract will be concluded and entered into with the successful Bidder at the acceptance of a letter of award by the Respondent.

SECTION 4: PRICING AND DELIVERY SCHEDULE

Note: Respondents are required to complete the attached pricing schedule (Annexure C) in full. All items must be priced.

Respondents are to note that Transnet will round off final pricing scores to the nearest 2 (two) decimal places.

Notes to Pricing:

- a) Respondents are to note that if the price offered by the highest scoring bidder is not market-related, Transnet may not award the contract to that Respondent. Transnet may-
 - (i) negotiate a market-related price with the Respondent scoring the highest points or cancel the RFP;
 - (ii) if that Respondent does not agree to a market-related price, negotiate a market-related price with the Respondent scoring the second highest points or cancel the RFP;
 - (iii) if the Respondent scoring the second highest points does not agree to a market-related price, negotiate a market-related price with the Respondent scoring the third highest points or cancel the RFP.

If a market-related price is not agreed with the Respondent scoring the third highest points, Transnet must cancel the RFP.

- b) Prices must be quoted in South African Rand inclusive of VAT.
- c) Any disbursement not specifically priced for will not be considered/accepted by Transnet.
- d) To facilitate like-for-like comparison bidders must submit pricing strictly in accordance with this pricing schedule and not utilise a different format. Deviation from this pricing schedule could result in a bid being declared non-responsive.
- e) Quantities given are estimates only. Any orders resulting from this RFP will be on an "as and when required" basis.
- f) Please note that should you have offered a discounted price(s), Transnet will only consider such price discount(s) in the final evaluation stage if offered on an unconditional basis.
- g) Where a Respondent's price(s) includes imported goods/items, the rate of exchange to be used must be in South African Rands for purposes of determining whether the price is market related or not and must be the currency's rate published by the South African Reserve Bank on the date of the advertisement of the bid:
 Currency rate of exchange utilised: _____
- h) Respondents, if awarded the contract, are required to indicate that their prices quoted would be kept firm and fixed a period of 12 months, subject thereafter to adjustment (i.e. after the initial period of 12 months), utilizing the following price index/indices/adjustment formula. [Not to be confused with bid validity period Section 2, clause 1]

YES	
------------	--

Notes to Pricing:

- a) Respondents, if awarded the contract, are required to indicate that their prices quoted would be kept firm and fixed for a period of 12 months, subject thereafter to adjustment (i.e., after the initial period of 12 months), utilizing the Consumer Price Index (CPI) as per below:

Respondent's Signature

Date & Company Stamp

Notes to the Multi-Year Pricing Table:	
	The first year of the contract will not be subject to price escalation
	Cost for Year 2 (Y2) will be Total costs of Year 1 (Y1) x CPI adjustment in accordance with the formula below
	Cost for Year 3 (Y3) will be Total costs of Year 2 (Y2) x CPI adjustment in accordance with the formula below

CONTRACT PRICE ADJUSTMENTS

Formula

b) Prices submitted for this bid will be regarded as non-firm and subject to adjustment(s) in terms of the formula set out below;

c) The following price adjustment formula will be applicable for calculating Contract price adjustments (CPA).

$P_a = (1-V) P_t ((CPI)) + V P_t$ where:

P_a	=	The new adjusted price to be calculated
$(1-V)P_t$	=	85% of the original bid price
CPI	=	In this tender Transnet will only use the Consumer Price Index (CPI) as a single factor from the Statistical Release "P0141" – Consumer Price Index, published by the Department of Statistics, South Africa.
$V P_t$	=	15% (or 0.15) of the original bid price. This portion of the bid price remains fixed, i.e., it is not subject to price adjustment.

Formula component definitions:

Adjustable amount: $(1-V) P_t$

d) The adjustable amount is the portion of the bid price, which is subject to adjustment. In this contract, the adjustable amount is 85% of the original bid price. For example, if the bid price is R1000, then only R850 will be subject to adjustment.

Fixed portion: $V P_t$

e) The fixed portion represents those costs that will not change over the adjustment period and DOES NOT represent the profit margin. In this bid, the fixed portion is 15% of the original bid price. Using the same example as above, it would amount to R150 which will remain fixed over the contract period.

Cost components and proportions: D1

f) The cost components of the Contract price usually constitute the cost of materials (raw material or finished product), cost of direct labour, cost of transport and those other costs that are inclined to change. The proportions are the contribution to the contract price of each of these cost components. In this bid, the Consumer Price Index (CPI) Statistical release P0141 will be used to adjust the price adjustments.

Cost Component	% Contribution
D1 – Consumer Price Index	100% of 85%
TOTAL (Cost components must add up to 100%)	100 %

Applicable indices / references:

g) The applicable index refers to the relevant market index, which is a true reflection of price movement(s) in the cost over time. In this bid the following indices or reference will be applicable:

Cost component	Index Publication	Index Reference
D1- Consumer Price Index	Stats SA, Statistical Release P0141	P0141

Base Index Date

h) The base index date applicable to the formula is defined as the date of advertisement of the bid. The P0141 Stats SA Statistical release in the month of the tender will be used as the base index. If a Stats SA Statistical release P0141 is not published in the month in which the tender is advertised, the first Statistical Release P0141 in the month immediately prior to the month of the tender being advertised shall be used.

End Index Date

i) The end index dates are the dates at predetermined points in time during the Contract period. In this bid the end indices are the indices published in the month immediately following the annual anniversary of the month in which the tender is advertised. In other words, months 13, 26, 39 etc.

Price Adjustment Periods

j) Adjustment to contract prices will be applied for on an annual basis
