THE NATIONAL INDUSTRIAL PARTICIPATION PROGRAMME (SBD 5)**INTRODUCTION**

The National Industrial Participation (NIP) Programme, which is applicable to all government procurement contracts that have an imported content, became effective on the 1 September 1996. The NIP policy and guidelines were fully endorsed by Cabinet on 30 April 1997. In terms of the Cabinet decision, all state and parastatal purchases / lease contracts (for goods, works and services) entered into after this date, are subject to the NIP requirements. NIP is obligatory and therefore must be complied with. The Industrial Participation Secretariat (IPS) of the Department of Trade and Industry (DTI) is charged with the responsibility of administering the programme.

1 PILLARS OF THE PROGRAMME

- 1.1 The NIP obligation is benchmarked on the imported content of the contract. Any contract having an imported content equal to or exceeding US\$ 10 million or other currency equivalent to US\$ 10 million will have a NIP obligation. This threshold of US\$ 10 million can be reached as follows:
- (a) Any single contract with imported content exceeding US\$10 million.
or
 - (b) Multiple contracts for the same goods, works or services each with imported content exceeding US\$3 million awarded to one seller over a 2 year period which in total exceeds US\$10 million.
or
 - (c) A contract with a renewable option clause, where should the option be exercised the total value of the imported content will exceed US\$10 million.
or
 - (d) Multiple suppliers of the same goods, works or services under the same contract, where the value of the imported content of each allocation is equal to or exceeds US\$ 3 million worth of goods, works or services to the same government institution, which in total over a two (2) year period exceeds US\$10 million.
- 1.2 The NIP obligation applicable to suppliers in respect of sub-paragraphs 1.1 (a) to 1.1 (c) above will amount to 30 % of the imported content whilst suppliers in respect of paragraph 1.1 (d) shall incur 30% of the total NIP obligation on a *pro-rata* basis.
- 1.3 To satisfy the NIP obligation, the DTI would negotiate and conclude agreements such as investments, joint ventures, sub-contracting, licensee production, export promotion, sourcing arrangements and research and development (R&D) with partners or suppliers.

- 1.4 A period of seven years has been identified as the time frame within which to discharge the obligation.

2 REQUIREMENTS OF THE DEPARTMENT OF TRADE AND INDUSTRY

- 2.1 In order to ensure effective implementation of the programme, successful bidders (contractors) are required to, immediately after the award of a contract that is in excess of **R10 million** (ten million Rands), submit details of such a contract to the DTI for reporting purposes.

- 2.2 The purpose for reporting details of contracts in excess of the amount of R10 million (ten million Rands) is to cater for multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as provided for in paragraphs 1.1.(b) to 1.1. (d) above.

3 QUOTATION SUBMISSION AND CONTRACT REPORTING REQUIREMENTS OF BIDDERS AND SUCCESSFUL BIDDERS (CONTRACTORS)

- 3.1 Bidders are required to sign and submit this Standard Bidding Document (SBD 5) together with the quotation on the closing date and time.

- 3.2 In order to accommodate multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as indicated in sub-paragraphs 1.1 (b) to 1.1

(d) above and to enable the DTI in determining the NIP obligation, successful bidders (contractors) are required, immediately after being officially notified about any successful quotation with a value in excess of R10 million (ten million Rands), to contact and furnish the DTI with the following information:

- quotation / contract number.
- Description of the goods, works or services.
- Date on which the contract was accepted.
- Name, address and contact details of the government institution.
- Value of the contract.
- Imported content of the contract, if possible.

- 3.3 The information required in paragraph 3.2 above must be sent to the Department of Trade and Industry, Private Bag X 84, Pretoria, 0001 for the attention of Mr Elias Malapane within five (5) working days after award of the contract. Mr Malapane may be contacted on telephone (012) 394 1401, facsimile (012) 3942401 or e-mail at Elias@thedti.gov.za for further details about the programme.

