Our mission is to develop, expand, manage and promote a system of sustainable national parks that represents biodiversity and heritage assets, through innovation and best practice for the just and equitable benefit of current and future generations.

**INTRODUCTION TO SANPARKS BUSINESS UNIT
RESPONSIBLE FOR THIS BID**

The Business Development Unit (BDU), within the Tourism Development and Marketing division of SANParks, is responsible for executing on SANParks' Commercialisation Strategy, through the implementation and management of a range of Public Private Partnerships (PPPs) as a means of maximising SANParks' financial independence from the state, whilst enabling socio-economic transformation.

The unit consists of a General Manager: Business Development Unit, who reports to the Managing Executive:

Tourism Development and Marketing, as well as numerous Project Managers who are responsible for the implementation and management of PPPs across SANParks.

CONTEXT OF THIS PROCUREMENT

In September 1998, the then Department of Environmental Affairs and Tourism articulated the need for SANParks to prepare for a lesser dependence on state funding, which would increasingly be aimed at funding essential conservation requirements. This formed the basis of the Commercialisation Strategy adopted by SANParks in 2000, with the objective of reducing SANParks' dependence on state funding and improving existing operational efficiencies.

The Commercialisation Strategy 2000 was developed and implemented with assistance from the International Finance Corporation (IFC). SANParks appointed the IFC as the lead Transaction Advisor to:

- advise SANParks on the structuring of the commercialisation programme and the development of the PPP tender process;
- support the implementation of the tender process for identified PPP projects; and
- promote skills transfer to SANParks staff, thereby enabling SANParks to manage and implement PPP projects internally through the Business Development Unit.

This process resulted in the award of 11 Lodge Concession sites, 21 retail facilities and 17 restaurants to private operators.

Subsequently, through the Business Development Unit, SANParks have progressively increased the number of PPP transactions, successfully implementing and managing a wide range of projects, including accommodation, restaurants, retail, activities, an airport and the Table Mountain Aerial Cableway. Today, SANParks has a portfolio of more than 50 PPP projects.

As SANParks continues to evolve, PPPs have been reaffirmed as a key mechanism to fund and implement tourism products, as well as to promote socio-economic transformation and local community upliftment. In light of this, SANParks aims to accelerate the implementation of PPPs and has resolved to appoint a panel of Transaction Advisors to provide support in the implementation of the SANParks Tourism PPP Programme.

Responsible Tourism

SANParks' business operations are founded on three core pillars: Sustainable Conservation, Diverse and Responsible Tourism and Socio-Economic Transformation. SANParks' mandate is derived from its biodiversity conservation role, thus the conservation pillar is regarded as the basis upon which the other two core pillars' programmes and activities are directed.

The Commercialisation Strategy (through the implementation of PPPs) is a significant element of the Diverse and

Responsible Tourism pillar, which has allowed SANParks to expand its tourism product offering, generate additional revenue for funding of conservation and promote socio-economic development.

As a major provider of tourism accommodation and natural experiences in South Africa, SANParks, recognises that by implementing responsible tourism management and principles, the organisation will continue to benefit from increased income, a better quality of tourism product, better development and management practices, and higher levels of local involvement and benefits flowing to local communities.

Responsible Tourism within SANParks, and more specifically Commercialisation, is governed and guided by the Responsible Tourism Strategy 2022, the National Tourism Sector Strategy, the National Minimum Standards for Responsible Tourism (SANS1162) and the National Development Plan (NDP).

The Cape Town Responsible Tourism Charter describes guiding principles for Responsible Tourism and local community involvement, which can be regarded as a guideline for the vision of this Scope of Work. The charter describes Responsible Tourism as tourism that:

1. *“makes positive contributions to the conservation of natural and cultural heritage, to the maintenance of the world's diversity;*
2. *minimises negative economic, environmental, and social impacts;*
3. *provides more enjoyable experiences for tourists through more meaningful connections with local people, and a greater understanding of local cultural, social and environmental issues;*
4. *is culturally sensitive, engenders respect between tourists and hosts, and builds local pride and confidence;*
5. *provides accurate information about accessibility of facilities and infrastructure for people with disabilities (visual, communication, mobility) to customers;*
6. *generates greater economic benefits for local people and enhances the well-being of host communities, improves working conditions and access to the industry; and*
7. *involves local people in decisions that affect their lives and life chances.”*

CONTRACT PERIOD

The contract will be for a period of five (5) years.

SPECIFICATIONS

DETAILED BACKGROUND

SANParks' PPP Portfolio

SANParks currently has a portfolio of 60 PPP projects, and intends on further expanding its PPP portfolio over the next few years.

A PPP is a commercial transaction between a private party and a public institution. A private party is awarded the exclusive rights to use state property for its own commercial purpose over a specific period, transferring associated financial, technical and operational risk from the public institution to the private party. In exchange for the exclusive rights to use the state property, the private party pays a PPP fee to the institution. PPPs are governed by Regulation 16 of the Public Finance Management Act (PFMA).

SANParks typically applies a 'build, operate and transfer' (BOT) model for PPPs. The contractual mechanism is a PPP Agreement (or concession contract), which enables the private operator to:

- use a defined area of land, plus any buildings that may already exist on that land; and
- make any required upgrades to the land or buildings for purposes of the tourism product, over a specific time period in return for payment of PPP fees.

Against these rights of occupation and commercial use of facilities, there is a set of obligations on the part of the private operator regarding:

- Financial terms,
- Environmental management;
- Social objectives;
- Empowerment; and
- Contractual transfer of risk for building / refurbishing, developing, managing, operating and maintaining the facility.

