Description of the works/goods/services	The provision of service, maintenance, and repairs as well as supply of spares and consumables, for Xylem/SI Analytics brand coulometers (KF Titroline) to all Petroleum and Flow Sciences (P&FS) laboratories as and when required for the period of three (5) years		

1. Background:

Eskom has several Laboratories within the RT&D Department of Sustainability, i.e., the Petroleum and Sciences (PS) section. The laboratories provide an analytical service to various departments within Eskom and also to the SA industry and also engage in research to ensure that Eskom is in the forefront of technologies and products it uses. Various types of analytical instruments are being used to conduct analyses. The equipment needs to be maintained, serviced, spares replaced in order to ensure that the equipment is fully functional and can produce results of a high quality. Since the instruments are SI brand, a supplier who has experience and have worked on the same brand before is required.

Xylem/SI Analytics brand coulometers are titration devices, which are being used in the laboratory on a daily basis. It is used to perform analytical measurements. The laboratories provide analytical services to Eskom, which relates to transformer oils. The oils are tested to provide technical teams in the field with the necessary information to plan and schedule
