	SECTION No. 1				
	BILL No. 1PRELIMINARIES				
	BUILDING AGREEMENT AND PRELIMINARIES				
	The JBCC Preliminaries Code 2103, May 2005 edition for use with the JBCC Principal Building Agreement Edition 4.1 Code 2101, March 2005 is taken to be incorporated herein. The tenderer is deemed to have referred to these documents for the full intent and meaning of each clause. These clauses are referred to by number and heading only. Where standard clauses or options are not applicable to the contract such modifications or corrections as are necessary are given under each relevant clause. Where an item is not relevant to this specific contract such item is marked. "N/A" signifying "Not Applicable".				
	PRICING OF PRELIMINARIES				
	Should Option A, as set out in clause B10.3.1 hereinafter be used for the adjustment of preliminaries then each item priced is to be allocated to one or more of the three categories Fixed, Value Related or Time Related and the respective amounts entered in the spaces provided under each item.				
	Items not priced in these Preliminaries shall be deemed to be included elsewhere in these Bills of Quantities.				
	SECTION A: JBCC PRINCIPAL BUILDING AGREEMENT				
	DEFINITIONS				
Α	A1.0 DEFINITIONS AND INTERPRETATION				
	Clause 1.0				
	Carried to Collection		R		
	Section 1 Bill 1 Preliminaries				=

Clause 1.1 Definition of "Commencement Date" is added:		
"COMMENCEMENT DATE" means the date of site handover.		
Clause 1.1 Definition of "Construction Guarantee" is amended by replacing it with the following:		
"CONSTRUCTION GUARANTEE" means a guarantee at call obtained by the contractor from an institution approved by the employer in terms of the employer's construction guarantee form as selected in the schedule.		
Clause 1.1 Definition of "Construction Period" is amended by replacing it with the following:		
"CONSTRUCTION PERIOD" means the period commencing on the date that possession of the site is given to the contractor and ending on the date of practical completion.		
Clause 1.1 Definition of "Corrupt Practice" is added:		
"CORRUPT PRACTICE" means the offering, giving, receiving or soliciting of anything of value to influence the action of a public official in the procurement process or in contract execution.		
Clause 1.1 Definition of "Fraudulent Practice" is added:		
"FRAUDULENT PRACTICE" means a misrepresentation of facts in order to influence a procurement process or the execution of a contract to the detriment of any tenderer and includes collusive practice among tenderers (prior to or after the tender submission) designed to establish tender prices at artificial non-competitive levels and to deprive the tenderer of the benefits of free and open competition.		
Carried to Collection	R	
Section 1		
Bill 1 Preliminaries		

Clause 1.1 Definition of "Interest" is amended by replacing it with the following:			
"INTEREST" means the interest rates applicable on this contract, whether specifically indicated in the relevant clauses or not, will be the rate as determined by the Minister of Finance, from time to time, in terms of section 80(1)(b) of the Public Finance Management Act, 1999 (Act No. 1 of 1999).			
Clause 1.1 Definition of " Principal Agent " is amended by replacing it with the following:			
"PRINCIPAL AGENT" means the person or entity appointed by the employer and named in the schedule. In the event of a principal agent not being appointed, then all the duties and obligations of a principal agent as detailed in the agreement shall be fulfilled by a representative of the employer as named in the schedule.			
Clause 1.1 Definition of " Security " is amended by replacing it with the following:			
"SECURITY" means the form of security provided by the employer of contractor , as stated in the schedule , from which the contractor or employer may recover expense or loss.			
Clause 1.6 is amended by replacing the words "prepaid registered post, telefax or e-mail" with "prepaid registered post or telefax"			
Clause 1.6.4 is amended by replacing it with the following:

Section 1 Bill 1			
Preliminaries			

			1	n .	i
(c)	The contractor shall, upon receiving a contract instruction from the principal agent, cause the same to be made good in a perfect and workmanlike manner at his own cost and in default thereof the employer shall be entitled to cause it to be made good and to recover the cost thereof from the contractor or to deduct the same from amounts due to the contractor.				
(d)	The contractor shall be responsible for the protection and safety of such portions of the premises placed under his control by the employer for the purpose of executing the works until the issue of the certificate of practical completion.				
(e)	Where the execution of the works involves the risk of removal of or interference with support to adjoining properties including land or structures or any structures to be altered or added to, the contractor shall obtain adequately insurance and will remain adequately insured or insured to the specific limit stated in the contract against the death of or injury to persons or damage to such property consequent on such removal or interference with the support until such portion of the works has been completed.				
(f)	The contractor shall at all times proceed immediately at his own cost to remove or dispose of any debris and to rebuild, restore, replace and/or repair such property and to execute the works .

