

SUPPLY & INSTALL 4 x UV water sterilization units (for Tunnels 10, 14, Glasshouse 8 and Glasshouses 2&3)

Item information

85W ULTRAVIOLET Germicidal UV Sterilizer, NSF Certified,

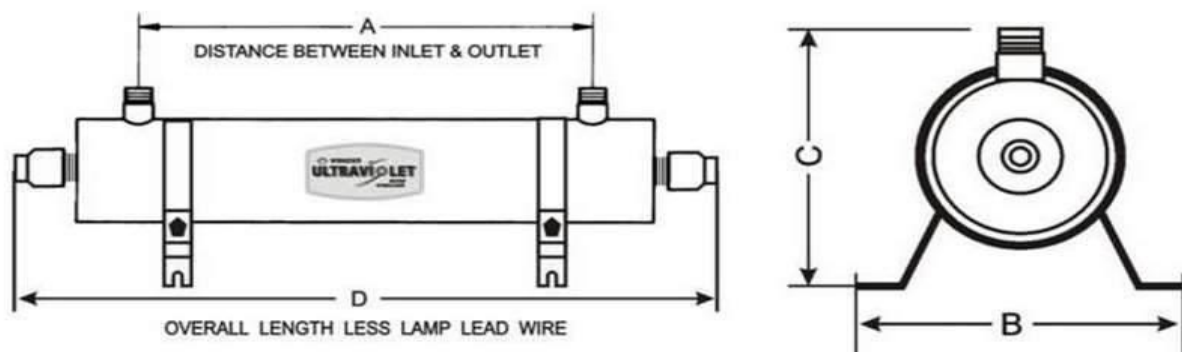

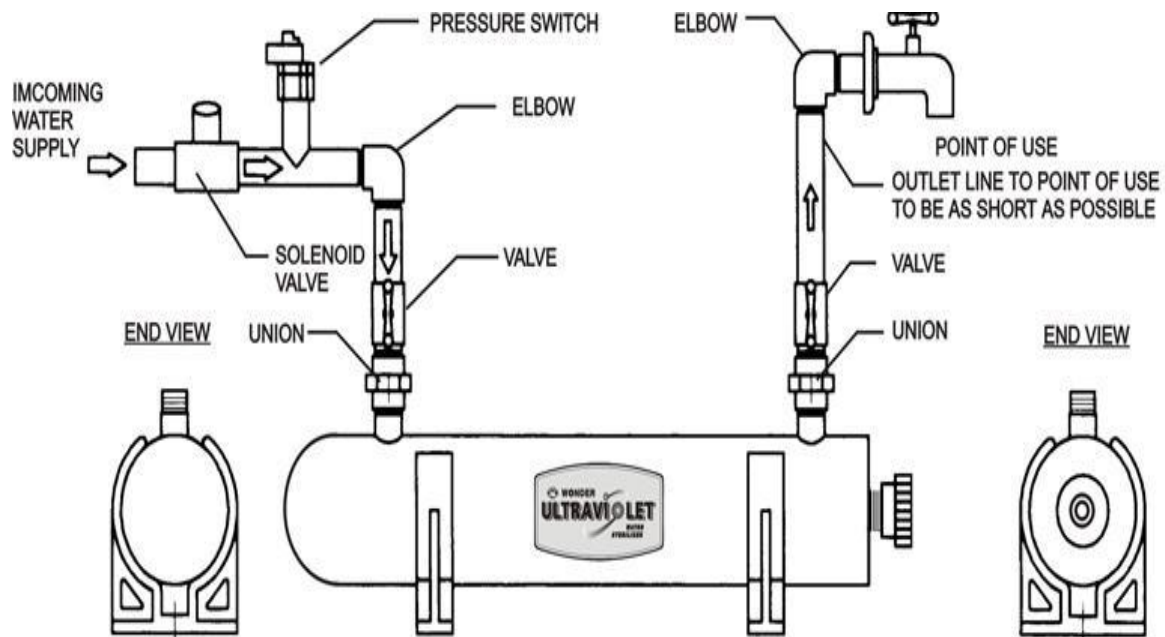

Description

ULTRAVIOLET Germicidal Sterilizer must;

- Be NSF Certified for assurance of food grade quality
- Be 85W or more
- Be able to sterilize up to 5450 Litres per Hour
- Have the control box which features an audible alarm that will sound if there is a failure on the system i.e. lamp or ballast blows
- Have a LCD countdown timer which displays how many days/hours left for effective UV sterilization
- Have quality UV lamps rated for 9000 hours
- UV Sterilization is an effective chemical-free method for disinfecting water from bacteria such as E. coli
- A 2-year warranty (excluding lamp & quartz sleeve due to the fragile nature of the glass)
- Supply spare germicidal UV lamp

Installation

NOTE: LINE CORD AND LAMP LEAD WIRE OMITTED FOR CLARITY.
