

### Technical Evaluation Criteria

Technical Evaluation Criteria					
Technical Requirements		Weighting	Scoring	Final score	
		90			
1	Scoring is based on meeting all the requirements marked as critical criteria which is listed in the attached technical specification sheet, "2.5T Electric Forklift Technical Specification". The technical specification sheet must be completed and returned as part of the tender returnables and be in accordance to the supplied OEM electric forklift technical specifications sheet.	25	Supplier does meet all critical criteria = 25 Points Supplier does not meet all critical criteria = 0 Points	100%	
2	The electric forklift and items supplied must be preferably from a local dealership and service center within the City of Cape Town municipality region. Proof of address for both the dealership and service center must be provided on their respective company letterhead. Supplier will be scored on the radius distance from the City of Cape Town municipality region.	35	Distance < = 60 km = 35 Points Distance < = 120 km = 25 Points Distance < = 500 km = 10 Points Distance > 500 km = 5 Points		
3	The bidder must supply written confirmation on their respective company letterhead of the warranty period for the electric forklift.	15	Warranty period > = 2 years = 15 Points Warranty period > = 1 years = 13 Points Warranty period < 1 year = 0 Points		
4	The bidder must confirm the estimated lead time to respond to sudden on site breakdowns during the warranty period. Written proof to be provided from customers serviced in the City of Cape Town municipality region. This proof must include customer contact information, proof of address of customers, average lead time responding to breakdowns.	15	Within 48 hrs = 15 Points Within 72 hrs = 13 Points > 72 hrs = 0 Points		
(Minimum final score required is 84%) Total		90
