TERMS OF REFERENCE

1. INTRODUCTION

The Housing Development Agency (HDA) is a national public sector organisation established in 2009 to support the development of sustainable human settlements across South Africa. In carrying out its mandate to identify, acquire, hold, prepare, and develop land for housing projects, the Agency manages large volumes of records and documentation. Effective records management is therefore critical to ensuring operational efficiency, protecting confidential information, and meeting legal and compliance requirements.

2. BACKGROUND INFORMATION

The HDA Western Cape office has physical records currently kept on-site that require structured sorting, categorisation, secure management and controlled access. The records must be reviewed to determine which documents must be retained, digitised, stored off-site or securely destroyed in line with records management principles and applicable retention requirements.

The current on-site storage of records creates operational and compliance risks where records are not uniformly sorted, indexed, digitised or stored in a controlled off-site environment. Without a structured records management intervention, HDA may experience delays in locating files, inconsistent retention and disposal practices, increased pressure on office storage space and heightened risk in relation to confidential records.

In addition, records are exposed to:

- Physical Damage and Loss – risks such as fire, water damage, and general deterioration.
- Security and Privacy Breaches – unauthorised access to sensitive information.
- Legal and Compliance Risks – failure to meet requirements of the **National Archives and Records Service of South Africa Act (Act 43 of 1996)** and the **Protection of Personal Information Act (POPIA)**.
- Theft and Misplacement – records may be stolen, misplaced, or lost due to lack of controlled storage.

3. OBJECTIVES OF THE PROPOSED PROJECT

To appoint a suitably qualified service provider to deliver records management services for HDA Western Cape records, including:

- Sorting and categorising all physical records.
- Identify documents for retention and disposal.
- Digitise selected records for electronic access onto the HDA EDRMS
- Provide a structured indexing system for easy retrieval.
- Ensure secure and compliant destruction of documents.

4. DESIRED OUTCOMES FOR CARRYING OUT THE PROPOSED PROJECT

- **Control of all Records**: Physical files are properly sorted, categorised, indexed, and stored securely, reducing the risk of loss or misplacement.
- **Faster Retrieval**: Records can be located quickly through clear indexing and electronic access, cutting down delays in service delivery.
- **Storage Space**: On-site space is freed up by moving records to off-site storage and digitising key documents.
- **Stronger Confidentiality**: Sensitive records are protected through secure storage, restricted access.
- **Electronic Access**: Digitised records are available to authorised staff through EDRMS [IMIS], improving efficiency and transparency.

5. PROJECT BENEFITS TO THE HDA

The project will improve control over HDA Western Cape records by ensuring that physical files are sorted, categorised, indexed and securely stored. It will reduce retrieval delays, free up on-site storage space, strengthen confidentiality controls, provide electronic access to digitised records and support compliance with retention and disposal rules and ensures that records management practices meet the requirements of the **National Archives and Records Service of South Africa Act (Act No. 43 of 1996)**. This guarantees that HDA records are managed in line with standards for preservation, access, and lawful disposal.

6. SCOPE OF WORK – DESIRED SOLUTION

The service provider will deliver an end-to-end records management solution covering on-site assessment and preparation; sorting and categorisation of physical records; identification of records for retention and disposal; packing, labelling and barcoding; collection and transportation to secure premises; off-site storage; digitisation of selected documents; document preparation and quality control (including page-completeness verification, indexing, classification and file naming); electronic hosting and controlled user access; filing of processed documents back into their archive locations; disposal of non-record (“junk”) boxes; and secure destruction of approved records.

7. DELIVERABLES

A) **Organised Records**: All records are sorted and grouped by records type and retention period to make them easier to manage.
B) **Packed and Labelled Boxes:** Records are packed into archival boxes, each clearly labelled and barcoded for tracking and quick retrieval.
C) **Digitised Records**: Selected and sorted documents are scanned and indexed so they can be accessed electronically in HDA EDRMS.
D) **Index Report**: A clear report is provided with details of all digitised files, making searches and audits straightforward.
E) **Compliance**: Ensure all records management processes comply with the National Archives and Records Service of South Africa Act (Act 43 of 1996) and the Protection of Personal Information Act (POPIA).

8. SPECIFICATION OF THE WORK OR PRODUCTS OR SERVICES REQUIRED

The service provider's obligations under this appointment include, but are not limited to, the work components set out below.

DOCUMENT PREPARATION AND QUALITY CONTROL

As part of the digitisation and archiving process, the service provider shall be responsible for the preparation, processing and quality control of all HDA Western Cape records identified for digitisation, including the following:

A) **Provision of Barcodes**: Generate and affix unique barcode labels to each archival box and/or file to enable accurate tracking, chain-of-custody control and retrieval throughout the records lifecycle.
B) **Scanning Oversight and Import into HDA EDRMS**: Oversee and quality-control the scanning process and import all digitised records into the HDA's EDRMS for electronic access.
C) **Document Indexing, Classification and File Naming**: Apply the approved indexing structure, classification/file plan and standardised file-naming convention to all records to enable accurate identification and retrieval.
D) **Verification of Page Completeness and Correct Linking**: Conduct page-by-page quality checks to confirm that all scanned images are complete, correctly sequenced and correctly linked to their corresponding electronic record.
E) **Filing Documents Back into Archive Locations**: Return physical documents to their correct archive locations following scanning and quality control and maintain accurate records of box and file locations.
F) **Disposal of Junk Boxes**: Identify, remove and dispose of empty, damaged or non-record boxes and packaging materials in a controlled and documented manner.
A) **Final Quality Assurance and Reporting**: Conduct a final quality assurance review of all processed records and compile a completion report confirming volumes processed, exceptions identified and resolved, and any outstanding items.

The purchaser may also consider termination of the contract pursuant to GCC Clause 23.

23. Termination for default

23.1 The purchaser, without prejudice to any other remedy for breach of contract, by written notice of default sent to the supplier, may terminate this contract in whole or in part:

23.2 In the event the purchaser terminates the contract in whole or in part, the purchaser may procure, upon such terms and in such manner as it deems appropriate, goods, works or services similar to those undelivered, and the supplier shall be liable to the purchaser for any excess costs for such similar goods, works or services. However, the supplier shall continue performance of the contract to the extent not terminated.

23.4 If a purchaser intends imposing a restriction on a supplier or any person associated with the supplier, the supplier will be allowed a time period of not more than fourteen (14) days to provide reasons why the envisaged restriction should not be imposed. Should the supplier fail to respond within the stipulated fourteen (14) days the purchaser may regard

the intended penalty as not objected against and may impose it on the supplier.

23.5 Any restriction imposed on any person by the Accounting Officer / Authority will, at the discretion of the Accounting Officer / Authority, also be applicable to any other enterprise or any partner, manager, director or other person who wholly or partly exercises or exercised or may exercise control over the enterprise of the first-mentioned person, and with which enterprise or person the first-mentioned person, is or was in the opinion of the Accounting Officer / Authority actively associated.

When a person's name has been endorsed on the Register, the person will be prohibited from doing business with the public sector for a period not less than five years and not more than 10 years. The National Treasury is empowered to determine the period of restriction and each case will be dealt with on its own merits.
