7. **Fronting**

PetroSA supports the spirit of broad based black economic empowerment and recognises that real empowerment can only be achieved through individuals and businesses conducting themselves in accordance with the Constitution and in an honest, fair, equitable, transparent and legally compliant manner. Against this background, PetroSA condemns any form of fronting.

PetroSA, in ensuring that Suppliers conduct themselves in an honest manner will, as part of the quotation evaluation process, conduct or initiate the necessary enquiries/investigations to determine the accuracy of the representation made in the quotation. Should any of the fronting indicators as contained in the

Guidelines on Complex Structures & Transactions and Fronting, issued by the Department of Trade and Industry, be established during such enquiry/investigation, the onus will be on the Supplier to prove that fronting does not exist. Failure to do so within 14 days from date of notification may lead to the disqualification of the quotation and may also result in the restriction of the Supplier to conduct business with PetroSA, in addition to any other remedies PetroSA may have against the Supplier.

No agreement between PetroSA and the Supplier shall come into existence until such time as a written contract signed by PetroSA and the Supplier is concluded, or an official purchase order is issued to the Supplier, and becomes unconditional in accordance with its terms. The Supplier should not and cannot rely on any communication to the Supplier of a successful quotation by PetroSA staff and representatives as no legally binding agreement will come into existence until a formal written and legally binding and enforceable agreement is validly concluded and executed. Please further take note that even if a Supplier scores the highest points in an RFQ/auction the award is subject to

a due diligence before a purchase order or contract can be concluded with PetroSA.

PetroSA reserves the right not to award any quotation, including a quotation that is technically compliant, if the quotation is found to be commercially unattractive.
