## 1. Introduction

Kendal Village contractor accommodation facility host contractor employees for Kusile Power Station Project. With that in mind, there is a need for laundry services to ensure the wellness of these employees.

An open tender invite will be released in the media calling for the Provision of Laundry Services for Kendal Village at Kusile Construction Site. This document sets out the method and criteria that will be used to evaluate the tenders that will result from this invite.

## 2. Supporting Clauses

### 2.1 Scope

This strategy is for Provision of Laundry services at Kendal Contractor Village and it outlines the method to be used during technical evaluation and requirements from the bidders.

The following scoring method will be used to score against the evaluation criteria.

#### 2.1.1 Purpose

Eskom undertook that the tender will not be evaluated on price alone and that Eskom will broadly follow the evaluation process and apply the guideline evaluation criteria mentioned in the Table below for the evaluation of the tender.

The following functional analysis process will be followed.

- Evaluate submissions against functional criteria,
- Rate each submission against each criteria,
- Apply weightings and calculate total functional score,
- Eliminate tenders below minimum threshold,

The following minimum thresholds will apply when evaluating the tenderer's capability to execute the work required.

Functionality Criteria	Maximum number of points percentage	Tenderers will be expected to score at least the minimum overall threshold to proceed to the next step
Technical	100%	70%

#### Controlled Disclosure

When downloaded from the EDMS, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

**Functionality:**

A weighted score-card approach is used to evaluate the technical compliance of the tenders against the specifications. Tenders need to have a weighted score of 70% or more for functionality to qualify for further evaluation. Technical has a weighting of 100%.

All of the scores will be entered on a single Excel workbook. Each evaluator will be assigned a review responsibility based on his or her area of expertise i.e. Technical, Safety, Health and Environment, and Quality. Separate reports will be compiled and signed off.

**2.1.2 Applicability**

This strategy document applies to the GCD Facilities team mandated to provide laundry services for semi-skilled contractor employees working on the building of Kusile Power Station.

**2.1.3 Effective date**

### 3. Background

#### 3.1 TECHNICAL EVALUATION STRATEGY

The evaluation of the tenders will be based on the tenderer's ability to meet prerequisite tender qualifications and the technical requirements. A weighted score card approach will be used to evaluate the tenders against the specification and Employer's requirements. The following scoring method will be used.

The Following returnable are required in order to allow the employer to evaluate the Tender Technically

##### **Company Experience**

A list of the companies which the tenderer has been involved in during the past 5 years, e.g. Name of company, Nature of work done, Duration of the tender and contact details

##### **Management experience**

Number of companies which management has been involved in during the past 5 years, e.g.

Name of company, Position held, duration

##### **Method statement.**

A detailed method statement detailing on how the tenderer will be washing, ironing, marking the overalls for correct return of the same overall to the owner and the treatment of any soil linen, sorting methodology etc

Definition	Score Criteria	Percentage
100% Tender returnable with relevant information received	5	100%
80% Tender returnable with relevant information received	4	80%
60% Tender returnable with relevant information received	3	60%
40% Tender returnable with relevant information received	2	40%
20% Tender returnable with relevant information received	1	20%
0% Tender returnable with relevant information received	0	0%