Through the implementation of PPPs, SANParks aims to achieve the following goals:

1. Generate additional revenue (through PPP fees and conservations fees) for the funding of conservation and constituency building;
2. Reduce the cost of delivery for tourism products;
3. Improve service levels by focusing on core business;
4. Leverage private capital and expertise to expand tourism products;
5. Minimise losses or increase savings on existing operations;

6. Optimise the use of under-performing assets;
7. Create jobs and alleviate poverty;
8. Advance Broad-Based Black Economic Empowerment (B-BBEE);
9. Upgrade or develop infrastructure;
10. Upgrade / develop historical and / or cultural sites;
11. Promote tourism; and
12. Further advance biodiversity protection and conservation.

Based on SANParks' experience and expertise in implementing PPP projects, National Treasury has granted SANParks authorisation to apply for exemption from Regulation 16 of the PFMA, subject to a detailed application being submitted for each PPP project.

A New Era of PPPs in SANParks – Broadening the Network

As the largest state owned entity in tourism in South Africa, SANParks has an obligation to contribute towards the transformation of the tourism industry. This includes providing opportunities to increase the number of people and businesses benefiting from commercial opportunities in national parks, especially those from local communities and land claimant communities. To achieve this goal, SANParks has implemented various mechanisms to enable sustainable transformation and socio-economic development through the PPP process, including:

- a B-BBEE scorecard for all PPPs (with targets for transformation and local community upliftment);
- additional job creation / local procurement / enterprise and supplier development obligations;
- ring-fencing of PPP opportunities for SMMEs;
- enforced subcontracting to black owned EMEs / QSEs for specified projects; and
- an equity share model for Land Claimants in the KNP (note: the KNP Land Claimant Beneficiation Scheme could / may change, and consideration must be given to this in enhancing the PPP Framework).

SANParks aims to accelerate the implementation of PPPs and intends on appointing a panel of Transaction Advisors to provide support in achieving the above-mentioned goals.

SCOPE OF SERVICES

SANParks seeks to establish a panel of suitably qualified Transaction Advisors. This terms of reference explains the requirements for a bidder to be appointed onto the panel. Please note that SANParks does not guarantee that panel members will receive any work during the contract term.

The purpose of the panel is to provide SANParks with access to specialised skills and expertise (technical, commercial, financial, B-BBEE, local community development and enterprise development) to accelerate the implementation of the SANParks Tourism PPP Programme. During the contract term, the type of work that panel

members will be required for includes:

1. Provision of advisory and operational support in the development and implementation of PPPs:

- SANParks aims to accelerate the implementation of PPPs, for new PPPs and the retender of existing PPPs.
- Depending on the complexity of the each PPP project, whether specialised expertise is required and the internal capacity available, the Transaction Advisor may be requested to provide advisory and / or operational support to the SANParks Project Team in the development of specifications and execution of selected PPP tender processes.
- Advisory and operational support may include support for the full tender process, from project conceptualisation to appointment of an operator, or only a part thereof, e.g. undertaking a feasibility study.

Note: SANParks is in the process of revising the PPP Framework, which will guide all PPPs in the future.

2. Review and enhancement of SANParks' 5-year Strategic Plan for Commercialisation (SPfC):

- The SANParks SPfC is updated every five years, in line with the requirements of the PPP Toolkit for Tourism.
- SANParks has identified the need for a Transaction Advisor to review the SPfC, and recommend enhancements to incorporate best practices and assist in identifying new PPPs to be implemented.

3. Business mentorship of SMMEs appointed to undertake PPPs:

- The involvement of Small, Medium and Micro-sized Enterprises (SMMEs) in PPPs is an important part of promoting transformation and creating opportunities for broader economic growth.
- SANParks has implemented a ring-fencing mechanism, with projects under a certain capital investment set aside for participation by SMMEs only.
- To ensure the success of these SMMEs, SANParks has identified the need for business mentorship to support the growth and development of such SMME-managed PPPs. This may include developing and implementing development programmes or monitoring performance of SMMEs and providing mentorship as and when required.

4. Advisory support related to tourism development for specific projects or parks:

- As and when required, SANParks may require advisory support on tourism development

matters.

- Advisory support is anticipated to incorporate various aspects of the tourism project development process, such as funding mechanisms, accessing new markets or the structuring of projects for optimal returns.

Panel members will be expected to apply the following principles when undertaking work for SANParks:

1. Local and international best practice

- SANParks requires access to local and international best practices on PPPs / concessions, with a strong focus on meaningful participation of local communities and empowering women, youth and people living with disabilities.
- The Transaction Advisor must have the expertise, experience and access to resources to advise SANParks on these best practices and the application thereof in the context of SANParks' circumstances.

2. Interactive engagement

- SANParks expects for any services provided by a panel member to be an interactive process between SANParks and the Transaction Advisor and not only a theoretical exercise.
- The Transaction Advisor is expected to make recommendations that are meaningful and practical for SANParks to implement.
- Once a panel member is appointed to execute a project, SANParks will arrange for regular engagement sessions with the Transaction Advisor to review progress of deliverables and recommendations and provide guidance on the way forward.

3. Evidenced-based decision-making

- The Transaction Advisor will be required to provide evidenced-based recommendations to SANParks.
- Research used to inform recommendations must incorporate best practices and lessons-learned; furthermore, research must include both primary and secondary sources.
- Once a panel member is appointed to execute a project, SANParks will provide the Transaction Advisor with internal documents related to the Scope of Work to inform research and recommendations.
