DETAILED TECHNICAL SPECIFICATION

RFQ Background

The SABC needs a digital safety management system in order to comply with the law and to ensure that the highest standard of safety is kept, wellbeing of the employees is safeguarded and damage to property is prevented. Once the above is achieved, it will help reduce incidents and lessen business interruptions and legal compliance will be maintained to the highest standard. The integrated system is ideal to address the gaps that were identified during external and internal audit.

In terms of section 8 (2) (a) of the Occupational Health and Safety (OHS) Act, 85 of 1993, every employer shall provide and maintain as system of work, plant and machinery that are safe and without risks to health and furthermore the health and safety. The system that is currently being used is a manual system which is fragmented and difficult to manage, especially when managing different sites. Gaps identified during external audits at group level in Auckland Park in 2020 & 2022 respectively, and the annual regional OHS legal compliance audits of 2020 & 2022 respectively revealed that there is no standard system for administration of OHS requirements, tracing, tracking of evidence and changes within the corporation. The SABC has a total of twelve regional offices spread over the nine provinces of the Republic and the headquarters situated in Johannesburg. Each of these offices is expected to fully meet the requirements of the OHS Act need to have an integrated system.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