Section Bill 1 Prelimi					

10.7 High risk insurance		
In the event of the project being executed in a geological area classified as a "High Risk Area", that is an area which is subject to highly unstable subsurface conditions that might result in catastrophic ground movement evident by sinkhole or doline formation the following will apply:		
10.7.1 Damage to the works		
The contractor shall, from the commencement date of the works until the date of the certificate of practical completion bear the full risk of and hereby indemnifies and holds harmless the employer against any damage to and/or destruction of the works consequent upon a catastrophic ground movement as mentioned above. The contractor shall take such precautions and security measures and other steps for the protection of the works as he may deem necessary.		
When so instructed to do so by the principal agent , the contractor shall proceed immediately to remove and/or dispose of any debris arising from damage to or destruction of the works and to rebuild, restore, replace and/or repair the works , at the contractor's own costs.		
10.7.2 Injury to persons or loss of or damage to property		
The contractor shall be liable for and hereby indemnifies and holds harmless the employer against any liability, loss, claim or proceeding arising at any time during the period of the contract whether arising in common law or by statute, consequent upon personal injuries to or the death of any person whomsoever resulting from, arising out of or caused by a catastrophic ground movement as mentioned above.		
		<u> </u>

Section 1 Bill 1 Preliminaries		

- 1		1		1	1
	The contractor shall be liable for and hereby indemnifies the employer against any and all liability, loss, claim or proceeding consequent upon loss of or damage to any moveable or immovable or personal property or property contiguous to the site , whether belonging to or under the control of the employer or any other body or person whomsoever arising out of or caused by a catastrophic ground movement, as mentioned above, which occurred during the period of the contract.				
	10.7.3 It is the responsibility of the contractor to ensure that he has adequate insurance to cover his risk and liability as mentioned in 10.7.1 and 10.7.2. Without limiting the contractor's obligations in terms of the contract, the contractor shall, within twenty one (21) calendar days of the commencement date but before commencement of the works, submit to the employer proof of such insurance policy, if requested to do so.				
	10.7.4 The employer shall be entitled to recover any and all losses and/or damages of whatever nature suffered or incurred consequent upon the contractor's default of his obligations as set out in 10.7.1; 10.7.2 and 10.7.3. Such losses or damages may be recovered from the contractor or by deducting the same from any amounts still due under this contract or under any other contract presently or hereafter existing between the employer and the contractor and for this purpose all these contracts shall be considered one indivisible whole.

	Bill 1 Preliminaries			

This schedule contains all variables referred to in this document and is divided into pre-tender and post tender categories. The pre-tender category must be completed in full and included in the tender documents. Both the pre-tender and post tender categories form part of these Preliminaries . Spaces requiring information must be filled in, shown as "not applicable" or deleted and not left blank. Where choices are offered, the non-applicable items are to be deleted. Where insufficient space is provided the information should be annexed hereto and cross-referenced to the applicable clause of the schedule . Key cross reference clauses are italicized in [] brackets.