4 PROCESS TO SATISFY THE NIP OBLIGATION

- 4.1 Once the successful bidder (contractor) has made contact with and furnished the DTI with the information required, the following steps will be followed:

- a. the contractor and the DTI will determine the NIP obligation;
- b. the contractor and the DTI will sign the NIP obligation agreement;
- c. the contractor will submit a performance guarantee to the DTI;
- d. the contractor will submit a business concept for consideration and approval by the DTI;
- e. upon approval of the business concept by the DTI, the contractor will submit detailed business plans

- outlining the business concepts;
- f. the contractor will implement the business plans; and
- g. The contractor will submit bi-annual progress reports on approved plans to the DTI.

DECLARATION CERTIFICATE FOR LOCAL PRODUCTION AND CONTENT FOR DESIGNATED SECTORS (SBD 6.2)

This Standard Quotation Document must form part of all quotations invited. It contains general information and serves as a declaration form for local content (local production and local content are used interchangeably).

Before completing this declaration, Bidders must study the General Conditions, Definitions, Directives applicable in respect of Local Content as prescribed in the Preferential Procurement Regulations, 2017, the South African Bureau of Standards (SABS) approved technical specification number SATS 1286:2011 (Edition 1) and the Guidance on the Calculation of Local Content together with the Local Content Declaration Templates [Annex C (Local Content Declaration: Summary Schedule), D (Imported Content Declaration: Supporting Schedule to Annex C) and E (Local Content Declaration: Supporting Schedule to Annex C)].

1. General Conditions

- 1.1. Preferential Procurement Regulations, 2017 (Regulation 8) make provision for the promotion of local production and content.
- 1.2. Regulation 8.(2) prescribes that in the case of designated sectors, organs of state must advertise such tenders with the specific quoting condition that only locally produced or manufactured goods, with a stipulated minimum threshold for local production and content will be considered.
- 1.3. Where necessary, for tenders referred to in paragraph 1.2 above, a two stage Quotation process may be followed, where the first stage involves a minimum threshold for local production and content and the second stage price and B-BBEE.
- 1.4. A person awarded a contract in relation to a designated sector, may not sub-contract in such a manner that the local production and content of the overall value of the contract is reduced to below the stipulated minimum threshold.
- 1.5. The local content (LC) expressed as a percentage of the quotation price must be calculated in accordance with the SABS approved technical specification number SATS 1286: 2011 as follows:

$$LC = [1 - x / y] * 100$$

Where

x is the imported content in Rand

y is the Quotation price in Rand excluding value added tax (VAT)

Prices referred to in the determination of x must be converted to Rand (ZAR) by using the exchange rate published by South African Reserve Bank (SARB) at 12:00 on the date of advertisement of the quotation as indicated in paragraph 4.1 below.

The SABS approved technical specification number SATS 1286:2011 is accessible on [http://www.thedti.gov.za/industrial development/ip.jsp](http://www.thedti.gov.za/industrial%20development/ip.jsp) at no cost.

1.6. A quotation may be disqualified if this Declaration Certificate and the Annex C (Local Content Declaration: Summary Schedule) are not submitted as part of the quotation documentation;

2. The stipulated minimum threshold(s) for local production and content (refer to Annex A of SATS 1286:2011) for this quotation is/are as follows:

Description of services, works or goods

Stipulated minimum threshold

3. Does any portion of the goods or services offered have any imported content?

(***Tick applicable box***)

YES		NO	
-----	--	----	--

3..1 If yes, the rate(s) of exchange to be used in this quotation to calculate the local content as prescribed in paragraph 1.5 of the general conditions must be the rate(s) published by SARB for the specific currency at 12:00 on the date of advertisement of the quotation.

The relevant rates of exchange information is accessible on www.reservebank.co.za

NB: Bidders must submit proof of the SARB rate (s) of exchange used.

4. Where, after the award of a Quotation, challenges are experienced in meeting the stipulated minimum threshold for local content the DTI must be informed accordingly in order for the DTI to verify and in consultation with the AO/AA provide directives in this regard.

SECTION R**CERTIFICATE OF INDEPENDENT BID DETERMINATION**

1. This Standard QUOTATION Document must form part of all quotations¹ invited.
2. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive quoting (or bid rigging).² Collusive quoting is a *pe se* prohibition meaning that it cannot be justified under any grounds.
3. Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the quotation of any Bidder if that Bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the quoting process or the execution of that contract.
4. This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when quotations are considered, reasonable steps are taken to prevent any form of bid-rigging.
5. In order to give effect to the above, the attached Certificate of bid Determination (SBD 9) must be completed and submitted with the quotation:

¹ Includes price quotations, advertised competitive quotations, limited quotations and proposals.

