Dear Sir / Madam

ONCE OFF FOR SUPPLY AND DELIVERY OF AUDIO-VISUAL EQUIPMENT FOR MAJUBA POWER STATION.

ENQUIRY NO: E2739GXMPMAJ

MAJUBA POWER STATION

Herewith requests for clarification, together with Eskom's responses:

Question1:

During the sourcing process, we noted that our supplier is unable to provide certain items strictly in accordance with the exact specifications outlined in the Scope of Work (SOW). However, they are in a position to supply suitable alternative products that align with the intended application and offer comparable or enhanced performance.

We would therefore like to seek clarification on whether Eskom would consider and accept such alternative offerings, provided that full technical details, specifications, and supporting datasheets are submitted for evaluation

Answer:

Please note that suitable alternatives are acceptable provided they meet the functional requirements outlined in the SOW and again specified brands are intended as benchmarks rather than mandatory prerequisites.

Yours faithfully,

Morena Molefi
Officer Procurement