Preliminaries					

	SECTION C: SPECIFIC PRELIMINARIES			
	Section C contains specific preliminary items which apply to this contract except where N/A (Not Applicable) appears against an item.			
CY	C1 CONTRACT DRAWINGS			
	The drawings issued with the tender documents do not comprise the complete set but serve as a guide only for tendering purposes and for indicating the scope of the work to enable the tenderer to acquaint himself with the nature and extent of the works and the manner in which they are to be executed.			
	Should any part of the drawings not be clearly understood by the tenderer he shall, before submitting his tender, obtain clarification in writing from the principal agent .			
	Fixed: Value related: Time related:	Item		
cz	C2 GENERAL PREAMBLES			
	The document "Specification of Materials and Methods to be used (PW371)" is obtainable on request from the head office and all regional offices of the Department, and shall be read in conjunction with the bills of quantities / lump sum document and be referred to for the full descriptions of work to be done and materials to be used.			
	Fixed: Value related: Time related:	Item		
	Carried to Collection		R	
	Section 1 Bill 1 Preliminaries			

DA	C3 TRADE NAMES			
	Wherever a trade name for any product has been described in the bills of quantities / lump sum documents, the tenderer's attention is drawn to the fact that any other product of equal quality may be used subject to the written approval of the principal agent being obtained prior to the closing date for submission of tenders.			
	If prior written approval for an alternative product is not obtained, the product described shall be deemed to have been tendered for.			
	Fixed: Value related: Time related:	Item		
DB	C4 IMPORTED MATERIALS AND EQUIPMENT			
	Where imported items are listed in the tender documents, the tenderer shall provide all the information called for, failing which the price of any such item, materials or equipment shall be excluded from currency fluctuations. (refer to Schedule of Imported Materials and Equipment to be completed by tenderer).			
	Notwithstanding any provisions elsewhere regarding the adjustment of contract prices, the price of any item, material or equipment listed in terms of this clause shall be excluded from the Contract Price Adjustment Provisions (if applicable).			
	Fixed: Value related: Time related:	Item		
	Carried to Collection		R	
	Section 1 Bill 1 Preliminaries			

DC	C5 VIEWING THE SITE IN SECURITY AREAS			
	The site is situated in a security area and the tenderer must arrange with the unit commander or other responsible officer to obtain permission to enter the site for tendering purposes			
	Fixed: Value related: Time related:	N/A		
DD	C6 COMMENCEMENT OF WORKS IN SECURITY AREAS			
	As the works falls within a security area the contractor must give the unit commander or other responsible officer notice before commencement of the works. Should the contractor fail to make such arrangements, admission to the site may be refused and any additional costs will be for the contractor's account.			
	Fixed: Value related: Time related:	N/A		
DE	C7 ENTRANCE PERMITS TO SECURITY AREAS			
	As the works falls within a security area the contractor shall obtain entrance permits for his personnel and workmen entering the area and shall comply with all regulations and instructions which may be issued from time to time regarding the protection of persons and property under the control of the Defence Force, Police or chief security officer.			
	Fixed: Value related: Time related:	N/A		
	Carried to Collection		R	
	Section 1 Bill 1 Preliminaries			

DF	C8 SECURITY CHECK OF PERSONNEL			
	The principal agent may require the contractor to have his personnel and workmen, or a certain number of them, security classified.			
	In the event of the principal agent requesting the removal of a person or persons from the works for security reasons, the contractor shall do so forthwith and shall thereafter ensure that such person or persons are denied access to the works and the site and/or to any document or information relating to the works .			
	Fixed: Value related: Time related:	N/A		
DG	C9 PROHIBITION ON TAKING OF PHOTOGRAPHS			
	In terms of article 119 of the Defence Act, 44 of 1957, it is prohibited to sketch or to take photographs of any military site or installation or any building or civil works thereon or to be in possession of a camera or other apparatus used for taking of photographs except when authorized thereto by or on behalf of the Minister.			
	The same prohibition is also applicable to all correctional institutions in terms of article 44.1(e) of the Correctional Services Act 8 of 1959.			
	Fixed: Value related: Time related:	N/A		
	Carried to Collection		R	
	Section 1 Bill 1 Preliminaries			

