

Data Sheet for Wash Water Pump Station

Wash water Pumps - Data Sheet		
Contact Details of Supplier		
Supplier:		
Country of manufacture:		
Contact Number:		
Contact Person:		
E-Mail Address:		
Description	Unit	Required / Offered
Location	--	Washwater Pump Station
Number of units	No.	2 sets of 3 pumps
Make and Model	--	
Type	--	Multi-stage
First duty flow	l/s	30-35
Pressure required	bar	4.0
Second duty flow	l/s	30-35
Pressure required	bar	4.0
Medium pumped	--	clearwater prior to disinfection
NPSH required	m	1.53
Additional Information and Maintenance:		
Description		
Recommended Spares:		
Description		

ATTACH ADDITIONAL SUPPORTING DOCUMENTATION, SPECIFICATIONS AND DATA SHEETS HERE
Supporting Manufacturer's product information sheets are to accompany the tender. The tenderer shall ensure that the civil works and the offered equipment are compatible.

Wash water Pump Station In-line Filter - Data Sheet		
Contact Details of Supplier		
Supplier:		
Country of manufacture:		
Contact Number:		
Contact Person:		
E-Mail Address:		
Description	Unit	Required / Offered
Location	--	Washwater Pump Station
Number of units	No.	2
Make and Model	--	
Type	--	Automatic, horizontal self-cleaning screen filter
Max. recommended flow rate	m ³ /h	
Headloss (clean filter)	mm	
Flange type	--	ISO16
Inlet connection diameter	mm	
Outlet connection diameter	mm	
Backflush connection diameter	mm	
Filtration grade	μ	
Filtration area	cm ²	
Max. operating pressure	bar	
Min. backflush pressure	bar	
Backflush flow rate	m ³ /h	
Length of unit	mm	
Height of unit	mm	
Width of unit	mm	
Inlet to outlet dimension	mm	
Outlet to drain dimension	mm	

Clearance for maintenance	mm	
Weight of unit	kg
