BELOW ARE THE QUESTIONS RAISED AS CLARIFICATION QUESTIONS	
Clarification requests from bidders	Response from Transnet Rail Engineering
Could we kindly request that the pricing schedule be amended to reflect the estimated quantities per Depots. The average rate/kg will result in an "artificially inflated cost/kg" which could impact the overall contract value over the 3 years.	As clarified in the clarification that was issued on 07 May 2025. Prices must be inclusive of delivery to all sites Nationally, on an "as and when" required basis, as this is a National contract and not a Depot-based contract. The usage at each Depot is driven by production requirements. Bidder/s may quote transport costs based on an average cost model.