	C10 HIV/AIDS AWARENESS			
	It is required of the contractor to thoroughly study the HIV/AIDS Specification (PW1544) of the Department that must be read together with and is deemed to be incorporated under this Section of the bills of quantities / lump sum document . Provision for pricing of HIV/AIDS awareness is made under items C10.1 to C10.5 hereafter and it is explicitly pointed out that all requirements of the aforementioned specification are deemed to be priced hereunder, as the said items represent the only method of measurement and no additional items or extras to the contract in this regard shall be entertained.			
	The contractor must take note that compliance with the HIV/AIDS Specification is compulsory. In the event of partial or total non-compliance, the principal agent , notwithstanding the provisions of Clause A 31.0 or any other clause to the contrary, reserves the right to delay issuing any progress payment certificate until the contractor provides satisfactory proof of compliance. The contractor shall not be entitled to any compensation of whatsoever nature, including interest, due to such delay of payment.			
DH	C10.1 AWARENESS CHAMPION			
	Selection, appointment, briefing and making available of an Awareness Champion including provision of all relevant services, all in accordance with the HIV/AIDS Specification.			
	Fixed: Value related: Time related:	ltem		
	Carried to Collection		R	
	Section 1 Bill 1 Preliminaries			

DI	C10.2 AWARENESS WORKSHOPS			
	Selection and appointment of a competent Service Provider approved by the principal agent , provision of a Service Provider Workshop Plan and a suitable venue, conducting of awareness workshops by means of traditional and/or modern multi-media techniques, including follow-up courses, making available all tuition material and performing assessment procedures, all in			
	accordance with the HIV/AIDS Specification.			
	Fixed: Value related: Time related:	Item		
DJ	C10.3 POSTERS, BOOKLETS, VIDEOS, ETC.			
	Provision, displaying, maintaining and replacing when necessary of four plastic laminated posters, booklets and educational videos, etc. for the duration of the construction period , all in accordance with the HIV/AIDS Specification.			
	Fixed: Value related: Time related:	Item		
DK	C10.4 ACCESS TO CONDOMS			
	Provision and maintenance of condom dispensers fixed in position, including male and female condoms, replenishing male and female condoms on a daily basis as required for the duration of the construction period , all in accordance with the HIV/AIDS Specification.

DL	C10.5 MONITORING			
	Monitoring HIV/AIDS awareness of workers, providing the principal agent with access to information including making available all reports, thoroughly completed and reflecting the correct information, for the duration of the construction period and close out, all in accordance with the HIV/AIDS Specification.			
	Fixed: Value related: Time	Item		
	related:			
	Carried to Collection		R	
	Section 1			_
	Bill 1 Preliminaries			

C11 OCCUPATIONAL HEALTH AND SAFETY ACT			
The contractor shall comply with all the requirements set out in the Construction Regulations, 2014 issued under the Occupational Health and Safety Act, 1993 (Act No 85 of 1993).			
It is required of the contractor to thoroughly study the Health and Safety Specification that must be read together with and is deemed to be incorporated under this Section of the bills of quantities / lump sum document .			
The contractor must take note that compliance with the Occupational Health and Safety Act, Construction Regulations and Health and Safety Specification is compulsory. In the event of partial or total non compliance, the principal agent, notwithstanding the provisions of clause A31.0 of Section A or any other clause to the contrary, reserves the right to delay issuing any progress payment certificate until the contractor provides satisfactory proof of compliance. The contractor shall not be entitled to any compensation of whatsoever nature, including interest, due to such delay of payment. Provision for pricing of the Occupational Health and Safety Act, Construction Regulations and Health and Safety Specification is made under this clause			
and it is explicitly pointed out that all requirements of the aforementioned are deemed to be priced hereunder and no additional claims in this regard shall be entertained.

	MODEL PREAMBLES				
	PREAMBLES The tenderer is referred to the "Model Preambles for Trades 2008" for supplementary and comprehensive expansion of descriptions, appropriate provision for which shall be deemed to have been included in all relevant rates.				
	Carried to Collection		R		_
	Section 1 Bill 2 Healthy and Safety				=

