

## ERRATUM

RFQ NO: EHC/ACFR/08/2025

Notice is hereby given that the bid description: Request for the supply, installation, and maintenance of a comprehensive Dynamic Face & Fingerprint Recognition Terminal and vehicle registration number access control system RFQ NO: EHC/ACFR/08/2025 that were advertised on the e-tender portal and website on the – have the following amendments / corrections:

BID NO.	INITIAL ADVERT	CORRECTION/AMENDMENT/INSERTION
EHC/ACFR/08/2025	<ul style="list-style-type: none"> <li>Title: Appointment of a service provider for the supply, installation, and maintenance of a comprehensive digital facial recognition, fingerprint and vehicle registration number access control system in Pharos Park</li> </ul> <p>Scope of work</p> <ul style="list-style-type: none"> <li>System Design and Supply: Provide a detailed system design and all necessary hardware and software components. This includes: <ul style="list-style-type: none"> <li>Facial recognition terminals at pedestrian entry and exit points (e.g., turnstiles).</li> <li>Fingerprint biometric scanners as</li> </ul> </li> </ul>	<ul style="list-style-type: none"> <li>Request for the supply, installation, and maintenance of a comprehensive Dynamic Face &amp; Fingerprint Recognition Terminal and vehicle registration number access control system.</li> </ul> <p>Scope of work</p> <p>System Design and Supply: Provide a detailed system design and all necessary hardware and software components. This includes:</p> <ul style="list-style-type: none"> <li>Dynamic Face and Fingerprint Recognition Terminals at pedestrian entry and exit points (e.g., turnstiles).</li> <li>ANPR (Automatic Number Plate Recognition) cameras at vehicle entrances and exits.</li> </ul> <p>Maintenance and Support: Provide a warranty and a service level agreement (SLA) for a period of one (1) year maintenance and technical support.</p> <ul style="list-style-type: none"> <li>Additional of below items in the specifications under scope of work. <ul style="list-style-type: none"> <li>Assessment: Conduct a comprehensive evaluation of the current infrastructure (e.g., gate motors, boom gates, turnstiles, etc.) to ensure all components are operational and in good working condition. Identify, repair, or replace faulty or worn-out parts where necessary.</li> <li>Boom gate: Supply, install, and commission 3-5 meter 2 arms fence boom barrier gates.</li> </ul> </li> <li>Additional of below items in the specifications under Technical</li> </ul>

	<div><div><div>an alternative or secondary verification method.</div><div>○ ANPR (Automatic Number Plate Recognition) cameras at vehicle entrances</div><div>● Maintenance and Support: Provide a warranty and a service level agreement (SLA) for ongoing maintenance and technical support.</div><div>●</div></div></div>	<div><div>○ Uninterrupted Power Supply must be supplied to ensure the system remains operational during power outages for a minimum of two (2) hours. The UPS must support the server, network equipment, and critical terminals.</div><div>○ Wireless Access Points must be supplied to establish reliable and secure connectivity between terminals at remote gates and the central server. Solutions must be suitable for the site layout and environmental conditions (ideal for outdoor-rated).</div><div>○ The service provider must test and verify the functionality of all existing turnstiles, ensuring full compatibility with the installed biometric terminals (facial and fingerprint). Any necessary configuration, servicing, or minor repairs must be included.</div><div>○ The service provider must supply, install, test, and service the existing infrastructure, ensuring they are fully operational and responsive to the newly installed access control system. Any integration programming or adjustments must be included in the scope.</div><div>○ The service provider must supply, Install and commission a D20 SMART sliding gate motor kit with anti-theft bracket for gates weighing up to 2000kg with backup batteries for uninterrupted security.</div></div>
