<b>SECTION C - SPECIFIC PRELIMINARIES</b>					
Users shall avoid inserting in Section C items which may be construed as amending, modifying, correcting or supplementing the provisions of the JBCC Principal Building Agreement. Such amendments, modifications, corrections or supplements should be kept to the absolute minimum and should be inserted in Section A under the recited clause headings of the JBCC Principal Building Agreement in this Bill No. 1					
Selected examples of typical clauses are provided to indicate ways of describing such clauses. Users must delete, adapt or add to these examples to suit their particular circumstances					
100	Site instructions: Instructions issued on site are to be recorded in triplicate in a site instruction book which is to be maintained on site by the contractor. F:..... V:..... T:.....	Item	1		
101	Warranties for material and workmanship Where warranties for materials and/or workmanship are called for, the contractor shall obtain a written warranty, addressed to the employer, from the firm supplying the materials and/or doing the work and shall deliver same to the principal agent on the certified completion of the contract. The warranty shall state that workmanship, materials and installation are warranted for a specified period from the date of final completion and that any defects that may arise during the specified period shall be made good at the expense of the firm supplying the materials and/or doing the work, upon written notice to do so. The warranty will not be enforced if the work is damaged by defects in the construction of the building in which case the responsibility for replacement shall rest entirely with the contractor. F:.....V:.....T:.....	Item	1		
102	Co-operation of contractor for cost management It is specifically agreed that the contractor accepts the obligation of assisting the principal agent in implementing proper cost management. The contractor will be advised by the principal agent of all cost management procedures which will be implemented to ensure that the final building cost does not exceed the budget. The principal agent undertakes to make available to the contractor all budgetary allowances and cost assessments/reports to enable the proper procedure to be implemented and the contractor shall attend all cost plan review and cost management meetings. The contractor undertakes to extend these procedures, as necessary, to all subcontractors. F:.....V:.....T:.....	Item	1		
103	Proprietary Branded Products The contractor shall take delivery of, handle, store, use apply and/or fix all proprietary branded products in strict accordance with the manufacturer's instruction after consultation with the manufacturers authorized representative. F:..... V:..... T:.....	Item	1		
<b>TOTAL CARRIED FORWARD</b>					

BROUGHT FORWARD					
104	Overtime Should overtime be required to be worked for any reason whatsoever, the costs of such overtime are to be borne by the contractor unless the principal agent has specifically authorized in writing, prior to the execution thereof, that costs for such overtime are to be borne by the employer. F:..... V:..... T:.....	Item	1		
105	As Built Drawings The position of construction breaks and the extent of individual concrete pours are to be recorded by the contractor on the structural engineers drawings and are to be submitted to the principal agent and the structural engineer for their records. F:..... V:..... T:.....	Item	1		
106	Labour Record At the end of each week the contractor shall provide the principal agent with a written record, in schedule form, reflecting the number and description of tradesman and labourers employed by him and all subcontractors on the works each day. F:..... V:..... T:.....	Item	1		
107	Plant Record At the end of each week the contractor shall provide the principal agent with the written record, in schedule form, reflecting the number, type and capacity of all plant, excluding hand tools, currently used on the works. F:..... V:..... T:.....	Item	1		
108	Special Works / Direct Contracts The Employer shall have the right to employ other contractors (hereafter referred to as "direct contractors") to execute any special or other work whether contained in this contract or not, concurrently with the work being executed under this contract. The contractor shall not be entitled to any percentage, profit or discount on value of any work executed by direct contractors but shall nevertheless allow these direct contractors and the Employers employees to have access to the works, allocate reasonable space for storage of their materials, tools and equipment, and co-ordinate the work of such direct contractors as necessary, all to the satisfaction of the principal agent. The contractor shall allow the direct contractors to use free of charge the ablutions, scaffolding, hoisting water and power supply, etc. on site and not hinder or prevent the execution of their work. F:..... V:..... T:.....	Item	1		
109	Guarantees and Maintenance Manuals The contractor shall obtain and hand over to the principal agent on practical completion, all relevant guarantees, any operating and maintenance instruction manuals, data or instructions required by the principal agent or provided by manufacturers, suppliers or sub-contractors. The contractor shall ensure that all warranties and guarantees received are fully ceded to the Employer on final completion, failing which the release of the Construction Guarantee or Retention amount will be withheld until this is satisfactorily compiled with. Where warranties for materials and/or workmanship are called for, the contractor shall obtain a written warranty, addressed to the employer, from the firm supplying the materials and/or doing the work and shall deliver same to the principal agent on the certified completion of the contract. The warranty shall state that the workmanship, materials and installation are warranted for a specified period shall from date of final completion and that any defects that may arise during the specified period shall be made good at the expense of the firm supplying the materials and/or doing the work, upon written notice to do so. The warranty will not be enforced if the work is damaged by defects in construction of the building in which case the responsibility of replacement shall rest entirely with the contractor. F:..... V:..... T:.....	Item	1		
110	Media Releases All rights of publication of articles in the media, together with any advertising relating to, or in any way connected with this project shall vest in the principal agent. The contractor, together with his subcontractor (whether nominated, selected or domestic) shall not, without the written consent of the principal agent, cause any statement or advertisement to be printed, screened or aired by the media. F:..... V:..... T:.....	Item	1		
<b>TOTAL CARRIED FORWARD</b>