SUPPLEMENTARY PREAMBLES			l
Supplementary preambles and/or specifications are incorporated in these bills of quantities to satisfy the requirements of this project. Such supplementary preambles and/or specifications shall take precedence over the provisions of the General Preambles.			
The contractor's prices for all items throughout these bills of quantities shall take account of and include where applicable for all the obligations, requirements and specifications given in the General Preambles and in any supplementary preambles and/or specifications.			
Prior to pricing, the principal contractor must familiarize him/herself with the Occupational Health and Safety Act No. 85 Of 1993. Construction Regulations 2014, other relevant Regulations and Standards as well as project specific Health & Safety Specifications.			
The items in this Bill do not contain quantities hence the Contractor must insert his own quantities based on his individual requirements to comply with the Health and Safety obligations and demands of the Occupational Health and Safety Act No. 85 Of 1993, Construction Regulations 2014, other relevant Regulations and Standards as well as project specific Health & Safety Specifications.			
The costs included herein must incorporate Community Liaison Officer (CLO).

<u>140</u>	SECTION No. 2 BILL No. 1 ALTERATIONS (PROVISIONAL)			
	For Preambles refer to "Department of Public Works: Specification Of Materials And Methods To Be Used - PW371".			
	ALTERATIONS			
	Tenderers are advised to visit the site prior to tendering and satisfy themselves as to the nature and extent of the work to be done, also to examine the condition of all existing buildings as no claim will be entertained on the grounds of ignorance of the conditions under which the work was to be executed.			
	Old materials from alterations except where described to be re-used or handed over, become the property of the Contractor who must allow credit for same.			
	Old materials from alterations except where described to be re-used or handed over, as well as rubbish, etc. must be regularly carted from the site and not be allowed to accumulate on or around the site and pricing thereof must be included in the Contractor's rates as no extras in this regard will be entertained. Items described as "removed" shall mean removed from the site.			
	None of the old materials are to be used for new work except where specifically described as being set aside for re-use.			
	Where certain materials or articles from alterations are described as to be handed over by the Contractor to the Principal Agent, such material or articles shall be properly stored by the Contractor until handing over thereof. The Contractor shall obtain an official receipt listing the materials or articles and dates of handing over. If the Contractor fails to submit the receipt when requested to do so it shall be deemed that the materials or articles are still in his possession and			
	Carried to Collection		R	
	Section 2 Bill 1 Alterations (Provisional)			

he will be held liable to the Client for the full replacement value thereof which amount will be deducted from any monies due to the Contractor.		
The Contractor is to take dimensions affecting the existing buildings on the site as he will be solely responsible for all new work being to the correct sizes.		
The Principal Agent is to be notified immediately of any discrepancies between the drawings and the existing work and all work affected by these discrepancies is to be suspended until such time as the Principal Agent shall authorise its continuance.		
Before commencing the alterations the Contractor shall comply with any regulations in force in respect of rodent extermination and he shall obtain the requisite Rodent Extermination Clearance Certificate and pay any fees in connection therewith.		
Tenderers are advised that the adjoining buildings will be in occupation during the time that the works are in progress and due allowance must be made for the work being carried out at such times and in such a manner as will least interfere with the general routine of the occupants.		
All floors, doors, windows, fittings, electrical and mechanical plant, etc., must be adequately protected from damage during the progress of the works and any damage resulting from the building work must be made good by the Contractor at his own expense.		
The Contractor will be held solely responsible for any injury to persons, damage to property and for the safety of the structure throughout the duration of the Contract and must make good at his own expense any damage that may occur.		
Any existing works damaged or disturbed through alterations, etc. shall be made good with all necessary new materials to match existing and left complete and perfect in every respect to the satisfaction of the Principal Agent.		
Carried to Collection	R	
Section 2		_
Bill 1 Alterations (Provisional)		

