
	<b>Technical Evaluation</b> <b>Supply and Delivery of Safety</b> <b>signages in Komati Power Station</b>	Template Identifier	32-726-17T	Rev	1
		Document Identifier	240-140256	Rev	1
		Effective Date	April 2022		

### Technical Evaluation Criteria

The weight for the technical review will be 100% with a minimum threshold of 70% and will be based on the following:

Evaluation Criteria	Description	Weight (%)	
Contractor shall have SABS approved certification	Contractor to provide proof of compliance to SANS 1186  <i>No proof of certification complying with SANS 1186 = 0%</i> <i>Proof of certification complying with SANS 1186 = 40%</i>	40%	
Client References	<b><u>Requirements for submission</u></b> Provide 3 references where the company has provided safety signs.  Copy of the contract, completion letter or Purchase order where the company has provided the similar service must be submitted. (No reference letters will be accepted)  <i>0 reference = 0%</i> <i>1 reference = 10%</i> <i>2 references = 20%</i> <i>3&gt; references = 40%</i>	40%	
Manufacturing/ Production Capacity	<b><u>Requirements for submission</u></b> Provide information on equipment, facilities, and resources. The bidder must provide pictures of their existing/proposed manufacturing facilities.  These pictures must include the entire value chain of the signage process and machinery. NB: Also outline if you are outsourcing, partially outsourcing, or manufacturing in-house. (Please note that this may be validated by conducting site visits to your proposed facilities)  <i>Information provided =20%</i> <i>No submission =0%</i>	20%
