## **1. PURPOSE**

- 1.1. To appoint suitable Project Management companies to render project management services to the Department of Forestry, Fisheries and the Environment (DFFE/ the Department) for the Source to Sea Litter Combatting Programme within the eleven (11) coastal districts of the Eastern Cape, Western Cape and Northern Cape provinces of South Africa over a period of six (6) months.

## **2. INTRODUCTION AND BACKGROUND**

- 2.1. Marine litter and debris, such as plastic items, fishing gear, food packages, glass, metals, etc. have become environmental threats of international concern not only because it washes up on beaches and shorelines worldwide and looks unsightly, but also because debris can be transferred from one country to another via ocean currents and it impacts on commercial fisheries and other coastal economic sectors throughout the world. Rivers and other waterways such as stormwater canals are common ways in which litter is transported to the coastal environment.
- 2.2. The Source to Sea Project was initiated by the Department in September 2019 to address the increasing impact of waste from land into the marine environment.
- 2.3. The Source to Sea Project will be expanded into eleven (11) coastal districts and the intent is to create employment for one hundred (100) young people per district for a period of six (6) months.

## **3. OBJECTIVES**

- 3.1. The objectives of the Source to Sea Project are primarily to:
  - 3.1.1. Investigate areas of litter concern/hotspots along priority rivers and other waterways;
  - 3.1.2. Deploy litter recovery resources, including increased clean-up efforts, to recover litter from the identified priority rivers and waterways;
  - 3.1.3. Monitor and evaluate (characterise) the types and quantities of litter collected from the rivers, and;
  - 3.1.4. Identify and implement at least one waste management intervention in one community per priority river system.
- 3.2. The Department would like to procure the services of suitably qualified Project Management Companies to plan and implement the Source to Sea Programme within the eleven (11) coastal districts of Eastern Cape, Western Cape and Northern Cape provinces of South Africa.

#### **4. SCOPE AND EXTENT OF WORK**

- 4.1. The project aims to prevent litter from entering the ocean by cleaning a total number of four (4) river embankments and two (2) other waterways per district, per month. The litter will be cleared from the river embankments and where considered safe for participants, up to a depth of 0.5 meters where floating litter is present in the water body. The target number of rivers and waterways may be varied based on local circumstances within the municipality but may not be less than or exceed six (6) locations per month.
- 4.2. Overall, the appointed Project Management Companies will be responsible for the following:
  - 4.2.1. The bidder must include the proposed cleaning sites in their proposal. The sites must be selected in consultation with the municipality.
  - 4.2.2. Appoint one hundred (100) South African youth per district aged between 18 - 35 in consultation with the Department (through advice from its Youth Community Outreach Programme and the Local Government Support Programme) to implement the Source to Sea activities along the identified river systems and waterways within the coastal district.
  - 4.2.3. The municipality will be responsible for generating the list of unemployed youth, to be handed over to the successful service provider. The stipend per participant will be R120 per day and the participant will work a maximum of twenty (20) days per month. The beneficiaries' stipend will be paid by the Department.
  - 4.2.4. Administer the contracts of the participants, oversee the records management of employment details and ensure registration of the participants for Unemployment Insurance Contributions Act 4 of 2002. (UIF) and Compensation for Occupational Injuries on duty Act 130 of 1993 (COIDA) and to comply with all legislated statutory requirements for employment of participants in the Source to Sea Programme.
  - 4.2.5. In addition, medical screening of the participants must be administered by an occupational health practitioner in terms of the Occupational Health and Safety Act and Regulations 85 of 1993. The screening should take into account the following:
    - 4.2.5.1. Initial/ entry medical screening for fitness of work (minimum physical examination, audio screening, vision screening, urine test for drugs, lung function test).

- 4.2.5.2. The medical test must assess the general health status of the project participants to ensure that this aligns with the requirements of their job function.
- 4.2.5.3. The test must be fit for purpose and appropriate for the general cleaning, hygiene and recycling sector.
- 4.2.6. Promptly replace any drop-out participants to ensure that the job target is maintained at one hundred (100) persons within the municipality, at all times. The Department must be notified of drop-out participants immediately to avoid payments to these beneficiaries and to ensure that there is no litigation of the beneficiaries by the Department.
- 4.2.7. Distribute the required Personal Protective Equipment (PPE) to all the appointed participants from the District.
- 4.2.8. The Department will procure and arrange for the delivery of the necessary PPE and the tools of trade to the District Municipality and the relevant Local Government Support official based in the district will assist with the handing over of the PPE and tools of trade to the service provider. The service provider will be responsible for creating an inventory of the goods and materials received and will be responsible for securing any temporary storage that may be needed for the execution of the project. In addition, the service provider will be required to clean and return the tools of trade (metal rakes, litter tongs, spring scales, first aid kits and unutilised bags and bulk bags), to the Department after the project has been concluded.