Any temporary tarpaulins, dust and weatherproof screens and barriers that may be necessary for the protection of the Works must be supplied, erected and maintained during the progress of the Works, all to the satisfaction of the Principal Agent and be removed on completion.			
All shoring, needling, or strutting required to ensure the stability of the premises, must be supplied, erected and maintained during the progress of the Works and removed on completion, or when directed. The shores, needles or struts must be constructed from suitable and substantial timber and any other suitable materials necessary and must be to the satisfaction of the Principal Agent.			
Wherever and whenever necessary, or at the direction of the Principal Agent, the works must be well watered with a jet or spray from a hose sufficient to prevent any nuisance from dust.			
The Contractor must not remove or interfere with any furniture, furnishings, fittings, or similar moveable articles belonging to the Client and must give adequate notice to the Principal Agent if the removal of any such articles from parts of the building to be altered are necessary, so that they may have same removed before the Contractor commences work.			
The Contractor must conform to the instructions of the Principal Agent in carrying out any portion of the work, which in his opinion requires expediting, and the Contractor must give priority to such work as and when directed.			
<u>Prices</u>			
Prices are to include for carting away from site all materials not specifically mentioned as being stored on site for re-use or handed over to the Principal Agent and all rubbish, debris, etc., arising from the demolitions, alterations, etc., and for making good all work damaged or disturbed to the approval of the Principal Agent.			
Prices are in addition to the above to include for the temporary removal and on completion setting back

	All proprietary cleaning agents, sealants, paint finishes, etc., specified are to be mixed and applied strictly in accordance with the manufacturer's instructions.				
	SPECIALIST FLOOR AND WALL COATINGS				
	Carried to Collection			R	
	Section 2 Bill 5 Paintwork				

FLOOR COATINGS				
Special floor coatings are to be applied by approved specialists in strict accordance with the manufacturer's instructions to provide a hard high quality finish, free of all blemishes, of selected colours and all to the approval of the Principal Agent.				
Floor coatings are only to be applied to screeded surfaces when the moisture content of the screed does not exceed five (5) percent as determined by a SABS approved moisture meter. Prior to the application of the special floor coatings the Contractor must obtain from the specialist applicators written approval of the screed surfaces and this approval must be deposited with the Principal Agent.				
Prices are to include for all necessary preparation, stopping, filling and priming of surfaces in order to achieve a high quality finish with materials recommended by the manufacturers of the finishes as being suitable for use with their products. Prices are to include for all cutting in and masking required.				
The Contractor will be required to provide sample panels of the various types of finishes for the approval of the Principal Agent and all finished work must be equal to the approved samples.				
Prime surfaces and apply two coats non-slip self-levelling epoxy floor finish with antimicrobial additive having a finished thickness of 0,5mm minimum 25N/mm2, free from laitance, dust and other contamination on:

Section 3 Bill 1 Aprons and Open Walkways (Provisional)			

<u>Item</u> <u>No</u>		Quantity	<u>Rate</u>	<u>Amount</u>
110	SECTION No. 3 BILL No. 2 FENCING AND GATES (PROVISIONAL)			
	For Preambles refer to "Department of Public Works: Specification Of Materials And Methods To Be Used - PW371".			
	SECURITY FENCING			
	Galvanised mild steel security fencing and gates:			
Α	Fencing 2100mm high overall of four strands of 4mm galvanised steel draw wire, tightly drawn and fixed to posts and straining eye bolts, covered with 50 x 50 x 2,5mm approved galvanised weld-mesh in long lengths without horizontal joints, tied with 2,5mm binding wire at 500mm centres to each strand of draw wire and provided with two coils 675mm 'Flat-wrap Razor Wire', one fixed to bottom of fence to weld-mesh and the other to top of fence to weld-mesh with 2,5mm binding wire at each intersection with wire and as necessary, including clearance and preparation of ground to a width of 1500mm.	n 84		
	Hot dipped galvanised mild steel posts:			
В	50mm Internal diameter x 2,8mm wall thickness galvanised mild steel stay, 2,5m long, with one end flattened, bent, holed for and bolted to post and other end fitted with 200 x 200 x 6mm thick base plate welded on and embedding end of stay in concrete block (elsewhere measured).	10		
С	50mm Internal diameter x 2,8mm wall thickness galvanised mild steel intermediate post 3,28m long, holed for strands, with one end sealed off with 4mm thick galvanised head cap and the other end with 200 x 200 x 6mm thick base plate welded on and embedding end of post in concrete block (elsewhere measured).	0 22		
	(elsewhere measureu).	22		
	Carried to Collection		R	
	Section 3 Bill 2 Fencing and Gates (Provisional)			

