- 1 This Municipal Bidding Document (MBD) must form part of all bids<sup>1</sup> invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).<sup>2</sup> Collusive bidding is a per se prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
  - a. take all reasonable steps to prevent such abuse;

<sup>2</sup> Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

- Tenderers will only be allocated one area irrespective of being the highest preference-ranking Tenderer in other areas, **unless** JW cannot allocate an area to another Tenderer in which case, JW can then allocate more than one areas to a Tenderer that has demonstrated that they have fully met JW capacity requirements for that area and is the highest scoring Tenderer in that area.
- In the Pricing Schedule, the Tenderer is to rank their preferred area 1 – 5 if tendering for more than one area and if the Tenderer is the highest preference ranking tenderer in more than one area, the Tenderer's preferred area will be used to determine which area to allocate to the Tenderer.
- Johannesburg Water therefore reserves the right to award an area to a Tenderer that is not the highest preference-ranking Tenderer if the highest preference – ranking Tenderer has been awarded another area in order to satisfy objective criteria.
- In situations where there is no acceptable tenderer that can meet Johannesburg Water's full estimated requirements in an area, the area may be partially allocated to tenderers that have not been allocated an entire area. The partial allocation will be made to the highest-ranking Tenderer in terms of Specific Goals and price, that has tendered for that area, the difference or shortfall will be partially allocated to the next highest-ranking Tenderer until Johannesburg Water's capacity requirements are met. If Johannesburg Water is unable to partially allocate that area, the partial allocation will be made to a Tenderer that has already be allocated an area or areas if the Tenderer is the subsequent highest-ranking Tenderer in that area. This will also be applicable during the duration of contract in cases where the contractor is unable to meet requirements or perform, in which case, desludging plant under additional desludging plant may be allocated to perform the service.
- Any Tenderer can tender for the additional capacity and allocation will be in terms of the highest-ranking tenderer in terms of price and specific goals. Indication to be made under price schedule. If the Tenderer is unable to mobilize within 7 days of notice, JW reserves the right to make the allocation to the subsequent highest scoring tender until JW's additional capacity requirements are met.
- In a case where the highest scoring Tenderer is leasing their desludging plant and the desludging plant have already been allocated to a Tenderer that scored higher in terms of price and Specific Goals and was therefore allocated or partially allocated an area. JW will test for capacity of the Tenderer by determining if did the Tenderer submit alternative documentation for the capacities offered. If the Tenderer did submit alternate documentation, the capacities that still need to be allocated will then be allocated to the Tenderer. If capacity can't be proved, the allocation will be allocated to the subsequent Tenderer as explained above or until JW's requirements can be met and capacity is demonstrated by the Tenderer. Although the

additional desludging plant is estimated at 5 in the Northern region and 5 in the Southern region, Tenderer's may offer more than that number and provide the relevant mandatory documentation to be considered for more than the required estimated quantity of desludging plant.

- To ensure value for money / cost effectiveness, Johannesburg Water will negotiate prices/rates with Tenderers that are recommended and with the recommended Tenderers that were not the highest-ranking tenderer for market related rates, and JW reserves the right to standardize the rates or agree on rates that are within JW acceptable variance using JW Benchmark rates and processes that will ensure that contracted rates and therefore estimated costs are within available funds. The contracted rates may not be higher than the rates tendered by the tenderer.
- With the outcome of the negotiations, if the Tenderer and JW are unable to come to a negotiated agreement, JW reserves the right to not consider their offer and then move on to the next ranked tenderer to negotiate with them. The cycle will continue until JW's requirements are met for each area. If the negotiations do not result in an agreement, meaning rates offered make the recommended award to be above available funds, JW reserves the right to award the area or outstanding capacities to a Tenderer that has already been allocated an area if that Tenderer is cost effective or cancel and restart the process due to insufficient funding.