115	Removal and Making Good of Temporary Works, etc. on Completion The contractor shall remove all temporary works, roads, services and the like used for this contract and shall make good to the entire satisfaction of the principal agent any damage resulting there from. F:..... V:..... T:.....	Item	1		
116	Location of Temporary Building and Temporary Services The Contractor shall provide all necessary temporary works, including temporary roads, tracks, crossings, Hard standing and services, etc. required for his own and subcontractor use during the construction and maintenance period. There is no guarantee given that or implied site conditions will be such that the contractor will be able to erect such temporary works, offices, stores and temporary accommodation within the site boundaries and it shall be the contractors responsibility to adopt whatever measures he deems necessary in this regard and obtain all necessary permission and pay all costs in connection therewith. F:..... V:..... T:.....	Item	1		
117	Model Preliminaries for Trades and Standard Systems of Measurements Tenderers are referred to the General Preambles for Trades (2017 edition) at published by the Association of South African Quantity Surveyors for the full descriptions and specifications of items included in these bills of quantities. Descriptions in the bills of quantities generally appear brief form and the Model Preambles and supplementary preambles shall be deemed to apply fully to and augment the descriptions of the relevant items. Tenderers must study the Model Preamble before pricing these bills of quantities and all prices shall be deemed to include for the provisions of the Model Preambles for Trades. F:..... V:..... T:.....	Item	1		
118	Standard Workmanship and Materials In the absence of detailed specifications for any item or items, the National Building Regulations, the latest applicable South African National Standards Specification, or where such does not exist, then the latest applicable British Standard Specification shall apply. F:..... V:..... T:.....	Item	1		
119	Commodities To Be New All commodities, goods, articles or materials to be used in the Works are to be new except where re-use of existing is specified and are to be handed, stored used and/or fixed with care to ensure that they are in perfect condition when incorporated in the works and thereafter properly protected so as to ensure that they are likewise in perfect condition when handed over at completion of the works. F:..... V:..... T:.....	Item	1		
120	Mode of Procedures Notwithstanding anything to the contrary herein, the principal agent shall at all times reserves the right to direct the order in which the various parts of the contract are to be executed. The contractor shall give priority to any individual section or portion of the works that, in the opinion of the principal agent, requires to be expedited. Should it appear, in the principal agent's opinion, that work in any area is not being executed in accordance with the requirements of the contract programme, the contractor shall provide additional manpower and resources and shall work additional overtime and do everything else required to bring the work back to programme to the satisfaction of the principal agent and to the contractors cost. F:..... V:..... T:.....	Item	1		
121	Unauthorized Persons/Workmen on Premises The contractor shall at all times strictly exclude all unauthorized persons from the Works and the site and shall set up notice boards to that effect. No workmen or labourers (except security guards) are allowed under any circumstances to sleep or deposit any kit on the premises. The contractor must provide any necessary independent shelter or shed required for any labour or watchmen on site to the approval of the principal agent. F:..... V:..... T:.....	Item	1		
<b>TOTAL CARRIED FORWARD</b>					

