Transnet ly skade ná onverklaarbare brand

Mimi Swart

Die "containers" waarin boumateriaal geberg is.

Rookwolke was van ver af sigbaar.

Gedurende 2020/21 was Transnet besig om boumateriaal af te laai vir 'n beplande projek. Die projek was geormerk vir uitbreidings vir meer as 121 huise vir hul werknemers.

Die projekbestuurder is deur van die plaaslike kontrakteurs en 'n politieke party teengestaan.

Die volgende dag sou 'n vergadering plaasvind wat onduidelikhede uitklaar.

Die vergadering het wel plaasgevind, maar sedertdien het daar geen verdere beweging plaasgevind nie. Die afgelaide bouware sluit pype en ander boumateriaal geberg in “containers” in.

Die afgelope byna 3 jaar was daar geen abnormale of positiewe aksies te bespeur nie - totdat die intense rookkolom onverklaarbaar Maandag opgemerk is.

'n Ingeligte van Transnet sê dat geen antwoorde nou gegee kan word, wat die toekomsvooruitsigte is nie. Persone wat destyds betrokke was by die projek, is nie een meer by Transnet werksaam nie.