² BID rigging (or collusive quoting) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a quoting process. Bid rigging is, therefore, an agreement between competitors not to compete.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

I, the undersigned, in submitting the accompanying QUOTATION:

(QUOTATION Number and Description)

in response to the invitation for the quotation made by:

(Name of Institution)

do hereby make the following statements that I certify to be true and complete in every respect:

5. For the purposes of this Certificate and the accompanying quotation, I understand that the word "competitor" shall include any individual or organization, other than the Bidder, whether or not affiliated with the Bidder, who:

6. The Bidder has arrived at the accompanying quotation independently from, and without consultation, communication, agreement or arrangement with any competitor. However communication between partners in a joint venture or consortium³ will not be construed as collusive quoting.

- a) prices;
- b) geographical area where product or service will be rendered (market allocation)

9. The terms of the accompanying quotation have not been, and will not be, disclosed by the Bidder, directly or indirectly, to any competitor, prior to the date and time of the official quotation opening or of the awarding of the contract.

³ Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.

10. I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to quotations and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No 12 of 2004 or any other applicable legislation.

1.2 SUB-PROGRAMME OVERVIEW

The strategic objective of the Economic Empowerment Sub-programme is to create an enabling environment for economic development and empowerment of the previously disadvantaged individuals and groups (especially youth, women, people living with disability) to participate in the mainstream economy. It is further tasked to ensure that there is economic transformation in the Province of KwaZulu-Natal. The Sub-programme derives its mandate from the South African Constitution, National Development Plan, Broad-Based Black Economic Empowerment (B-BBEE) Act, Codes of Good Practice, Provincial Growth Development Strategy, KZN B-BBEE Strategy and other empowerment strategies.

The B-BBEE Act 53 of 2003 as amended regards empowerment of black people as a priority for radical economic transformation. It is on this basis that the KZN B-BBEE Strategy for 2008 was introduced. The central focus of KZN B-BBEE Strategy, among others, is to facilitate and co-ordinate stakeholders for B-BBEE policy implementation across all sectors of economy. Over the years the Department of Economic Development, Tourism and Environmental Affairs (EDTEA) has implemented various strategic initiatives to drive economic transformation in KZN. This includes the establishment of key structures as determined by the KZN B-BBEE. The following structures have been established since 2008: B-BBEE Advisory Council, B-BBEE Forums, and B-BBEE Implementation Teams. The Department has also entered into various strategic partnerships with the private sector and Government Departments in support of economic transformation and empowerment of target group. This include, but not limited, B-BBEE Commission, MOU with the DTI on the Black Industrialists Programme.

In 2020/2021 financial cycle, the Department compiled the database of the KZN Black Industrialists to ensure that there is accurate information of the Black Industrialists (BI) in the Province. The Black Industrialists include companies that are 51% black owned from various sectors, and this is disaggregated in terms of gender, ownership, sector, geographical location, race (African, Coloureds, Indians). A database of 100 KZN Black Industrialists was compiled which also identified aspiring black industrialists.

1.3 INTRODUCTION AND BACKGROUND

The KwaZulu-Natal Economic Recovery and Transformation Plan regards the empowerment of the target group, especially women owned businesses in the Natural Hair and beauty product as one of the priority projects in the Province. According to Mordor Intelligence, a market research company, the South African haircare market will be worth just under US\$500 million by 2024, registering a compound annual growth rate (CAGR) of 1.36%, over the forecast period (2019-2024). The report further says that in South Africa, with a population of about 55 million population and a shifting demographic profile, the haircare market is positively correlated with a rise in disposable income, presenting vast potential in the consumer market.

Mordor Intelligence reports that the South African haircare market includes various haircare products, such as shampoos, conditioners, hair sprays, hair oil, and other hair care products, such as hair masks, hair gels, hair serum, colour, and various heat protective products. The market is segmented by distribution channel, which includes supermarket/hypermarket, specialty stores, convenience stores, and online retail stores. The natural trend in the South African ethnic haircare segment

is on the rise. This owes to a large portion of ethnic consumers moving away from harsh chemical relaxers in favour of less invasive products to manage their curls. Consumers have become ingredient savvy and they avoid picking products with sulphates, parabens, mineral oil, and alcohol, thus boosting the demand for natural hair care products.