D	100mm Internal diameter x 3mm wall thickness galvanised mild steel straining posts 2,555m long, holed for strands or bolts, with one end sealed off with 4mm thick galvanised head cap and the other end with 300 x 300 x 6mm thick base plate welded on and embedding end of post in concrete block (elsewhere measured). Hot dipped galvanised welded steel gates	No	6		
E	Single gate to detail size 1,2m wide and 2,1m high overall; formed of 50mm (internal) diameter x 2,5mm thick galvanised mild steel tubular frame mitred and flush welded at angles and with one 50mm (internal) diameter x 2,5mm thick galvanised mild steel tubular diagonal brace with ends scribed into corners and flush welded to frame and covered with 50 x 50 x 2,5mm approved galvanised weldmesh securely bound to frame and brace with 2mm diameter galvanised binding wire; hang gate on two 20mm diameter galvanised mild steel purpose made adjustable hinges each 300mm girth with one end threaded for and fitted with nut, locknut and washers and other end forged around stile and welded together and with 10mm diameter galvanised mild steel collar forged around and welded to stile above each hinge; fit gate with 10mm diameter galvanised mild steel semi-circular lock surround 300mm girth with both ends welded to stile and with an approved 180mm galvanised mild steel pad bolt welded to stile.	No	1		
	Sundries:				
F	760 x 450 x 600mm Cement concrete (15MPa/19mm) base to stay posts, projecting 50mm above ground level, top surfaces smoothed down from post to the ground and rounded on salient angles, including necessary excavation, backfilling, ramming and formwork.	No	10		
G	450 x 450 x 900mm Ditto base to intermediate and corner posts, ditto.	No	28		
	Carried to Collection			R

<u>110</u>	SECTION No. 3 BILL No. 3 DRAINAGE (PROVISIONAL)				
	NOTE:				
	For Preambles refer to "Department of Public Works: Specification Of Materials And Methods To Be Used - PW371".				
	STORMWATER CHANNELS				
	REINFORCED CONCRETE				
	20MPa/19mm concrete in:				
Α	V-shaped channel 600mm wide x average 130mm thick reinforced with and including Type 193 fabric reinforcement, with rounded salient edges and finished on exposed surfaces with 2:1 cement mortar, laid to falls in panels not exceeding 1850mm long with 12mm bitumen impregnated softboard movement joints with exposed edges raked out for a depth of 12mm and filled with two-part grey polysulphide sealing compound including backing cord, bond breaker, primer, etc and including all necessary excavation, formwork, filling, etc	m	122		
В	Extra for angles, intersections, ends, dressing into sides of catchpits, etc	No	28		
С	Triangular shaped concrete spill basin size 600mm at head, 1500mm at base end and 1050mm long, formed of 200mm thick 20MPa/19mm concrete base with concrete upstand size 200 x 200mm high along two sides and 200 x 200 downstand edge beam, the top of the base inlaid with eleven (11) No. 150 x 150 x 150mm concrete blocks protruding 55mm above the surface of the concrete, with concrete blocks cast into concrete whilst still green and loose stones of 150 to 200mm diameter at the base of the spill basin for a width of 200mm, including all the necessary excavations,				
	compaction, formwork, etc	No	4		
	Carried to Collection			R	
	Section 3 Bill 3 Drainage (Provisional)				

	EARTH DRAINS AND BERMS				
	Excavation in earth not exceeding 2m deep				
D	Excavate in earth to form an unlined open earth drain, 1500mm wide and 500mm deep across the slope of the ground.	m3	15		
	THE FOLLOWING IN SUBSOIL DRAINAGE				
E	Excavation not exceeding 2m deep for drain trenches	m3	123		
F	Backfilling to drain trenches compacted to ?% Mod AASHTO density	m3	60		
G	19mm Crushed stone encasing to pipes	m3	14		
Н	"Kaymat U19" Geo-fabric filter blanket wrapped around stone encasing with 150mm side and 300mm end laps including stitching	m2	34		
I	110mm Slotted uPVC agricultural pipes laid in stone encasing	m	56		
J	Extra for 110mm capped end	No	2		
K	Extra for 110mm bend	No	2		
L	Extra for 110mm junction	No	1		
	CONCRETE				
	Thrust blocks:				
М	Unreinforced concrete (20MPa) in thrust blocks at bends, tees, etc., including necessary excavation, form work, etc	m3	2		
	THE FOLLOWING IN 2NO. SUB-SOIL DRAINAGE CLEANING EYE				
	<u>EARTHWORKS</u>				
	Carried to Collection			R	
	Section 3 Bill 3 Drainage (Provisional)				