<b>BROUGHT FORWARD</b>					
122	Method Statement The tenderer shall produce, where required to do so by the principal agent, a Method Statement outlining the methods of construction and labour and plant resources that he proposes to use in the execution of the works. Any approval given or observation made by the principal agent shall not relieve the contractor of his sole responsibility to adopt the methods of construction and to provide the labour and plant resources necessary for the due proper and timeous execution of the works. F:..... V:..... T:.....	Item	1		
123	Encroachment During the course of the Building operations, the contractor shall be held entirely responsible for any encroachment onto any adjoining properties, buildings, etc. or servitudes and the cost of any remedial measures as required by the principal agent shall be borne by the contractor. F:..... V:..... T:.....	Item	1		
124	Occupational Health & Safety: The contractor is referred to and shall comply with Department of Public Works, Roads & Transport Health and Safety Specification which is incorporated in these Bills Of Quantities and contains all the requirements of the employer in this regard. It is	Item	1

CARRIED FORWARD TO SUMMARY					

<p><b>SECTION 2</b></p> <p><b>BILL NO. 1</b></p> <p><b>ALTERATIONS (PROVISIONAL)</b></p> <p><b>PREAMBLES</b></p> <p>The General Preambles for Trades (2017 edition) as published by the Association of South African Quantity Surveyors shall be deemed to be included in these bills of quantities and no claims arising from brevity of description of items fully described in the said General Preambles will be entertained The following "Supplementary Preambles" are incorporated in this bill to satisfy the requirements of the project and shall take precedence over the provisions of the said General Preambles</p> <p><b>SUPPLEMENTARY PREAMBLES</b></p> <p><u>View site</u></p> <p>Before submitting his tender the contractor shall visit the site and satisfy himself as to the nature and extent of the work to be done and the value of the materials contained in the buildings or portions of the buildings to be demolished. No claim for any variations of the contract sum in respect of the nature and extent of the work or of inferior or damaged materials will be entertained</p> <p><u>General</u></p> <p>The contractor shall carry out the whole of the works with as little mess and noise as possible and with a minimum of disturbance to adjoining premises and their tenants. He shall provide proper protection and provide, erect and remove when directed, any temporary tarpaulins that may be necessary during the progress of the works, all to the satisfaction of the principal agent</p> <p>Water supply pipes and other piping that may be encountered and found necessary to disconnect or cut, shall be effectually stopped off or grubbed up and removed, and any new connections that may be necessary shall be made with proper fittings, to the satisfaction of the principal agent</p> <p>Old materials from the alterations, except where described as to be re-used or handed over, as well as all rubbish, etc. must be regularly carted from the site and not be allowed to accumulate on or around the site</p> <p>None of the old materials are to be used for new work, except where specifically described as being set aside for re-use</p> <p>Prices for taking out of doors, windows, etc. shall include for removal of all beads, architraves, ironmongery, etc.</p> <p>Prices for taking out and removing doors and frames shall include for removing door stops, cabin hooks, etc. and making good floor and wall finishes to match existing</p> <p>Making good of finishes shall include making good of the brick and concrete surfaces onto which the new finishes are applied, where necessary</p>				
<p><b>TOTAL CARRIED FORWARD</b></p>				

BROUGHT FORWARD					
<p>All materials, debris, and waste resulting from demolition, removal, or alteration works shall be the responsibility of the contractor and must be promptly removed from the site. Disposal shall be carried out at a licensed waste disposal facility or approved municipal dumpsite, in compliance with all relevant environmental and municipal regulations. Proof of legal disposal, such as weighbridge tickets or receipts from the disposal facility, must be submitted to the principal agent or client upon request. The contractor shall allow for all associated costs (transportation, tipping fees, handling, etc.) in their tendered rates. No material shall be stockpiled or dumped on-site unless expressly approved in writing by the principal agent.</p> <p>The contractor will be required to take all dimensions affecting the existing buildings on the site and he will be held solely responsible for the accuracy of all such dimensions where used in the manufacture of new items (doors, windows, fittings, etc.) Note that the text of the Standard System of Measuring Building Work (seventh edition) has been utilized in the measurement of all items in these bills of quantities</p> <p><b>DEMOLISH AND REMOVE</b></p> <p><u>Demolish &amp; remove existing</u></p>					
1	Existing Storage tank stand approximate size 2 x 2m x 2500mm high comprising 100mm concrete surface bed over brickwork in foundations, including carting off site	No	2		
2	Septic tank (approximately 75m <sup>2</sup> in area), which may be constructed from plastic, concrete, or brick, including carting off site	m3	150		
<p><b>REMOVAL OF EXISTING WORK</b></p> <p><u>Contractor to take out and remove piping, sanitary fittings, etc., including disconnecting piping from fittings and make good floor and wall finishes</u></p>					
3	Wash hand basin, including short lengths of piping, etc.	No	13		
4	WC Pan with cistern, including short lengths of piping, etc.	No	19		
5	Urinal, including short lengths of piping, etc.	No	13		
<p><u>Taking out and removing Ironmongery</u></p>					
6	Toilet roll holder from wall	No	19		
<p><u>Taking out and removing doors, windows, etc. (making good finishes elsewhere)</u></p>					
7	Timber single door and metal frame not exceeding 2.5m2	No	22		
<b>TOTAL CARRIED FORWARD</b>					