According to W24, a beauty and styling website, industry observers agree that South Africa is the largest hair care market in Africa. It is estimated that as many as 10,000 hair products are introduced to the market annually. Most hair care purchases are made by black consumers. It is estimated that black consumers spend up to six times more on their hair than their white counterparts. Local market leaders, which include multinationals are reportedly investing in their black hair care brands, building on their current product lines and conducting more research into African hair care and skin care. This shift in focus indicates the opportunities that have been identified in this market, which is why the KZN Aspirant BI project is proposed so that black-owned SMMEs can also participate and take opportunities presented by the market. Many international brands and products are used in black hair salons, which are often locally owned. According to a report by the South African government, salons catering for African hair in the South African market is estimated at 40 000, and these exclude informal salons within townships and rural areas. It is within this market that the project seeks to assist the black owned enterprises to take up opportunities within the local salon distribution network.

Despite the industry being a billion-dollar industry, participation of black-owned businesses in the space is very limited. In addition, black customers are also the biggest market within this industry with the industry also employing a significant number of black people.

In the previous financial year, the BEE Operations unit identified the Clicks and Dischem groups and initiated discussions with them for an opportunity to have black-owned natural hair and beauty products manufacturers, supported by the Department of Economic Development, Tourism and Environmental Affairs, sell their products through their chain stores for a wider market reach. The Clicks Group showed keen interest to the proposal as the company was also embarking on targeting black owned manufacturers to provide them with shelve space in their stores. The two retail-led healthcare groups provided the Department with the requirements that are needed in order to list products with them. The listing requirements, amongst others, included the following:

- Factory accreditation.
- Products and ingredients used to be SABS approved.
- Short term, medium term and long-term business plan.
- Quality assurance to ensure product consistency.
- Company and brand history.

The BEE Unit held consultation meetings with black-owned manufacturers to try and link them with Clicks and Dischem markets. Upon assessment of their businesses, it was found that the targeted businesses had various challenges including

most of the compliance requirements of the chain stores. They requested that the Department provides them with support so that they can grow their brands and in future be able to bridge these gaps and access these markets. The challenges faced by the aspirant Black Industrialists include:

- Barriers to entry due to high capital investment costs and brand loyalty.
- The industry is highly competitive, with multinationals dominating the market.
- Lack of bargaining power with the retailers when it comes to pricing.
- Lack of factory space which conforms to specified ISO standards/accredited.
- Lack of access to funding, resulting in limited resources.
- Lack of access to markets.

The proposed project will provide market access opportunities to black owned manufacturers of natural hair and beauty products. This will assist in building their brands, increase sales by capturing new customers and marketing of their businesses. The project will provide SMMEs with alternative market access platforms.

The objective of the project is to provide access to markets support to ten (10) KZN black-owned manufacturers of natural hair and beauty products. The project will involve the following activities:

- Analyzing the 10 businesses involved in the manufacture of natural hair and beauty products for the purposes of access markets.
- Identifying specific challenges faced by each of the businesses that hinder them from listing with corporate clients and provide recommendations of what is needed to address those challenges.
- Assist in providing linkages with the relevant distribution networks and access to market opportunities.

In terms of strategic alignment to the Department, the project aligns with the Black Industrialists policy, as well as the Rural and Township Revitalisation strategy. Further to that, the project is also in line with the Operation Vula mandate of providing access to markets to black owned businesses in the public and private sectors. The unit will work in collaboration with enterprise development, Youth and Women Economic Empowerment offices to ensure that priority target groups benefit from the project.

The proposed project also aligns with the adoption of the local strategy by the Province. Localization has been identified as a strategic industrial policy instrument by the South Africa Industrial Policy Action Plan (IPAP). It is strategically being utilized to rekindle the power of several government strategic leverages such as public procurement, empowerment and economic transformation, foster infant industries, create job opportunities, and reduce poverty. Localization is one instrument that provides governments with an opportunity to leverage the resources to drive empowerment and economic development at local level.

1.4 PURPOSE OF THE TERMS OF REFERENCE
