SECTION 2

BACKGROUND OVERVIEW AND SCOPE REQUIREMENTS

1 INTRODUCTION AND BACKGROUND

The core business of Buildings, Bridges & Structures (BBS) is to manage and maintain the Operational facilities assets used by Prasa as well as commercial assets used by Prasa Cres to generate an income for Prasa with the focus on stations and other income generating assets. Buildings, Bridges & Structures (BBS) is an integrated department within the Facilities department residing under Prasa Cres, taking full responsibility of all building assets in all Regions. Where the focus of BBS was on maintenance of all building assets required to operate a train service, the focus have now moved away from maintaining only operational assets to include all commercial assets leased out by Prasa Cres, as well as assets utilized by Shosholoza Meyl, as well as the assets utilized by Autopax, a subsidiary of Prasa.

We are servicing stations as far as De Aar Station situated in the far North and it takes time to commute to those stations. Therefore, it is more economical to appoint contractors to service and repair building facilities infrastructure, i.e., Ceiling repairs, window replacement etc.

The contract work consists of:

1. Civil Works, Maintenance, and repairs, as required. (Refer **to scope of work for details**)

The contractor shall integrate the provision of his services into the general operation of the Prasa operational system which may require that the Contractor co-operate with other contractors employed by Prasa.

2. BACKGROUND INFORMATION

2.1 STATUS QUO

- o The Region third biggest cost driver is Civil services. This makes up approx. 50% of the emergencies recorded on a monthly basis. Given our required resolution rate for emergencies within the specified time, contracts must be put in place to improve service levels.
- o We currently have no qualified artisan for the regions.

2.2 PROBLEM STATEMENT

- o Train users, stake holders and communities all require safe, well maintained fixed assets at stations where Prasa runs train services.
- o Transportation of commuters is the core business for PRASA and the impression that customers have of PRASA depends on their experience while travelling and using the stations and other assets of Prasa. Hence, the maintenance and repairs of these infrastructure is critical to all stakeholders.
- o Stations were erected with taxpayer money and Prasa has a duty to the taxpayer and to the Auditor General to ensure that State infrastructure is properly maintained for the benefit of the paying customers.