BROUGHT FORWARD					
	<p><b>Desludging</b></p> <p>Debris and rubble covering the access to the pit latrine must be cleared and disposed of at a registered landfill site. The pit latrine is to be accessed by the removable cover or removal of the access concrete slab. The solids that cannot be pumped out must be dug out by mechanical means. When the contents of the pit or tank are to be pumped out and the sludge is too firm or dry it must be jetted with a high pressure hose and agitate the mixture of sludge and water with the end of the suction hose before pumping begins. After pumping out the contents of the pit, the tanker must be driven to a legally authorized safe-disposal site, such as an off-site sewage treatment works, where the contents can be emptied. Dry pits or pits containing large quantities of solid materials including stones, sticks, plastic bags, debris, etc. must be cleaned by individuals with hand held mechanical machinery with the appropriate protective gear in terms of the OHS Act as well as certified to work in confined spaces. Contractors are to ensure that the vacuum tankers are suitable to maneuver close to latrines without compromising the integrity of the pit latrine</p>				
8	Desludging of existing septic tank, approximately 6Kl in volume	No	4		
	<p><b>Structural Cracks</b></p> <p>Allow for the stitching of structural cracks in walls using approved methods and materials, including cutting, cleaning, installation of steel reinforcement (e.g., crack stitching bars), anchoring with epoxy or equivalent, and making good all finishes</p>				
9	Stitching on structural cracks to walls	m	50		
	<p><b>NEW TEMPORARY TOILETS</b></p>				
10	Provide, deliver, install, and maintain twenty-four (24) freestanding chemical toilets for learner use, hired for a continuous period of three (3) calendar months. The scope includes weekly emptying, cleaning, disinfection, replenishment of consumables (toilet paper and sanitizer), routine maintenance to ensure hygiene and functionality, and final removal with site clean-up. All services must comply with relevant health and safety regulations and be to the satisfaction of the principal agent. Should the contract period be exceeded without a duly approved Extension of Time (EOT), all associated costs for the continued provision and servicing of the toilets will be borne by the contractor.	Month	3		
CARRIED FORWARD TO SECTION					

<b>BILL NO. 2</b>				
<b>CARPENTRY AND JOINERY</b>				
<b>PREAMBLES</b>				
<p>The General Preambles for Trades (2017 edition) as published by the Association of South African Quantity Surveyors shall be deemed to be included in these bills of quantities and no claims arising from brevity of description of items fully described in the said General Preambles will be entertained The following "Supplementary Preambles" are incorporated in this bill to satisfy the requirements of the project and shall take precedence over the provisions of the said General Preambles</p>				
<b>SUPPLEMENTARY PREAMBLES</b>				
<p>Contractor to confirm door size on site prior to purchasing as any adjustment required to be made to the doors should be made by the manufacturer and not carried out on site</p> <p>Note that the text of the Standard System of Measuring Building Work (seventh edition) has been utilized in the measurement of all items in these bills of quantities</p>				
<b>DOORS ETC</b>				
<u>44mm thick solid timber door suitable for vanish finish and hung to steel or aluminum frames, measured separately.</u>

