**TERMS OF REFERENCE FOR THE APPOINTMENT OF PROFESSIONAL SERVICE PROVIDER TO CONDUCT DIAGNOSTIC STUDY IN LIMPOPO PROVINCE MUNICIPALITIES ON BEHALF OF THE DEPARTMENT OF COOPERATIVE GOVERNANCE, HUMAN SETTLEMENTS AND TRADITIONAL AFFAIRS**

**1. PURPOSE**

The purpose of this project is to conduct diagnostic study in all twenty-seven (27) Limpopo municipalities looking at their performance since 2016/17 financial year to 2020/21 financial year and compile a report per municipality with specific recommendations on areas that would require improvement or attention by both municipalities and the department/provincial government.

**2. BACKGROUND**

Local government is where most citizens interface with government, and its foundational ethos must be about serving people. The core services that local government provides - clean drinking water, sanitation, electricity, shelter, waste removal and roads - are basic human rights, essential components of the right to dignity enshrined in our Constitution and Bill of Rights. The vision of developmental local government, as outlined primarily in the 1998 White Paper on Local Government was that it would be the building block on which the reconstruction and development of society is built, a place in which the citizens could engage in a meaningful and direct way with the institutions of the state.

Section 152 of the Constitution mandates local government to structure its administration, budgeting and planning processes to promote the social and economic development of the community. Informed by the Constitutional provisions, the 1998 White Paper on Local Government provides four characteristics of developmental local government namely:

- a. Maximizing social development and economic growth;
- b. Integrating and coordinating;
- c. Leading and learning; and
- d. Democratizing development.

These characteristics, supported by the various functions of Local Government as outlined in Schedules 4B and Schedule 5B of the Constitution, as well as other sectoral legislative and policy provisions, provide a clear framework and basis for developmental local government functioning and characteristics.

The Department of Co-operative Governance, Human Settlements & Traditional Affairs is mandated to monitor, assess, and provide support to municipalities in the performance of their powers and functions.

The Constitution of the Republic of South Africa, 1996 section (152)(2) prescribes that a municipality must strive, within its financial and administrative capacity, to achieve the objects set out in subsection(1).

Section (154)(1) of the Act supra further prescribes that the national and provincial governments, by legislative and other measures, must support, strengthen the capacity of municipalities to manage their own affairs and to perform their functions.

Section 155(6) further prescribes that each provincial government must establish municipalities in its province in a manner consistent with the legislation enacted in terms of subsections (2) and (3) and, by legislative and other measures, must-

- a. provide for the monitoring and support of local government in the province; and
- b. promote the development of local government capacity to enable municipalities to perform their functions and manage their own affairs.

### TERMS OF REFERENCE FOR THE APPOINTMENT OF PROFESSIONAL SERVICE PROVIDER TO CONDUCT DIAGNOSTIC STUDY IN LIMPOPO PROVINCE MUNICIPALITIES ON BEHALF OF THE DEPARTMENT OF COOPERATIVE GOVERNANCE, HUMAN SETTLEMENTS AND TRADITIONAL AFFAIRS

#### 1. PURPOSE

The purpose of this project is to conduct diagnostic study in all twenty-seven (27) Limpopo municipalities looking at their performance since 2016/17 financial year to 2020/21 financial year and compile a report per municipality with specific recommendations on areas that would require improvement or attention by both municipalities and the department/provincial government.

#### 2. BACKGROUND

Local government is where most citizens interface with government, and its foundational ethos must be about serving people. The core services that local government provides - clean drinking water, sanitation, electricity, shelter, waste removal and roads - are basic human rights, essential components of the right to dignity enshrined in our Constitution and Bill of Rights. The vision of developmental local government, as outlined primarily in the 1998 White Paper on Local Government was that it would be the building block on which the reconstruction and development of society is built, a place in which the citizens could engage in a meaningful and direct way with the institutions of the state.

Section 152 of the Constitution mandates local government to structure its administration, budgeting and planning processes to promote the social and economic development of the community. Informed by the Constitutional provisions, the 1998 White Paper on Local Government provides four characteristics of developmental local government namely:

- a. Maximizing social development and economic growth;
- b. Integrating and coordinating;
- c. Leading and learning; and
- d. Democratizing development.

These characteristics, supported by the various functions of Local Government as outlined in Schedules 4B and Schedule 5B of the Constitution, as well as other sectoral legislative and policy provisions, provide a clear framework and basis for developmental local government functioning and characteristics.

The Department of Co-operative Governance, Human Settlements & Traditional Affairs is mandated to monitor, assess, and provide support to municipalities in the performance of their powers and functions.

The Constitution of the Republic of South Africa, 1996 section (152)(2) prescribes that a municipality must strive, within its financial and administrative capacity, to achieve the objects set out in subsection(1).

Section (154)(1) of the Act supra further prescribes that the national and provincial governments, by legislative and other measures, must support, strengthen the capacity of municipalities to manage their own affairs and to perform their functions.

Section 155(6) further prescribes that each provincial government must establish municipalities in its province in a manner consistent with the legislation enacted in terms of subsections (2) and (3) and, by legislative and other measures, must-

- a. provide for the monitoring and support of local government in the province; and
- b. promote the development of local government capacity to enable municipalities to perform their functions and manage their own affairs.
