Dear Service Provider

REQUEST FOR PROPOSAL /QUOTATION (RFQ) – SCOPE OF WORK/SERVICE

2. INTRODUCTION

2.1. MANDATE

The AIDC is the dedicated developmental agency of the Gauteng Growth and Development Agency (GGDA) in relation to the specific industrial, infrastructure and training needs required by the automotive and allied sector - those based in the Gauteng province. The AIDC is thus tasked by GGDA with special developmental type projects aimed at enhancing and possibly expanding the automotive and allied-related sector with a focus on enterprise development; also, in the support of government's aims at BBBEE SMME development and the radical transformation of various townships. The AIDC otherwise explores other developmental projects, external to the objectives of the GGDA in support of the AIDC's own business development processes. These include projects related to the transport and energy sectors, as well the development of the Tshwane Auto City. The AIDC's focus, in terms of the 2016 Gauteng Economic Development Plan/Framework (GEDP/F), is towards the automotive sector in the Northern Corridor of the Gauteng City Region (GCR) framework.

2.2. VISION

The Vision of the AIDC is:

To be the leading implementation agency delivering creative, efficient, best practice and value-based solutions in support of government programmes related to the automotive and allied sectors.

2.3. MISSION

To develop the automotive manufacturing sector to globally competitive standards of excellence through a world-class value proposition which enables effective and sustainable socio-economic growth.

3. COMPULSORY SITE BRIEFING

4. RFQ OBJECTIVES

The AIDC's Facilities Maintenance Storeroom management's role and obligation encompasses a range of processes required to ensure that Maintenance Team is assisted with the necessary spares, material, tools & equipment required for building infrastructure to perform as originally designed and constructed.

Therefore, access to immediate Stock Consumables is of essence for Maintenance Team for their day-to-day maintenance works which gets to be carried out at the ASP or any other AIDC off-sites, Hence the need to appoint the service provider to assist the Stores function with the required consumable, tools & equipment as part of long term consumable for just-in-time contract approach.