<b>ELEVATED WATER TANK</b>			
<b>BILL NO. 1</b>			
<b>EARTHWORKS (PROVISIONAL)</b>			
<b>PREAMBLES</b>			
<p>The General Preambles for Trades (2017 edition) as published by the Association of South African Quantity Surveyors shall be deemed to be included in these bills of quantities and no claims arising from brevity of description of items fully described in the said General Preambles will be entertained The following "Supplementary Preambles" are incorporated in this bill to satisfy the requirements of the project and shall take precedence over the provisions of the said General Preambles</p> <p>Note that the text of the Standard System of Measuring Building Work (seventh edition) has been utilized in the measurement of all items in these bills of quantities.</p>			
<b>SUPPLEMENTARY PREAMBLES</b>			
<u>Carting away of excavated material</u>			
<p>Descriptions of carting away of excavated material shall be deemed to include loading excavated material onto trucks directly from the excavations or, alternatively, from stock piles situated on the building site</p>			
<u>Imported fill:</u>			
<p>Filling and bedding to trenches etc. to be in compliance with SABS 1200 DB and LB respectively</p>			
<u>Density testing on filling:</u>			
<p>Rates for filling, etc. shall include for all density and soil type testing to prove that the specified compaction is achieved. When additional testing is done on instruction of the Principal Agent and these tests are successful, they will be paid for additionally.</p>			
<u>Nature of material to be excavated:</u>			
<p>The material to be excavated is assumed to be predominantly of a composition that will allow excavation in "earth" as specified, but including a percentage of excavation in "soft rock" and "hard rock".</p>			
<u>Excavation in earth exceeding not exceeding 2m deep</u>			
1	Tank stand foundation	m3	27
2	Extra over excavations in earth for tank stand foundation, etc. for excavating in soft rock	m3	6
3	Extra over excavations in earth for tank stand foundation, etc. for excavating in hard rock	m3	3
<u>Risk of collapse of excavations</u>			
4	Sides of excavations for tank stand foundation not exceeding 1,5m deep	m2	70
<u>Keeping excavations free of water</u>			
5	Keeping excavations free of water	Item	1
<b>TOTAL CARRIED FORWARD</b>			

BROUGHT FORWARD					
	<u>Earth filling obtained from the excavations and/or stock piles on site compacted to 93% Modified AASHTO density</u>				
6	Backfilling to tank stand foundation, etc.	m3	16		
	<u>Cart Away</u>				
7	Surplus material from excavations and/or from stockpiles on site to a dumping site to be located by the Contractor	m3	11		
	<u>Compaction of surfaces</u>				
8	Compaction of ground surface under surface beds etc., including scarifying for a depth of 300mm, breaking down oversize material, adding suitable material where necessary and compacting to 93% Mod AASHTO density	m2	18		
9	<u>Soil insecticide</u>				
	To bottoms and sides of trenches, etc.	m2	88		
	<b>Tests</b>				
	<u>Prescribed tests to determine degree of compaction or other properties of ground or filling</u>				
10	Modified AASHTO Density test	No	2		
CARRIED FORWARD TO SUMMARY					

<p><b>BILL NO. 2</b></p> <p><b>CONCRETE, FORMWORK AND REINFORCEMENT</b></p> <p><b>PREAMBLES</b></p> <p>The General Preambles for Trades (2017 edition) as published by the Association of South African Quantity Surveyors shall be deemed to be included in these bills of quantities and no claims arising from brevity of description of items fully described in the said General Preambles will be entertained The following "Supplementary Preambles" are incorporated in this bill to satisfy the requirements of the project and shall take precedence over the provisions of the said General Preambles</p> <p>Note that the text of the Standard System of Measuring Building Work (seventh edition) has been utilized in the measurement of all items in these bills of quantities</p> <p><b>SUPPLEMENTARY PREAMBLES</b></p> <p><u>Cost of tests</u></p> <p>The costs of making, storing and testing of concrete test cubes as required under clause 7 "Tests" of SABS 1200 G shall include the cost of providing cube moulds necessary for the purpose, for testing costs and for submitting reports on the tests for approval. The testing shall be undertaken by an approved independent firm or institution nominated by the contractor (test cubes are measured separately)</p> <p><u>Breeze concrete</u></p> <p>Breeze concrete shall consist of twelve parts clean dry furnace ash, free from coal or other foreign matter, to one part cement (1:12); the ash graded up to particles which will pass a 16,5mm ring from a minimum which fails to pass a 4,75mm mesh. The finer materials from the screening are to be first mixed with the cement into a mortar and the ash added afterwards and thoroughly incorporated</p> <p><u>Formwork</u></p> <p>Descriptions of formwork shall be deemed to include use and waste only (except where described as "left in" or "permanent"), for fitting together in the required forms, wedging, plumbing and fixing to true angles and surfaces as necessary to ensure easy release during stripping and for reconditioning as necessary before re-use</p> <p>The vertical strutting shall be carried down to such construction as is sufficiently strong to afford the required support without damage and shall remain in position until the newly constructed work is able to support itself</p> <p>Formwork to soffits of solid slabs etc. shall be deemed to be to slabs not exceeding 250mm thick unless otherwise described</p> <p>Formwork to soffits of slabs, beams, etc. shall be deemed to be propped up exceeding 1,5m and not exceeding 3,5m high unless otherwise described</p> <p>Formwork to sides of bases, pile caps, ground beams, etc. will only be measured where it is prescribed by the engineer for design reasons. Formwork necessitated by irregularity or collapse of excavated faces will not be measured and the cost thereof shall be deemed to be included in the allowance for taking the risk of collapse of the sides of the excavations, provision for which is made in "Earthworks"</p>

