

Annex G Supplier Equipment Tendered Declaration

Eskom reserves the right to use results of previous technical evaluations for bidders' product(s) that had passed technical evaluation in previous enquiries or are currently being supplied. For Eskom to make this assessment, all suppliers are required to complete the declaration form below and attach all the necessary supporting documents. If the supplier proposed equipment has not passed technical evaluation in previous enquiries or not currently supplied, this must be indicated as not applicable.

This declaration forms part of the technical tender returnable.

Number	Question	Supplier commitment (Yes/No)	Supplier general comments
1	Is all the offered equipment already implemented in Eskom?		
2	Are there parts of the offered equipment/solution already implemented in Eskom?		
2.1	If so, provide a list of equipment already implemented in Eskom (hardware model and software versions).		
3	Are the implemented use cases the same as the use cases for this enquiry?		
3.1	If so, provide a list of applicable use cases		
3.2	Was the solution implemented by you (tendering supplier), the OEM (if different from tendering supplier) or one of the OEM partners?		
3.3	Approximately how many units are installed in Eskom?		
4	Was the offered equipment tested as part of the Eskom Technical evaluation process? If yes, provide the CORP number and the year of testing.		
4.1	Were there any changes after testing the equipment?		
4.2	List the hardware changes after testing and the impact		
4.3	List the software changes after testing and the impact		
5	Are there any specific test cases that you think you will not be compliant with, please list those test cases?		
6	Do you foresee any operational/functional risk(s) with signing a contract with Eskom before testing?		
7	Do you confirm that you will be able to supply and support the tendered equipment for the duration of the contract?
