SECTION 2

BACKGROUND OVERVIEW AND SCOPE REQUIREMENTS

1 INTRODUCTION AND BACKGROUND

Passenger Rail Agency of South Africa (“PRASA”) has identified the need to appoint a service provider for Appointment of a 7GB or Higher Contractor for the refurbishment and renovations of Lentegeur for a period of 12 Months from date of site handover in the Western Cape Region

This submission is to request approval to invite construction companies with a CIDB level 7GB or higher and proven experience in the construction of similar work to pre-qualify for the above project.

The identified project is Lentegeur Station in the in the Western Cape Region under the National Station Improvement Programme (NSIP).

PRASA intends activating passenger railway services within the subject corridor. This is part of the national Priority Corridor Recovery initiative of PRASA RAIL. Part of this initiative is to ensure that immovable railway infrastructure including stations is in good working condition during the service reactivation process.

2. OVERVIEW

PRASA seeks to benefit from this partnership in the following ways: **(Project / Events Specific)**

2.1.1 PRASA must receive reduced cost of acquisition and improved service benefits resulting from the Service Provider’s economies of scale and streamlined service processes.

2.1.2 PRASA must achieve appropriate availability that meets user needs while reducing costs for both PRASA and the chosen Service Provider(s).

2.1.3 PRASA must receive proactive improvements from the Service Provider with respect to provision of Services and related processes.

2.1.4 PRASA’s overall competitive advantage must be strengthened by the chosen Service Provider’s leading edge technology and service delivery systems.

BID NUMBER: WCR/CRES/02/03/2023

2.1.5 PRASA end users must be able to rely on the chosen Service Provider’s personnel for service enquiries, recommendations and substitutions.

2.1.6 PRASA must reduce costs by streamlining its acquisition of Services, including managed service processes on a Group basis.

2.2 Status Quo

The station is in a dilapidated state. It is therefore important that the ticket office and related facilities are improved to ensure that the station is aesthetically pleasing and the spaces are commuter friendly. This situation results in loss of income and increased expenditure as the properties needs more than reasonable cost to maintain and protect the properties against vandalism and illegal occupation.

2.3 Problem Statement

PRASA has identified the 15 priority Rail corridors where stations and facilities have been vandalised and needs quick and timeous rectification of these stations.

PICTORIALS

The 15 corridors (including Western Cape Region) are as below:

3.1 Desired Outcomes for Carrying out the Proposed Project

The aspiration of this initiative is the appointment of capable and knowledgeable contractor who can deliver a project based on the designs and specifications issued by the consultants. The goal is to speedily make the various facilities, which have been subjected to vandalism, theft, deterioration, functional and statutory compliant in an expedited manner while not compromising in service excellence.

3.2 Project Benefits to Prasa

The PRASA CRES will realise their strategy of having the infrastructure in good condition available and in line with the Service Resumption, Infrastructure Investment and Development plan in these Corridors in which **Lentegeur Station** will be rehabilitated, to ensure its functionality and related statutory compliance.

It is for this reason that PRASA will need to have a qualified and competent contractor to execute and deliver the project at **Lentegeur Station** along the Central Line in the Western Cape Region.

PRASA CRES will be able to accelerate the implementation of the subject project and thus deliver on its mandate to support Rail in the Service Resumption Plans.

3.3 Current Mechanisms in Place to Address the Problem

Planned and emergency facility management as per PRASA CRES operational budget and operational procedures to immediately address the problem, cannot fully assist in the reinstatement of the railway service adequately, even though some of the budget is available and allocated under the Capital Intervention Programme (CIP) for the current MTEF period. The maintenance required to keep the station operational is mounting due to vandalism that took place.
