

TECHNICAL EVALUATION CRITERIA
FOR THE MANUFACTURE, SUPPLY & DELIVERY OF PERSONAL
PROTECTIVE EQUIPMENT (Work wear) FOR DX - CENTRAL EAST
CLUSTER

Introduction

This document has been developed to set the standard technical evaluation criteria to be used when evaluating tender submissions. This covers the technical evaluation for the Manufacture, Supply and Delivery of Personal Protective Equipment (Workwear) for the Dx Central East Cluster (Free State and KwaZulu Natal Operating Units).

Evaluation strategy

The aim of the technical evaluation is to establish the capability of tenderers to supply good and quality PPE that complies with the relevant statutory requirement, local, international and Eskom's standards and requirements. The technical scope for this enquiry is compliant with the following standard:

- 240-44175132 - Eskom Personal Protective Equipment.

The technical evaluation will be conducted in two phases, that is, first phase - Desktop evaluation and second phase - Sample evaluation.

Phase 1 – Desktop Evaluation

1. Bidders are required to submit the mandatory returnables as per the criteria set out in (Annexure A).
 - A 'Yes/No' criteria will be utilized, to determine whether the requirements are met or not.
 - Mandatory criteria are must-meet criteria and therefore if the returnable is not contained within the submission or is non-compliant to the stipulated criteria then a result of "NO" will be allocated.
 - An assessment outcome of 'No' against any criterion shall disqualify the tenderer and therefore no further evaluation shall be conducted.
 - No scores will be allocated during the evaluation of the technical mandatory returnables.
2. The evaluation will per category. This means that the bidder must supply all the PPE in a category to be considered for that category.
 - Bidders are required complete and return the PPE category document (Annexure B) confirming the category of PPE the bidder can be able to supply. The bidder is required to confirm by placing an (x) on each product line for that particular category. If the bidder cannot supply all the products in a particular category, that category will not be evaluated in the second phase.
 - The non-submission of Annexure B clearly indicating the PPE that that tenderer is able to supply will be disqualified from further evaluation.

Failure to submit the requirements in Annexure A and the completing and submission of Annexure B will result in disqualification and shall not be progress to Phase 2.

Phase 2 – Site Sample Evaluation.

- Phase 2 is a site sample evaluation where selective items will be identified and evaluated.
- Tenderers are required to prepare the various samples as per Annexure C.
- The Eskom evaluation team will comprise of 6 members comprising of various sizes
- The Eskom Technical Evaluating team will inspect the samples provided for compliance with the Eskom's PPE Specifications
- The threshold is 90%.

(Annexure A)

Evaluation criteria Phase 1: Desktop Evaluation

Mandatory Criteria and Returnable:

No	Criteria	Returnable	Evaluation Result (Yes/No)
1.	Letter of support and sourcing	For Manufacturers only: - A letter of undertaking from the manufacturer, confirming that they will be able to supply all the PPE products as tendered for the duration of the contract. Note: - The letter must be on the manufacturer's letter head and should be signed by the authorised company representative with contact details. For Redistributors only: - A letter of agreement signed by both parties, confirming that they will be sourcing their products from that Manufacturer for the duration of the contract. Note: - The letter must be on the manufacturer's letter head and should be signed by both parties with contact details. - If the products are to be sourced from 3 different manufacturers, therefore, 3 signed letters of agreements should be in the submission document.	
2.	Capacity for the transport and delivery of PPE to the various sites in KZN & Free State	<u>Can be owned</u> - Vehicles indicated as Owned will need to be substantiated by providing the Vehicle Owner's information and Registration papers. <u>Can be rented for deliveries</u> - Tenderers are required to submit a letter (letterhead) from any Bona fide vehicle rental company confirming the intention to make use of the rental service for the duration of the contract. - The hiring letter shall be signed by the hiring company representative. <u>Utilisation of courier companies:</u> - Tenderers are required to submit a letter from any bona fide service provider (letterhead of the preferred courier company) confirming the intention to make use of the courier service to deliver to the all the sites for the duration of the contract. - The courier letter shall be signed by the courier company representative.	
3.	Experience	Tenderers are required to submit reference letters on the letterhead of the organization to which the service of PPE has been rendered. It should at a minimum contain the following: - The name of the organization - The services rendered and time frame - Total contract value or accumulative purchase orders - Contact details of the company representative