	Excavation in earth not exceeding 2m deep for:				
N	Reduced levels under slabs	m3	0.4		
	CONCRETE				
	Reinforced Concrete				
	20 MPa/19 mm concrete in:				
0	Bottoms and sides cast against excavated surfaces.	m3	0.4		
	20MPa precast concrete:				
Р	Reinforced concrete cover to cleaning eye size 0,6 x 0,6 x 0.1m thick with 6mm diameter galvanised steel handle as per detail.	No	2		
	Concrete test cubes:				
Q	Allow for all necessary concrete test cubes size 150 x 150 x 150mm cast from batches of concrete required for the entire contract.	No	3.00		
	<u>FORMWORK</u>				
	Formwork (use and waste) to concrete to:				
R	Edges, risers, ends and reveals not exceeding 300mm high or wide	m	5		
	REINFORCEMENT				
	Mild steel reinforcement to structural concrete work				
S	8mm Diameter bars	kg	3		
	SUNDRY METALWORK:				
	Sundry galvanised steelwork:				
T	100 x 65 x 20mm x 7,07kg/m L-shaped frame size 600 x 600mm fixed to concrete.	No	2		
	Carried to Collection			R	
	Section 3 Bill 3 Drainage (Provisional)				

	SUNDRIES				
	Thrust blocks:				
U	Unreinforced concrete (20MPa) in thrust blocks size 1200 x 560 x 560mm at junctions, etc., including necessary excavation, form work, etc	m3	1		
	THE FOLLOWING IN 2NO. JUNCTION BOX				
	The following in junction boxes, constructed of 150mm thick cement concrete (20MPa) bottoms, and sides, with 100mm cement concrete (20MPa) top, all excavations, filling, compacting to natural ground level and carting away surplus spoil away from site:				
V	Junction box size 750 x 750mm and exceeding 150mm and not exceeding 300mm deep internally.	No	2		
	THE FOLLOWING IN 2No SUB-SOIL DRAINAGE OUTLET:				
	Excavation and filling:				
W	Reduced levels under slabs	m3	0.4		
	Extra over all excavations for carting away:				
X	Surplus material from excavations and/or stock piles on site to a dumping site to be located by the contractor	m3	0.4		
	25MPa/19mm concrete in:				
Υ	Surface bed with nib cast against excavated surfaces	m3	0.5		
	Concrete test cubes:				
Z	Allow for all necessary concrete test cubes size 150 x 150 x 150mm cast from batches of concrete required for the entire contract.	No	3.00		
	Carried to Collection			R	
	Section 3 Bill 3 Drainage (Provisional)				

	Finishing top surfaces of concrete with a wood float:				
AA	Surface beds, slabs, etc	m2	1		
	Formwork to sides:				
AB	Rough formwork to edge not exceeding 300mm high	m	3		
	SOIL AND WASTE WATER DRAINAGE				
	uPVC pipes Class 34 for use under ground in accordance with SANS 1601 - 1994 with uPVC couplings				
AC	110mm Pipes laid in and including trenches exceeding 1000mm and not exceeding 1500mm deep.	m	11		
AD	Ditto exceeding1500mm and not exceeding 2000mm deep.	m	13		
	Extra for				
ΑE	110mm Bend	No	4		
AF	110mm Access bend.	No	6		
AG	110mm Y-junction.	No	6		
	SUNDRIES				
	Thrust blocks:				
АН	Unreinforced concrete (20MPa) in thrust blocks size 1200 x 560 x 560mm at junctions, etc., including necessary excavation, form work, etc	m3	2		
Al	Allow for unforeseen works design by Civil Engineer in relation to drainage works		Item		
	TESTING