<b>SECTION 5</b>				
<b>ELECTRICAL INSTALLATION</b>				
<b>BILL NO.1</b>				
The following selected sub-contract amounts are for work to be carried out by selected sub-contractors in terms of the Principal Building Agreement:				
<b>ELECTRICAL INSTALLATION (Based on Conceptual Site Investigation)</b>				
<b>GENERAL ITEMS: ELECTRICAL SUBCONTRACTOR</b>				
1	Preliminary and General	Month	3	
2	Operational and Maintenance manuals	L/Sum	1	
3	Testing and commissioning of each complete electrical installation	No	1	
4	Issuing of Certificate of Completion for each complete electrical installation	No	4	
5	Connection of system into main street electrical distribution board, from supply authority, on the customer side after metering unit and main incomer protection, inclusive of supply and installation of acceptable protection breakers to supply power to the borehole, booster pump and filtration system where applicable.	Sum	1	
<b>RETICULATION SYSTEM</b>				
<b>Electrical Kiosks</b>				
6	Borehole kiosk a.) Secure electrical distribution point, containing electrical control gear and protection gear to allow the borehole pump to be safely operated, safely isolated for maintenance, adequately controlled and protected, labelled. b.) Required in terms of SANS 10142-1 Wiring Code and OHS Regulations	No	1	
7	Booster pump kiosk a.) Secure electrical distribution point, containing electrical control gear and protection gear to allow the booster pump to be safely operated, safely isolated for maintenance, adequately controlled and protected, including VSD control. b.) Required in terms of SANS 10142-1 Wiring Code and OHS Regulations	No	1	
8	Borehole Pump (Similar is specification to Grundfos SQ-70 1.85kW, 240V, with soft start, run dry protection)	No	1	
9	Variable Speed Booster Pump (Similar to DAB E.sybox VSD pump 1.1kW, 240V)	No	1	
10	4 mm <sup>2</sup> Copper 3-core PVC FR LV cable	m	170	
11	1,5 mm <sup>2</sup> Copper 4-core Neoprene Submersible Cable	m	160	
12	4 mm <sup>2</sup> 4-core Complete termination with gland	No	4	
13	Cable warning tape	m	170	
<b>TRENCHING AND EARTH WORKS</b>				
<b>Trenching (450mm width by 1150mm depth MV Cables)</b>				
<b>Trenching (450mm width by 950mm depth LV Cables)</b>				
14	Hand pickable soil (soft soil)	m <sup>3</sup>	102	
<b>TOTAL CARRIED FORWARD</b>				

<b>BROUGHT FORWARD</b>				
15	Machine excavation (soft rock)	m <sup>3</sup>	.	Rate Only
16	Hard rock (Hydraulic Breakers, Blasting)	m <sup>3</sup>		Rate Only
17	Back-filling and compaction	m <sup>3</sup>	104	
18	Sifting of local soil for bedding of the cables	m <sup>3</sup>	90	
<b>SERVICE WAYS</b>				
19	110mm Diameter PVC Sleeves	m		Rate Only
20	50mm Diameter PVC Sleeve	m	20	
21	25mm Diameter PVC Conduit (4m lengths)	No	0	Rate Only
22	IP68 Termination Box (Similar to Pratley Box)	No	2	
<b>WATER PURIFICATION INSTALLATION</b>				
23	Allow the sum of R 280,000.00 for the supply and installation of an SABS-approved reverse osmosis system, including all necessary equipment, fittings, pipework, electrical connections, calibration, testing, and commissioning to ensure full compliance with relevant standards and proper operational performance.	Item	1	R 280 000,00 R 280 000,00
24	Profit and Attendance.	Item	1	
<b>CARRIED FORWARD TO SUMMARY</b>
