Pa	=	The new adjusted price to be calculated
V	=	Fixed portion of the bid price (15% or 0.15)
Pt	=	Original bid price. Note that Pt must always be the original bid price and not an adjusted price
(1-V)Pt	=	Adjustable portion of the bid price (85% or 0.85)
D1 – Dn	=	= Each factor (or percentage) of the bid price, e.g., material, labour, transport, overheads, etc. The total of the various factors (or percentages) D1 – Dn must add up to 1 (or 100%).

R1o–Rno	=	Base Index. Index figure at the time of bidding.

SPECIAL CONDITIONS OF CONTRACT 19/1/9/1/51TD (24): 27

The adjustable amount is the portion of the bid price which is subject to adjustment. In this bid the adjustable amount is 85% of the original bid price. For example, if the bid price is R1000, then only R850 will be subject to adjustment.

17.5.2 Fixed portion

The fixed portion represents those costs which will not change over the adjustment period and **DOES NOT** represent the profit margin. In this bid the fixed portion is 15% of the original bid price. Using the same example as above, it would amount to R150 which will remain fixed over the contract period.

17.5.3 Cost components and proportions

- The cost components of the contract price usually constitute the cost of materials (raw material or finished product), cost of direct labour, cost of transport and those other costs which are inclined to change. The proportions are the contribution to the contract price of each of these cost components. In this bid the following cost components will be used to calculate contract price adjustments.
- Bidders are requested to submit the cost breakdown of the bid price for each item with their bid. Should the cost breakdown be the same for all items on the bid, please indicate it clearly in the bid document. Successful bidders will not be allowed to change the cost breakdown of bid prices during the tenure of the contract.
- In a case where the same cost components are applicable to all items offered please fill out the Cost components document attached with the bid other than that cost components must be indicated on each line item when finalising pricing schedule.

SPECIAL CONDITIONS OF CONTRACT 19/1/9/1/51TD (24): 29

17.5.6 End Index Date

The end index dates are the dates at predetermined points in time during the contract period. In this bid the end indices are defined in the next paragraph (Price Adjustment Periods).

17.5.7 Price Adjustment Periods

Adjustment to contract prices must be applied for at the following dates:

Adjustment	CPA application to reach the office at the following dates	End Index Date	Dates from which adjusted prices will become effective
1 st Adjustment	After one year of signing the contract		Date of application of adjustment after approval was obtained

* In cases where invoices are supplied as documentary evidence, it is advised that invoices closest to the Base Index date and the End Index date be submitted. It should ideally reflect the adjustment period.

* In the absence of a labour agreement, the labour cost component will be adjusted with CPI Headline inflation.

17.6 RATES OF EXCHANGE (ROE) – BASE AND AVERAGE RATES

In the event where material and/or finished products are imported the following will apply:

The formula described above will be used and the imported cost component of the bid price (D1) will be adjusted taking into account the base RoE rate.

In the event where the RoE adjustment goes hand in hand with a material/product price increase, the material/product price (in foreign currency) will be converted to South African currency using the base rate.

The imported cost component (D1) will be adjusted together with all the other cost components Rate(s) of exchange to be used in this bid in the conversion of the bid price of the item(s) to South African currency is indicated in the table below.
