

## **CTT24685: PROVISION OF SPOT HIRE PLATFORM SUPPLY VESSEL**

### **SCOPE OF SERVICES**

PetroSA requires a Platform Supply Vessel on a short term as per the attached specifications.

In addition to the vessel that must meet PetroSA's specifications, a supplier may, where a more cost effective option which is fit for purpose is available, make an alternative proposal which may be accepted or rejected at the sole discretion of PetroSA.

The vessel is required to and must be able to carry out the scope of work listed hereunder:

- a. General supply activities to offshore installations
- b. Perform emergency response duties for all PetroSA's offshore installations
- c. Perform search and rescue activities as and when required
- d. Man overboard recovery and exercises
- e. Monitor shipping in the vicinity and chase collision heading vessels
- f. Helicopter standby
- g. General radio and radar watch

### **TIME CHARTER**

- a) A time charter for a period of 40 days.
